Some minutes ago, Baztab, an Iranian news site close to Revolutionary Guards, **reported** that America's army has lunched a joint military base with Israeli forces near Lebanese border and US soldiers now are covertly fighting against Hezbollah.

Yesterday baztab also **reported** that Israel Defense Forces soldiers who were abducted by Hezbollah on July 12, exposed secrets to Lebanese army, including IDF maneuvers for a massive attack on Lebanon in the fall, also this fact that the abduction caught Israel by surprise and forced an early invasion.

According to **Haaretz**, Baztab's claims are likely part of a psychological warfare or an attempt to coordinate stands between Iran and Hezbollah, in an effort to explain the fighting in Lebanon to the public.

my personal opinion: I think it's not so weird. US openly aids Israel by bomb. now she decides to help by soldier. is it strange?

Update [2006-7-27 10:45:30 by vsredthoughtsecondedition]:

just to say,

good news for bush:

Baztab's chief, Mohsen Rezaie, ex-commander of RGs, two nights ago told Iran's channel 2 that there is a high probability of a military coup against Bashar Asad. and I know it's a well known sign of the "Armageddon" among Shiites. Bush and Iran are playing an end-times game.

this is Mohsen rezaie:
