Dolphin-class submarine  
HAIFA, Israel – German engineers the past few weeks have been in Israel working to improve three advanced, nuclear capable attack submarines it provided the Jewish state last year, security sources tell the Galil Report.

Many here have estimated the vessels can be used both as a strategic, second-strike nuclear deterrent or for conventional use during any large-scale confrontation.

Military officials say the submarines are not needed for Israel's current campaign in Lebanon. The officials said Israel recently has discussed with foreign governments travel and refueling routes so the submarines can reach the Persian Gulf – within firing distance of Iran.

Today's Galil Report details the upgrades being made to Israel's already enhanced SSK

Dolphin-class submarines and outlines diplomatic negotiations to ensure the vessels can travel toward the direction of the Iranian coast.

need to get active again - fast.

The Israeli action their govt is supporting is causing MASSIVE environmental pollution in the Mediterranean. According to reports, this is the biggest ever oil slick in the Med.

And where are Greenpeace? Why aren't they saying more?

great choice of cartoon. But again... this was nearly one month ago. Why do we not hear of any demonstrations or NVDA in Germany?

**prefent the false flag by outing 911 now**

The spy caught 4months ago or so ,the US sailro from the Tomohawk armed ship, has been accused of passing nuclear arming evidence to Israel-now this might fit with the data on the tomohawks etc in the laptop he stole and arming the German Subs. the other frightening thing is that there are private interests in the israeli russina mafia with submarines-drug trafficking perhaps?- and what if they are armed with nukes? yeek!

Wayne Madsen speaks much about this including the suspected ISraeli russian ukr mafia link-think UA also with Bout entrenched there,at a guess.A fine game such much play with what the population know and the usual power games the elite act upon with fellow elite.

it really is time the world's people pulled these organised crime networks that now run governments armed with arsenals of destruction,it is time the people knew their real dealings and hunted them down from within. Starting with Bush/Abramof/Silverstein etc Neocn crime network.All with their deals and favours ,all illegal and all worse and worse,to the point of war for some and false flag terrorist deception,like Silversteins's WTC buildings set up for collapse that weekend before, and his set up for free trade area in the Negev with ?.....Newt? hwy is he mentioned in PNAC?CLEAN BREAK as a likely dealer for free trade deals?

But I am astounded that ISrael does not already have the subs ready if it has unleashed the dogs of v

already in southern Lebanon, i suspect it is already done and these are just backups. if these wars are well planned ,originally since 1996 and then with moderation as changes were needed, why not be properly prepared? I am sure they are. Unless.....something went wrong.

JINSA,as a spying tool may be compromised and hence maybe they relied upon US automatic military actions, conforming to their orders via JINSA, as NORAD (thus Colonel Shu dead,a guess) etc, ...but the exclusion of ISrael from the new strike fighter program was amazing and suggests the threat is now recognised if not acknowledged officially for fear.

I still think a false flag is due, the end of the holiday season is the usual timing for maximum uncritical initial impact. Whether it will be a sub launch against a us city,even a repeat Pearl Harbour would be delite for them and no jews there or interests to lose.Nor much of an economic fall. Unless the US properly defend against "Friendly" attacks first by pruging all JINSA and then by thoroughly investigating contractors and defence early warning issues and then target the subs known including the mafia ones and not lose sight of them.

Then kick out foreing nationals from all areas of secutiy starting with Chertoff and any israeli contract has signed-airports etc.The UAE are probably Bout anyway so watch them like a hawk as they would for drug/weapons trafficking duhhhhh that he is famous for.

But no. Spetember will bring the huge blast needed,wherever they chose .

The only saviour would be if 911 was openly investigated and the real perpetrators-ALL OF THEM- immediately rounded up and sent to GitBAy to confess.

To know that was a false flag would make another impossible to get away with ,even for the US peop cheers
