

"To announce that there must be no criticism of the President, or that we are to stand by the President, right or wrong, is not only unpatriotic and servile, but is morally treasonable to the American public." -Teddy Roosevelt

Another More Secret Wiretapping Program

by [Steve O](#) @ 10:16 am

Apparently soooo secret none of us [should know about it](#).

Russell D. Tice told the House Government Reform Subcommittee on National Security, Emerging Threats and International Relations he has concerns about a “special access” electronic surveillance program that he characterized as far more wide-ranging than the warrentless wiretapping recently exposed by the New York Times but he is forbidden from discussing the program with Congress.

I’m done. I’m just gonna go buy two coffee cans and a unlimited supply of string. It’s way to low-tech for them to tap into a network of Maxwell House cans.
