## London Underground Bombing 'Exercises' Took Place at Same Time as Real Attack

Culpability cover scenario echoes 9/11 wargames

Paul Joseph Watson & Alex Jones/Prison Planet | July 9 2005

A consultancy agency with government and police connections was running an exercise for an unnamed company that revolved around the London Underground being bombed at the exact same times and locations as happened in real life on the morning of July 7th.

On a BBC Radio 5 interview that aired on the evening of the 7th, the host interviewed Peter Power, Managing Director of **Visor Consultants**, which bills itself as a 'crisis management' advice company, better known to you and I as a PR firm.

Peter Power was a former Scotland Yard official, working at one time with the Anti Terrorist Branch.

Power told the host that at the exact same time that the London bombings were taking place, his company was running a 1,000 person strong exercise which drilled the London Underground being bombed at the exact same locations, at the exact same times, as happened in real life.

The transcript is as follows.

POWER: At half past nine this morning we were actually running an exercise for a company of over a thousand people in London based on simultaneous bombs going off precisely at the railway stations where it happened this morning, so I still have the hairs on the back of my neck standing up right now.

HOST: To get this quite straight, you were running an exercise to see how you would cope with this and it happened while you were running the exercise?

POWER: Precisely, and it was about half past nine this morning, we planned this for a company and for obvious reasons I don't want to reveal their name but they're listening and they'll know it. And we had a room full of crisis managers for the first time they'd met and so within five minutes we made a pretty rapid decision that this is the real one and so we went through the correct drills of activating crisis management procedures to jump from slow time to quick time thinking and so on.

The fact that the exercise mirrored the exact locations and times of the bombings is light years beyond a coincidence. Power said the drill focused around 'simultaneous bombings'. At first the bombings were thought to have been spread over an hour, but the **BBC reports** just today that the bombings were in fact simultaneous.

Mr. Power (pictured above) and Visor Consultants need not have been 'in on the bombing' or anything of that nature for this to be of importance. The British government or one of their private company offshoots could have hired Visor to run the exercise for a number of purposes.

The exercise fulfils several different goals. It acts as a cover for the small compartmentalized government terrorists to carry out their operation without the larger security services becoming aware of what they're doing, and, more importantly, if they get caught during the attack or after with any incriminating evidence they can just claim that they were just taking part in the exercise.

This is precisely what happened on the morning of 9/11/2001. The CIA was **conducting drills** of flying hijacked planes into the WTC and Pentagon at 8:30 in the morning.

It is clear that at least five if not six training exercises were in operation in the days leading up to and on the morning of 9/11. This meant that NORAD radar screens showed as many as 22 hijacked airliners at the same time. NORAD had been briefed that this was part of the exercise drill and therefore normal reactive procedure was forestalled and delayed.

The large numbers of 'blips' on NORAD screens that displayed both real and 'drill' hijacked planes explain why confused press reports emerged hours after the attack stating that up to eight planes had been hijacked.

The Anglo-American establishment that controls the military-industrial complex of the West has been caught over a hundred times carrying out bombings and other terrorist attacks around the world to further their corporate aims and to blame their enemies.

The US government has been caught planning to carry out attacks and carrying out attacks. The British government has been caught red-handed as well. Members of Vladimir Putin's FSB were **caught planting bombs** in a Russian apartment building in 1999 by the Moscow police.

This is not speculation. Kermit Roosevelt admitted on NPR radio that in 1953 the CIA and British intelligence carried out a wave of **bombings and shootings in Iran**. He then went on to brag about how they subsequently blamed the bombings on Iran's President, Mossadegh. Do you understand, these people brag about what they do 40 years later?

The London bombings have the same signature as the Madrid bombings of 3/11. Both of these bombings are almost indistinguishable from the Bologna bombing in 1980 that killed over 80 people.

The bombing in Bologna was part of a CIA operation code named **Gladio**, where the US government would pay right-wing terrorists to carry out bombings to be blamed on leftists in Europe. All of this was blown wide open when two of the Bologna bombers were convicted in an Italian court, forcing them to spill their guts admitting that they were neo-fascists contracted by the CIA. **Operation Gladio** documents have since been declassified.

The London terror **alert level was lowered** before the bombings took place. This gave the perpetrators extra cover to plan and execute the attack without having to evade the most stringent security.

In any crime you look at history and motive, The British government has been caught in multiple examples of carrying out bombings in London which were then blamed on the IRA. They even had **one of their own** MI5 agents within the Omagh bomb squad. **Click here** for an archive of this evidence.

The wider agenda will become clearer when Blair firmly points the finger at the selected patsies designated to take the fall. But for the moment he's happy to grandstand as the courageous leader who immediately returned to London to take control of the chaos.

**BBC polls that were showing 80 per cent plus opposed the ID card** will now likely flip back in the opposite direction. Support for the European Union and increased globalization through the G8 will rise. Who stands to gain from all this? Who has the motive?

From **Putin blowing up his own apartment buildings to Israel being behind Hamas**, the evidence is consistently clear that large scale terrorism is always state sponsored.

The Madrid train bombing is another example. The bombers were found to be **police informants** with close links to the **Spanish security services**. They had access to the most secure areas of the Madrid train system. The Spanish government initially tried to blame the Basque group ETA for the blast in the hope that the people would rally behind the government and get them re-elected. After ETA denied involvement and the people started saying the government was involved, the Spanish government had to blame Al-Qaeda and kill some patsies by claiming they blew themselves up during a raid.

The London Underground exercises were used as the fallback cover to carry out the attack. This is the biggest smoking gun yet pointing directly to the most secretive levels of the British establishment itself being behind the attack.
