[Israel Oil Pipeline - Operation: Free Iraq Oil](#)

The predicted plan to build a pipeline to siphon oil from newly conquered Iraq to Israel are finally being released/advertised

to the media. The plan utilizes the reconstruction of an old pipeline, inactive since the end of the British mandate in Palestine in 1948, when the flow from Iraq's northern oilfields to Palestine was re-directed to Syria.

Oil revenue is being brought to Israel and the U.S. now thanks to the new US-dominated Iraq, cutting out U.S. oil-dependence on Syria. It is my personal belief that this plan has been in the works since even before the very beginning of the Iraq war.

It is my opinion that the Iraq War was George Bush's answer to America's energy crisis all along. He just needed to convince the American people to go to war by sending terror into their hearts. There is no smoking gun in Iraq, but there is plenty of oil.

U.S. occupation of Iraq solves all of the U.S. energy problems. U.S. occupation of Iraq and the siphoning of oil creates an end less and easily accessible source of cheap Iraqi oil for the U.S.

Until 1948, the pipeline ran from the Kurdish-controlled city of Mosul to the Israeli port of Haifa, on its northern Mediterranean coast.

I believe the plan to revive this pipeline goes back even before the advent of what I like to call; "Operation: Free Iraq Oil".

The revival of the pipeline was discussed between U.S. officials and by the Israeli Minister for National Infrastructures, Joseph Paritzky, according to the Israeli newspaper Ha'aretz. The paper quotes Paritzky as saying that the pipeline would cut Israel's energy bill drastically - probably by more than 25 per cent - since the country has been largely dependent on 8 billion dollar donations from the U.S. so Israel can afford to purchase expensive imports from Russia.

US intelligence sources confirmed that the project has been discussed and is now being revealed to the media, finally.

One former senior CIA official said: 'It has long been a dream of a powerful section of the people now driving this administration [of President George W. Bush] and the war in Iraq to safeguard Israel's energy supply as well as that of the United States. The Haifa pipeline was something that existed, was resurrected as a dream and is now a viable project.'

To resurrect the oil pipeline from Iraq to Israel needs the backing of whatever government the US has to put in place in Iraq, and has been discussed - according to Western diplomatic sources - with the US-sponsored Iraqi National Congress and its

leader Ahmed Chalabi, the former banker favoured by the Pentagon for a powerful role in the war's aftermath.

Sources at the State Department said that concluding a peace treaty between Israel and other Arab Nations is to be 'top of the agenda' for a new U.S.-led Iraqi post-war government, and Chalabi is known to have discussed The "New Iraq's" recognition of the state of Israel.

James Akins, a former US ambassador to the region and one of America's leading Arabists, said," "There would be a fee for transit rights through Jordan, just as there would be fees for Israel from those using what would be the Haifa terminal. 'After all, this is a new world order now. This is what things look like particularly if we wipe out Syria. It just goes to show that it is all about oil, for the United States and its ally Israel.'"

Akins was ambassador to Saudi Arabia before he was fired after a series of conflicts with then Secretary of State Henry Kissinger, father of the vision to pipe oil west from Iraq. So, you see, the dream of "Operation: Free Iraq Oil" dates back to 1975, when Kissinger signed what forms the basis for the Haifa project: a Memorandum of Understanding whereby the US would guarantee Israel's oil reserves and energy supply in exchange for political favors etc. A pact of allies based on underhanded secret dealings kept secret from the American people for decades.

Kissinger was also master of the American plan in the mid-Eighties - when Saddam Hussein was a key US ally - to run an oil pipeline from Iraq to Aqaba in Jordan, opposite the Israeli port of Eilat. The plan was promoted by the now Defence Secretary Donald Rumsfeld, and the pipeline was to be built by the Bechtel company, which the Bush administration last week awarded a multi-billion dollar contract for the reconstruction of New Iraq. The memorandum has been quietly renewed every five years, with special legislation attached whereby the US stocks a strategic oil reserve for Israel even if it entailed domestic shortages - at a cost of \$3 billion (£1.9bn) in 2002 to US taxpayers. This bill would be slashed by a new pipeline, which would have the added advantage of giving the US reliable access to Gulf oil other than from Saudi Arabia.

So you see the true axis of evil is really The New World Order that George Bush senior talked about back in the days of Desert Storm. It is the U.S., Israel and the New Iraq Global take over. The Middle East is slowly being occupied and dominated by Israel and America. Operation: Iraq Free Oil is no longer a dream. It is a waking nightmare based upon the mixing of money, blood and oil from the wholesale slaughter of innocents in the name of a U.S. and Israeli Global Superpowerstructure hellbent on taking over the world. The New World Order is here and it's not a pretty picture. The creation of a Zionist American/Israeli Super Power is in the works and something needs to be done to stop it. Before it's too

late!
