## Banned from DailyKos for daring to IMAGINE a world w/o Israel

The war of words is flaming on the internet and those who claim to be beacons of liberty and free speech *can't seem to take the heat.*

Or is that not allowed?

Apparently, not at DailyKos. Shortly afterwards, they terminated my posting privileges.

They might as well declare themselves a Zionist outpost for Israel - only approving Zionist-friendly speech.

I guess I can consider myself lucky that they didn't pre-emptively bomb me.

Another camouflaged Zionist site is Chris Floyd's "Empire Burlesque" (but VERY well concealed!). Expect to get banned there as well ;) HINT: look for any comments (legitimately) critical of Israel on that website

sly ones, that ALWAYS have a "twist" -- that is, they tell you stuff you already know (with a few twists) to gain your "trust" then they give a whole-shit load of DIS-INFORMATION. Like those "911-Truth seekers" who are actually mostly Jewish, and do anything BUT go after the truth.

There are MANY of this front-organizations, which are in actually ASHKENAZI operations.

Many of us are also quite knowledgeable, and can help. Questionable sites can be put up for DEBATE. This way, we can go over the facts and points, and objective debate what is being said, and the intention of the publisher. This has the added benefit in that the "publisher" knows the readers are ACTIVELY and OBJECTIVELY SCRUTIZING their \*propaganda\* (or activism, if it's legitimate), and they'll either fade away or be more cautious.

It seems there are alot of sites censoring these days.

They don't like what you say so they cut you off.

Here is a good site I have always been able to speak my mind at.

<http://www.nolajbs.net>

Check it out if you want to voice your opinion at the genocide the zionists are putting forth without being censored.

now I know where all the TRILLIONS they are stealing, go to.

they go to pay the ARMIES of young disinfo soldiers they must have running around all over the world covering up the crimes the elders commit.

I can guess they must have at least a million of them per continent, say 6 million (wow, how fitting) being paid say 100k / year, thats 600 billion / year in track-covering and story-changing.

of course all that money comes from either the american retarded voters tax payers, and/or their european counterparts.

It took you guys -this long to figure out--Jews are in control of the internet,

I have to get my computer de-bugged regularly-malware, viruses, I pick-up from most blog sites.

Try blogging onany Israelie main media. The articles complain outright about the Goon actions of Israel but any submitted blogs get you no-where. They want all your info and never at the beginning--inform you,that their MOSSAd agents need to approve it for approval.

Virus, Spyware don't help.

KOS kicked me out ages ago---because my web name was--ISRAOIL.

Try posting this on any site---

back in 1915. Woodrot Wilson. Presidunce of USa, was blackmailed for having sex with a senators wife, The Jews wanted USA to bribe Russia not to sign a peace treaty with German---done- \$325 million--USA started WWI--millions died. If that was not enough--the Jewish blackmailers-wanted the middle-east for themselves---they didn't get it and tried again--WWII. Wake-up folks--WWIII is just upon us----the Jews are aiming again at Russia. Germany Nazies were funded by USA to unleash them onto Russia. Just watch if it is the new USA attack dog--India!

Note: another site that allows various opinions

is--informationclearinghouse.Good blogging and different--most important articles have a comment section

All I dream of is a world without Israel. 24-7-365

Every corperate greed war, every false flag terrorism, every malignant unhumane depravity traces back to tel aviv. Every front, scam, lie and propoganda serves Israeli agendas. Every puppet of fake elections is whore to Israel. Every sick policy. Every amorality traces back to criminal Khazarian Mafia. Its not anti semite to think criminals are the cavernous pond scum that they are. As they cannibalise the world for their gain. The fake semite mafia.

PROBLEM-->REACTION--> SOLUTION

Its time to turn the tables as there exists only one real solution for world peace.

The end of Israel.

The earth has a cancerous tumor, and it is called Israel. Todays headlines are proof they only know one thing. DESTRUCTION.Just as cancer destroys all healthy tissue around... Israelis destroy lives, liberty, peace. And they are just as invasive and ugly.

MY ONLY THOUGHT ALL DAY EVERYDAY IS A WORLD WITHOUT ISRAEL. The Day Israeli dies is the day everyone else can start living. To start healing. To hell with surviving. Give me a world without Israeli War Pigs or I prefer death. As they are that hideous. They pollute the world and make it ugly just by their being in it.

