Ariel Sharon's birth name is Ariel Shinerman. Like 90% of the Israeli population he is of non-semetic (european) ancestry. The sooner these traitors to Judaism and humanity are unmasked and punished the better. PEACE.

Ariel Sharon & the rest= Khazar Turks, they committed treason against the Judaism world order years ago.

They dispise the hebrews(arabs) of morocco and palestine and they call themselves "jews" because they invaded palestine and israel....

OVER 90 % of ALL jEWS are Ashkenazis...They came from Eastern Europe and "converted" to jUDAISM ....This does NOT make them Semites, anymore than those Peruvians who "converted" to jUDAISM magically become Semites...

JTR and JW are neo-nazi sites; by linking to them the anonymous author is indicating that he's either unaware of this or (more likely) in on spreading the disinformation. He is likely the author of comments 2 and 3, which came in around the same time.

Whether Sharon and the gang are really Jewish isn't even relevant anyhow. The global elite consider themselves above the rest of humanity and race is just a tool they use to divide people.

The issue is about criminals, not races or nations, and the goal is to prevent criminals from hiding behind their racial/religious/ethnic backgrounds as a cover.

There is no war but the class war, and even then, people like the warmongers have led many people to forget that there are (an admittedly small) number of wealthy people who earned it honestly.
