

WHO IS THE US CONGRESS LISTENING TO?

They didn't listen to these people.

DC PROTEST SEEN FROM THE TOP OF THE WASHINGTON MONUMENT!

Congress didn't listen to these people, either.

Millions of Americans have marched in the streets of all of the major US cities opposing wars in the Mideast. Yet the US Congress, which supposedly exists to represent the will of the people, refused to listen. Instead, they voted the President the authority to take this nation to war. More recently, and despite the exposure of the President's justifications for war as fiction, Congress again voted for more war by voting against legislation intended to end US involvement in Iraq, introduced by Kucinich, Abercrombie, and Woolsey.

So, the US Congress isn't listening to the people. They are listening to someone who WANTS more war.

Well, Israel certainly wants war! But that is Israel. Why would the US Congress, which supposedly exists to serve the will of the AMERICAN people, be obeying the will of Israel?

Well, maybe because Israel's lobbying/spying organization, AIPAC, is [PAYING THEM TO!](#)

You heard me. Members of AIPAC, the organization suspected of spying for Israel, [donate vast sums of money to the members of US Congress.](#) And the US Congress has sold our young men and women in uniform to go off and fight and die in wars Israel has created.

So, here is what you need to do. You need to call all of your [congressional representatives](#) and tell them they can either work for AIPAC, or they can work for you, but you will not tolerate a Congress that accepts money from suspected spies of a foreign government and then quite obviously proceeds to serve the will of that government. Tell them that not only will you never again vote for any Congressman that accepts money from Israeli agents but that you intend to work for and support their opposition next election. Tell them better no government at all than a government that serves a foreign power.

Get angry.

Who is Congress listening to? It is time to make certain that it is you!