And God help the pious jews that Israeli monsters will hide behind and sacrifice along with the rest of the planet.

If ALL of us would unite against this disease. we could all start breathing again.

aviv.

IMAGINE A WORLD WITHOUT ISRAEL.

Remember what it was like before Israel? Christian, Jew and Muslims lived in TOTAL PEACE before Israel came along.

REMEMBER THAT and IMAGINE.

By this time next week we should all know which blogs are legitimate. I personally suspect a few of the more popular ones as being fronts. Any site operated or moderated by people who questions another's patriotism for slamming America's war in Iraq is suspicious. Any site operated or moderated by those who would call you an anti-semitic for dinging "God's chosen people" for this latest atrocity should also be identified as suspicious. Cyber-banishment relevant to any of this should be treated as an admission of guilt on their part. Maybe all legit bloggers should start providing "ziolinks" or "faux rolls" identifying those sites.

Check the message number 5 of 4, and the 4 are accessible via the news link. It seems others are having the same problem.

If this coincides with biblical prophesy we will see the destruction of Damascus before it is done. But then we shall see many more things before this is all done. They hate the truth and will stop at nothing from silencing it. I have been well acquainted with being censored and banned for merely stating the obvious. Well obvious if you aren't being dazzled by the distractions.

I could have written a book of 3000 pages documenting the yanks hypocrisy but here is just another example, practically make a career out of china bashing, oh they also throw in some bush wacking to show some semblance of balance. I am not saying that china is above reproach but one thing I cant stand is when yanks, of all people, yapping about "Chinese aggressiveness" or "Chinese threat", that's what they did in a thread last year, so I show them this  
Guess what, they just banned my posts and carry on like business as usual, just like the folks at freepublic,,,, lol

DKos, Dem Underground etc. are all censored.

For a great, unfettered discussion group where criticisms of Israel and the entirety of the Dem-Rep American political non-spectrum is not only allowed but encouraged go here:

<http://www.progressiveindependent.com/>

You will also find the level of discourse is rather in-depth and the historical analysis is rather comprehensive.

At Thu Jul 13, 02:10:32 PM EDT, good work, keep it coming said...

Good work, keep it coming.

I'm compiling a list, and checking it out for myself, to see if indeed these are Zionist front-organizations. I'll be setting up a contact email in the future, so you guys can email me with the details --- the details I'm most interested is:

1) If you had posted something that was censored, removed --- I would love to see what was actually censored/removed.

2) Your rationale for your suspicion that the website is a Jewish mouth-piece --- since many sites are slick, and it's best to be accurate, and not defame anyone/site without good reason. That said, personal evidence/reasoning and accounts are most useful here.

This way, we can help other bloggers, netizens to avoid these sites.

Actually, avoiding them would do no justice, since once we know these are front-organizations, their propoganda can be more easily identified.

I've been collecting articles and evidence for many years now. The amount of VIDEO, AUDIO, PHYSICAL, etc evidence is ASTONISHING. This is not just about 9/11, Columbine, etc, but MANY, MANY others. For our Indian bloggers, if you know of something about the recent TRAIN BOMBING in MUMBAI, let us know. It smells very fishy.

Not only have the "usual suspects" (aka "muslims" according the 'Western Media') DENIED involmnet, the government itself said such bombings are "imported"... This ocured when India as postponed/cancelled a trip to Israel, and India is moving closer towards BRIC (Brazil, Russia, India, China) coalition. Not to mention, how most "Jews" HATE/dispise INDIANS, as evidenced by HENRY KISSINGER's INFAMOUS COMMENTS.

Cheers!!!

Although slashdot.org and digg.com (supposed tech sites) are not controlled by Zionists, they are definitely censored.

I should know, I've been visiting there for many, MANY years now --- why? Because, I'm a technical person.

But here's the deal, slashdot is VERY RACIST, (see for yourself, just do some simple searching of ARCHIVES, and see what kind of comments are made, and how they are allowed to be posted and modded-UP by moderators), yet anything that talks about Jewish involvement/orchestration of 911, or anything critical of Israel is either censored, or definitely modded-down (hidden).

