[New Orleans,
Criminals,
Looters and
The Second
Amendment.](#)

Bill Benson, for those who don't know, is the individual who holds the 17,000 court certified documents that prove beyond any doubt that the Sixteenth Amendment to the U.S. Constitution was never ratified. The IRS uses the Sixteenth Amendment, supported by cowardly federal judges, to defraud the American people of the fruit of their labors via the income tax. Those of us who have studied this issue know their position of relying on the fraudulently ratified Sixteenth Amendment is a lie, but most Americans don't understand their trickery.

For those who may not be up to speed on where this income tax forced from you by threats and coercion goes, I encourage you to read one of my recent columns [here](#). Many find this truth shocking, but it is the truth and you will see the document in that link. There are a couple of links in that column that you should also study, along with a [document I wrote](#) years ago titled 'Why an Income Tax is Not Necessary to Fund the Federal Government'. Research is time consuming, ask me. However, it is only through research do we learn the truth, which will in turn, prompt Americans to reject the blatant lies told by institutions of higher education, politicians and special interest groups.

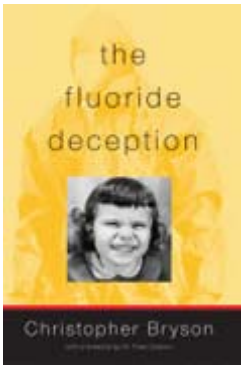

Right now my dear friend, Bill Benson, is involved in a major court battle with the feds. Despite his very serious health issues, this lion is not about to give up the fight. The latest brief on this critical case can be found [here](#). I encourage everyone to read it and disseminate it to all of your mailing lists, members of Congress and your state legislatures. Bill is being represented by Jeffrey Dickstein, who was lead counsel in Joseph Banister's criminal case; [Joseph was acquitted on all charges](#) and the IRS was handed a bloody loss. What this lawsuit by the feds against Bill amounts to is the complete and total destruction of free speech. This lawsuit against Bill is to crush the truth using the full force of the federal government. This lawsuit is to keep the truth Bill has uncovered away from the American people.

can be found [here](#).

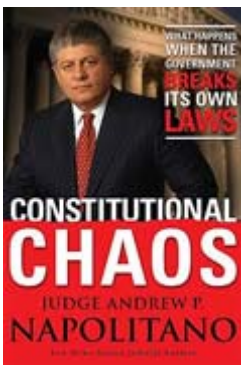

Thousands died to birth this republic ([we are NOT a democracy](#)). Those incredibly wise men who wrote the Constitution and Bill of Rights knew how important freedom of speech is for a free people. What the government is doing to protect the big lie of the income tax is not only shameful, if they succeed, we are all in even more peril than the average Dick and Jane can imagine.

A More Perfect Union

One of the biggest problems we have is an ignorant electorate...besides [massive vote fraud](#). For the past forty years, the government's indoctrination centers they call public schools, have been teaching communism dressed up as [liberalism by progressives](#). Tens of millions of Americans believe our legal form of government is a democracy. [We are not a democracy](#), but a constitutional republic. Tens of millions of Americans have [no understanding](#) of the income tax and the fraud being perpetuated upon we the people. We can thank the government's indoctrination center for being so effective in brainwashing more than a generation of America's children who can barely spell by the time they graduate from high school, if they graduate.

Knowledge is power and it is absolutely critical that we get our fellow Americans to kill the television and learn the truth about the founding of this republic and why so many were willing to die for independence. Thousands of colonials gave up their

tomorrows so we could have ours as a free people. Shall we shame them by letting all that we hold dear slip from us without doing everything within our power to stop the planned destruction of America?

We need our fellow country men and women to get the message: America is on the brink. Life as we have known it will soon be gone if the people don't get on the same sheet of music and begin to grasp that we are in the fight of our lives for our freedom and liberties given us by tens of thousands of gallons of blood running on the battlefield. What you and I do over the next 15 months will determine whether or not our children and grand babies will live free or on their knees as indentured servants under a communist dominated world.

