Chalabi's "Death Squads" mapped

October 15th, 2006

If you remember, a time ago I translated "[Iraq Death Squads](#)" report, in the comments section there was one of Chalabi's henchmen (*and few "dancing on the tunes" Americans*) who desperately tried to defend his master.

Now, more information emerges about Chalabi's role, [Iraqirabita](#) published a testimony from an Iraqi worked for Chalabi.

The man who gave this testament, worked 3 days a week as an agriculture researcher in Chalabi's farm in Baghdad (*the farm is in the heart of Baghdad in Al-Huriya" district", Chalabi inherit it from his grandfathers, also in the farm there a well-known monument "Chalabi's mill"*), he got this job through his relative who is Chalabi's bodyguard.

He tells about at least 140 metal cages enough for one person placed in the farm, when he asked his relative about the people in the cages his relative answered "they are terrorists"

He tells about seventeen "Toyota-Landcruiser" cars with no number plates, and six Opals, nine BMW cars used for assassinations and kidnappings operations.

He never saw somebody get killed, but he saw dead bodies, there are dead bodies of whole families there in the farm, women and children, daily reduced the number of bodies by dumping them in the night in a garbage place located in Baghdad, there is body of a man crucified on the fence of the farm since 13-06-06, now he is just a skeleton. He pointed out also that if anybody walks along the farm fence he can smell the dead bodies.

There was a man with turban (cleric) visiting the farm daily, he didn't knew who exactly the man is but when he asked people told he is "Jalal Al-Din Al-Sagir", preacher of Bratha mosque (see his name in the list of death squads leaders here).

From my own observation, I must say that the data provided by the witness are very accurate, describing the geographical sites and marking the places on the map is perfect.

P.S.

[almalaf](#) reported a list of all "Death Squads" headquarters.
