

Why the Palestinians are eliminating their traitors

What is the reality?

A half-truth is worse than a lie

Falsification of the Holocaust

by Prof. **Israel Shahak**

"If we knew a little of the truth about the Holocaust, we would at least understand (with or without agreeing) why the Palestinians are now eliminating their collaborators. That is the only means they have if they wish to continue to struggle against our limb-breaking regime."

Letter to the editor , by Prof. Israel Shahak, published on 19 May 1989 in Kol Ha'ir, Jerusalem:

I disagree with the opinion of Haim Baram that the Israeli education system has managed to instil a 'Holocaust awareness' in its pupils (Kol Ha'ir 12.5.89). It's not an awareness of the Holocaust but rather the myth of the Holocaust or even a falsification of the Holocaust (in the sense that 'a half-truth is worse than a lie') which has been instilled here.

As one who himself lived through the Holocaust, first in Warsaw then in Bergen-Belsen, I will give an immediate example of the total ignorance of daily life during the Holocaust: In the Warsaw ghetto, even during the period

of the first massive extermination (June to October 1943), one saw almost no German soldiers.

Nearly all the work of administration, and later the work of transporting hundreds of thousands of Jews to their deaths, was carried out by Jewish collaborators.

Before the outbreak of the Warsaw Ghetto Uprising (the planning of which only started after the extermination of the majority of Jews in Warsaw), the Jewish underground killed, with perfect justification, every Jewish collaborator they could find. If they had not done so the Uprising could never have started.

The majority of the population of the Ghetto hated the collaborators far more than the German Nazis. Every Jewish child was taught, and this saved the lives of some of them "if you enter a square from which there are three exits, one guarded by a German SS man, one by a Ukrainian and one by a Jewish policeman, then you should first try to pass the German, and then maybe the Ukrainian, but never the Jew".

One of my own strongest memories is that, when the Jewish underground killed a despicable collaborator close to my home at the end of February 1943, I danced and sang around the still bleeding corpse together with the other children.* I still do not regret this, quite the contrary.

It is clear that such events were not exclusive to the Jews, the entire Nazi success in easy and continued rule over millions of people stemmed from the subtle and diabolical use of collaborators, who did most of the dirty work for them. But does anybody now know about this?

This, and not what is 'instilled' was the reality.

Of the *Yad Vashem* - (official state *Holocaust museum* in Jerusalem - Ed.) - theatre, I do not wish to speak at all. It, and its vile exploiting, such as honouring South Africa collaborators with the Nazis are truly beneath contempt.

Therefore, if we knew a little of the truth about the Holocaust, we would at least understand (with or without agreeing) why the Palestinians are now eliminating their

collaborators. That is the only means they have if they wish to continue to struggle against our limb-breaking regime.

Kind regards,

Israel Shahak

Our weakness

We must know that our weakness is Israel's strength. The regimes that are in power in our countries are like dead bodies, our "leaders" are politically finished. Instead of stepping down in honor, they cling bitterly to power and try to drag their peoples along into the precipice.

In the first place, we must conquer tyranny, decadence and corruption in our own hearts and in our countries! Instead of giving up, we must work seriously to create the economic, political, military and social conditions for the future victory of the Justice.

The future belongs to the forces of Islam. The Hezbollah, Hamas and the Jihad are the Islamic response to the Zionist challenge. The Islam began in the 6th century as a cultural, and spiritual movement against the superpowers of that time.

The military strength of the Islam grew as a consequence of its spiritual strength. Today, capitulating before the Jewish arrogance is not a solution; it is betraying the future generations. If we can not create victory today, we must not create defeat ourselves. The least we can do is to capitulate without resisting.

Any "solution" violently extorted, any unjust "peace" (capitulation) will be rejected by the future generations. The only real solution of the Palestinian question lies in the return of the Palestinian people to their fatherland.

= Nos voleurs!

Il y a des problèmes extrêmes où nous nous débattons et que nous avons trop tardé à regarder en face. A la différence des pays occidentaux, nos "pays musulmans" ne connaissent que peu de hold-up de banques. C'est que les voleurs d'envergure savent qu'aujourd'hui, dans nos pays, la source d'enrichissement la plus sûre, la plus rapide, la seule à vrai dire, est le pouvoir. A titre d'exemple : le système féodal (makhzen) - qui n'a rien à voir avec l'Islam - que Hassan II a perpétué anachroniquement au Maroc en plein XXe siècle - fait de la corruption généralisée un système de gouvernement.

Le régime de Hassan II constitue, pour notre pays, pour notre peuple et pour notre avenir un danger mortel réel. Face à ce danger et à son défi, il n'y a, devant nous, qu'une seule alternative et une seule réponse: **une révolution islamique radicale, éclairée, intelligente, tolérante et libératrice!**

En Islam, la liberté est la règle et l'interdit est l'exception.

Il s'impose donc urgence et nécessité vitale de créer un **Front Islamique uni pour la Libération du Maroc**.

Les grands ne sont grands que parce que nous sommes à genoux. Levons-nous!

Radio Islam is working to promote better relations between the West and the Muslim World. Radio Islam is against racism of all forms, against all kinds of discrimination of people based on their colour of skin, faith or ethnical bakground. Consequently, Radio Islam is against Jewish racism towards non-Jews. The World Jewish Zionism, today, constitutes the last racist ideology still surviving and the Zionist's state of Israel, the last outpost of "Apartheid" in the World. Israel constitutes by its mere existence a complete defiance to all international laws, rules and principles, and the open racism manifested in the Jewish State is a violation of all ethics and morals known to Man.