In fact, I've had NUMEROUS postings physically REMOVED. Not just "modded-down", BUT removed without a trace, yet racist comments like "GNAA" ("gay niggers association of america") are ALLOWED. Don't believe me?! Search for GNAA for yourself, and see how many postings like that exist, but if you search for MOSSAD, you'll only find a few, and they are modded-down. ;\*

Digg.com does the same thing, just TODAY a POPULAR posting about 911, involving 747 planes with remote control (which is true, just do a research) is CENSORED, and THEN REMOVED!

These bastards are so hypocritical!

I kinda noticed the pro-zionist bent at dkos (and was irritated by his media blitz preceding his blogosphere "summit", which signified too much ego,) so I never look at his site.

Sure, there's good there, but why sift through it for hints of truth and candor.

This posting by qrswave is the least offensive thing I can imagine, as it is entirely based in hope for a better future.

It is israel itself which undermines the desirability for a future that includes them as a single entity.

I am even luke-warm on Democracy Now, especially after today where they did cover the israel atrocities in a very fair and "balanced" way that toned it down and critical questions were not asked. Perhaps most disturbing of all is that the lead story was about a Haitian/cia asset nabbed in NYC for other charges, leaving the most important story to be held to the end where, as usual, it was cut short.

Amy is jewish.

Today, even Al Franken apparently blundered on the question of Hizbollah, but I wouldn't know it because aol gave me updates that provide a firewall that keeps me from accessing Air America Radio.

The world is revolving around a bunch of animals who call others animals so they can get away with being the real culprits.

Animalistic, mean, hateful.

Israel is no prize.

Here is another good blog that fearlessly exposed Israelis for their true face:

I can see the blogger gets alot of info from WRH as many of us do. Michel Rivero Rocks.

Also I noticed someone suggested this site:

<http://www.nolajbs.net>

That's right. No one will ever be censored there. It's a great forum I also

It's easy to see which sites are the fakes. They betray themselves by refusing to address the problem of Israel.

There is no bigger problem the world has than Israel.

We all need to get together to solve that problem. We need to end it.

When Israel is no more I shant cry any salty tears. How many billions would rejoice? Why wait? So many lives would be saved by the elimination of that parasitic monster.

To Anon Thu Jul 13, 03:13:30 PM EDT

Thanks for the hint. I used to be a fan of Democracy Now, heck I even recommended it to a few friends. Now I see what I FOOL I was back then. I've should have noticed something fishy. Of all the times DemocracyNow covered news, NEVER once did they pinpoint where the blame SHOULD have been, they hinted at "jewish/israeli" "participation", but only as either an innocent "bystander" or "defending" itself.

But that was many years ago, about 3 1/2 years to be more precise. I guess, sub-consciously, something "peculiar" about that website 'bothered' me. It was about 2 years ago, that I did more research and came to the correct conclusion. Although I had my suspicions about "Ms. Amy Goodman" being "jewish", but here "whiteness" (european phenotype) and the fact that this was conveniently NOT mentioned on her website/show, I had reservations.

Now there's nothing "wrong" being "jewish", as there is nothing "wrong" being a "communist" or a "muslim" or a "nigger" or a "chink" or a "gook" or a "red soviet", etc.

But one fact I've noticed is that it is "jews" (Ashkenazis) who are most likely to defend "their KIND" (the chosen ones, blah, blah, blah), EVEN if it involves CRIMES to humanity (i.e. 911, Palestine, War of Agression Against Viet Nam, etc).

But, I've got to admit Democracy Now, is one of the BETTER CONCEALED ZIONIST propanda website --- this is because, it APPEALS to our 'soft' caring side --- BUT, the real danger, lies in the fact that it DIVERTS blame & attention away from the TRUE PERPETRATORS, the Zionists 'Jews' (Khazars).

One thing I notice of late. If you deplore some Likud misdeeds, very quickly some faux nutcase will miraculously appear to "agree" with you. His next post, then, will say suddenly say "yes, death to Israel" as if that had been your argument. This shows that the Daniel Pipeses and Abe Foxmans are keeping their interns busy.
