The U.S. Department of Justice, led by Alberto "The Constitution is an outdated document" Gonzales, wants to know if you've been looking at any racy material on the Internet.

Yahoo and MSN have already complied with subpoenas from Gonzales' storm troopers demanding records on who is using their search services to look at porno sites on the Internet.

Google, to their credit, said no and is now caught in a tough legal fight against the George Bush's Gestapo.

Ohmigod! Did he say Gestapo?

Damn right I did. If you don't think the rights-robbing, privacy-invading, Constitution ignoring administration of George W. Bush is anything less than a Hitler-style Gestapo then you've got your head stuffed so far up your ass that all that brown stuff is blinding you.

America, once hailed as the land of the free, has – under the tyranny of King George – become Amerika, reviled as a global thug that doesn't give a damn about anyone's rights, especially those of its own citizens.

Protest if you want. Spout the Republican Party line is you can without gagging. I don't give a damn. If you believe George W. Bush is anything less than an American Hitler then you're too damn dumb and stupid to argue with anyway.

Bush is an evil man, a power-grapping despot who believes in absolute rule, a madman so wrapped up in his perceived role as “a wartime President” and “Commander in Chief” that he believes no law applies to him or his rotting, corrupt, administration. The Constitution? Why it's just “a goddamned

piece of paper” to this insane megalomaniac.

Legal scholars agree that Bush blatantly broke the law by ordering the National Security Agency to spy on Americans without warrants or court review. The only cretins who support this dictator are the brain-dead Republicans who put power above the law and party loyalty above their country.

Bush is a traitor to his country. As a traitor, he should be led from the White House in chains and tried as one. Since he insists he is a “wartime President,” then let’s try the son-of-a-bitch as a wartime traitor, a Benedict Arnold who turned on his country and gave aid and comfort to its enemies. Bush has done far more damage to the freedoms and security of American than Osama bin Laden. In fact, I’m starting to believe the traitorous asshole is in league with bin Laden and others who want this country destroyed.

No true American would treat the Constitution with the contempt that spills like toxic bile from the lips of George Bush. No true American would continue to support this maniac as he continues to dismantle what once was the greatest country in the world.

Bush is clearly guilty of high crimes against the Constitution of the United States. It’s time to give this reincarnation of Adolph Hitler

exactly what he deserves.
