## Why is Israel interested in secret reports about attacks on American troops?

[US Army Col. J. Denim](#) says the Khobar attackers picked a building that was visited by Israeli advisors. Army bomb experts found residues from explosives that are only available to the US military and Israel.

You can't negotiate with a degenerate group of individuals who are blackmailing our government.

The Israelis are known for this. This is why our debt is so enormous. We should blow this country off the face of the earth, and let the American people keep the money we keep sending to these scumbags.