Probably the most effective tool available today is the DVD, *A More Perfect Union*. For the sake of full disclosure, I do **not** receive any compensation in any form for recommending this important tool in educating adults and students. Last year and I know it's shocking, Congress did pass a law mandating "Constitution Day." It was celebrated this year on September 16, 2005. According to a recent *CNN* piece:

"A study titled "The Future of the First Amendment," commissioned by the John S. and James L. Knight Foundation and released early this year, listed among its findings that nearly three-fourths of high school students either do not know how they feel about

the First Amendment or admit they take it for granted, and nearly half of the students surveyed incorrectly believe that the government has the authority to censor the Internet."

Of course, those of us who have been in the trenches for decades know the level of ignorance about the history of this republic, our laws, rights and freedoms is staggering. A *More Perfect Union* is the prime project of [The National Center for Constitutional Studies](#). I have been aware of their work for more than a decade and a group of finer, more dedicated Americans would be hard to find. Their goal is to make sure every school in America has a copy of *A More Perfect Union* for use, not just on Constitution Day each year, but throughout the year in civics classes. Under the new law, every public school has to have a program on the Constitution and I want to help make this a reality.

To date, they have been able to get this DVD to more than 50,000 school teachers. *A More Perfect Union* is a superbly done DVD in all its color and production. *A More Perfect Union* has also been given the stamp of approval by the Commission on the Bicentennial of the United States Constitution - no small feat and making it even more acceptable by teachers. While at the Freedom 21 Conference in Reno this past July, I had the pleasure of meeting Zebulon Nelson from the NCCS who gifted me a few copies of *A More Perfect Union*. I have already given them to teachers I know for their class room work; they were ecstatic to receive

a copy. One teaches college and he is going to make sure all his classes see it - twice!

NewsWithViews.com has worked one heck of a special arrangement with NCCS to help get this DVD into the hands of millions of Americans, students and teachers. Each time you purchase a book or video from NWVs, you can get a copy of this fantastic DVD for [only \\$1.50 extra](#). *A More Perfect Union* retails for \$39.95 and people pay it, but I hope you'll order any of the excellent [books](#) or [videos](#) available and obtain your 2 hr. movie *A More Perfect Union* for only \$1.50.

As for book suggestions, regarding the Sixteenth Amendment and Bill Benson's case, I highly recommend Representative Phil Hart's incredible book, [Constitutional Income: Do You Have Any?](#) For Dr. Edwin Vieira's phenomenal work on judges and the *Lawrence v Texas* case, I highly recommend [How to Dethrone the Imperial Judiciary](#). Americans believe that federal judges and supreme court justices are automatically given a life time salary on the bench. Wrong. Read Edwin's book and get the truth from one of the finest legal minds in this country. If anyone should be Chief Justice of the U.S. Supreme Court, it should be Dr. Edwin Vieira.

Today's children are tomorrow's society and tomorrow's leaders. I am truly saddened by the ignorance I have seen over the past 16 years as I have traveled this country, done more than 2,000 radio shows and two runs for Congress. It is our duty to make sure America's children are educated with the truth about the birthing of this glorious republic and I hope you will take advantage of this wonderful opportunity to acquire *A More Perfect Union*. Thomas Jefferson said it so well, "If a nation expects to be ignorant and free, in a state of civilization, it expects what never was and never will be."

***Never Miss
Another BIG
Story***

There is one other thing we must all do to stop the massive vote fraud stealing our elections. I am asking all Americans: Attend every city council and county board of supervisors meeting. Demand paper ballots, hand counted in front of the general public and get rid of these easily rigged machines. We must have paper ballots for the 2006 elections in as many precincts as possible. If your elected officials refuse, tell them they will be the target of a recall, and if you don't have recall, make it clear to them they're gone. The 2006 elections are our last hope to get individuals elected who can and will get the job done in saving this republic. Time grows short for liberty because if we don't clean out these gangsters running Washington, DC, our state houses, governors and local petty elected bureaurats in '06, we

will have run out of time.
