Reynolds: "Come Out of the White House with Your Hands Up!"

Kevin Barrett, 07.05.2006 13:06

Ex-Bush Official Busts 9/11 Perps at U.W. Historical Society

Madison, WI
Saturday, May 6, 2006

An enthusiastic standing-room-only crowd packed the Wisconsin Historical Society auditorium Saturday to hear ex-Bush Administration insider Morgan Reynolds prosecute top administration and military officials for the 9/11 inside job.

SOMETHING THEY'RE NOT TELLING US?

Was America Bush-whocked? Bush's own former top Labor Department Economist Morgan Reynolds says YES.
Join UW alumnus Reynolds on Saturday, May 5, for his controlled demolition of the Bush administration.
The film showing of *Loose Change* and refreshments commence at 1:00 p.m. Morgan Reynolds speaks at 3:00 p.m.

Reynolds to Cheney: "You're BUSTED!"

Reynolds indicted Richard Cheney, George W. Bush, former Joint Chiefs Chairman Richard Meyers, confessed WTC demolisher and insurance-fraudster Larry Silverstein, and others for mass murder, conspiracy, and other charges including high treason. The enthusiastic response from the overflow crowd was a de facto vote for conviction on all counts.

The former Director of the Criminal Justice Center at the National Center for Policy Analysis, showed that the defendants conspired to create a false cover story of suicide hijackings in order to "blow the World Trade Center to kingdom come" with explosives—a shock-and-awe psy-op designed to coerce the American people into supporting a pre-planned "long war" in the Middle East, massive increases in military spending, and the rollback of Constitutional civil liberties.

Reynolds stated that everyone in the worldwide intelligence community knew that 9/11 was an inside job as soon as it happened, with the obvious stand-down of US air defenses, controlled demolition of the World Trade Center, and non-protection of the President in Florida being the biggest tip-offs. The head of the Russian equivalent of the Joint Chiefs of Staff, the former head of the German intelligence service Andreas Von Bulow, former National Security Agency official Wayne Madsen, and former MI-6 agent David Schayler have all openly called 9/11 an inside job, while former CIA official Ray McGovern has confirmed this directly in private, and indirectly in public by way of his ringing endorsement of David Ray Griffin's work on 9/11.

Reynolds, who served as George W. Bush's Labor Department Chief Economist in 2001-2002, believes that a 9/11 truth victory is looming on the near-term horizon. He predicted that one or more of the 9/11 insiders will soon "give it up" and come forward with what they know, saying "Remember, you heard it here first." He said that most of those complicit in the attacks did not realize how over-the-top the plot was, due to the need-to-know compartmentalization of such covert operations, and that some semi-complicit individuals will probably be coming forward. Reynolds said that most of his email acquaintances are now worried that the 9/11 truth movement is going to win, triggering the greatest Constitutional crisis in U.S. history. For Reynolds, this is less a cause for worry than for rejoicing: "We need a Constitutional crisis!"

Reynolds argued that 9/11 truth is a matter of extreme urgency, since the perpetrators seem to be preparing another 9/11-style terror hoax as a pretext for attacking Iran with nuclear weapons. He said that exposing the 9/11 fraud is the best way to stop Cheney's plan to stage an unprovoked nuclear attack on Iran, and the military draft and Pinochet-style prison camps and death squads for dissenters that might accompany it.

Reynolds urged the audience to help educate the American public about the 9/11 inside job. Personal contact with family and friends, the internet, alternative media, and public events like this are all good educational strategies, he said, adding that a demonstration of 100,000 9/11 truth supporters at Ground Zero next year would be hard for the media to ignore.

Politicians and the media will help expose the 9/11 inside job, he said, only after the growing grassroots movement reaches critical mass. The organizers of Reynolds' talk urged audience members to come to the upcoming international 9/11 truth conference in Chicago, 9/11: Revealing the Truth, Reclaiming Our Future, June 2nd-4th, 2006: <http://911revealingthetruth.org>

Introduction to Dr. Reynolds Presentation

(delivered in much abbreviated form due to time constraints)

Friends, we are gathered here today not just to speak truth to power, but to start fighting back. The information you are hearing today is political dynamite. It is the stuff of which revolutions are made.

Evil rulers use divide-and-conquer strategies against their subjects. In Iraq, the occupiers blow up mosques and markets, and murder thousands of bystanders, in a lame attempt to provoke a Sunni-Shia civil war. But they're not fooling anybody. The Iraqis all know who's really doing these bombings, just as 90% of the Arab and Muslim world knows that 9/11 was an inside job. Here in Ersatz America, our criminal rulers are trying to divide us by whipping up emotional hysteria: abortion, immigration, gay marriage, liberal versus conservative, religious versus secular, Christian and Jewish versus Muslim—anything to distract us and keep us from seeing what they're doing to all of us.

9/11 truth unites ALL of us – left and right, gay and straight, religious, spiritual and secular, Muslim, Christian and Jewish, military and civilian – in revolutionary outrage against this evil regime, and in determination to overthrow it by any means necessary.

We hope the 9/11 truth revolution will be a nonviolent revolution. We are starting with education, symbolism, and nonviolent action. Please honor the request of Veterans for 9/11 Truth (<http://v911t.org>) to fly the American flag upside down as a symbol of Constitutional distress. And please come to Chicago for the international 9/11 truth strategy conference June 2nd – 4th, sponsored by 911truth.org and the Muslim-Jewish-Christian Alliance for 9/11 Truth. Posters are available at the table outside. We are meeting in Chicago to figure out how to win on 9/11 truth. And we are going to win. See: <http://911revealingthetruth.org>

And when we win, the brave man we have invited here today will get a big chunk of the credit.

Dr. Morgan Reynolds is Professor Emeritus at Texas A & M University. He served as Chief Economist in the Department of Labor under George W. Bush during the Cheney regime's first illegitimate term. He is the former director of the Criminal Justice Center at the National Center for Policy Analysis, and appeared on innumerable political discussion shows in the mainstream media – back when we used to have a mainstream media rather than a Ministry of Propaganda. I'm sorry, I shouldn't say that – it's the Ministry of Love. Wait a minute, that's the one that runs Abu Ghraib and the sex torture gulag. Or is that der Ministry of Unheimlich Insecurity? I'm sorry, I grew up back when we had something vaguely resembling a democracy – I can't keep all this stuff straight. In any case, Dr. Reynolds has a stellar resume, and the best part of it is that he is a Wisconsin Badger with three degrees from this great university – and he is living up to its motto, The Truth Will Set You Free! Ladies and gentlemen, Dr. Morgan Reynolds.

not really

It wasn't really "standing room only." My friend and I were the only ones in our row. I'm all about the 911 truth cause, however I was very unimpressed with Morgan Reynolds. He was working for the White House when this happened, yet he had no other information to present other than what the "Loose Change" video had already stated.

this man speaks with credible knowledge and tells nothing but the truth. people, you need to stop letting these ridiculous explanations given by the government of what happened on 9/11 control your own decision making. if you research, you will find out that the 9/11 Commission Report contains extensive amounts of disinformation. a lot of key testimony and research was omitted from the report. there are way too many holes in the official explanation. His truth is based on forensic evidence

Morgan Reynolds bases his truth on the crash video given us by the Establishment. Who, other than God, could make an airliner disappear into a steel and concrete tower by defying Newton's Laws of Motion. Watch a crash video and try to detect the airliner's deceleration as it crashes against the mighty tower. Wow! Why would God cause this to happen? Airliners don't meld into buildings, they crash against them.
