

Mossad, Wolfowitz & The Strangely Defenseless Pentagon On 911

The Case Against The Mossad And Israeli Partisans

Although the Mossad's warnings regarding 9/11 appear to exonerate it, that is not the case. Former Mossad case officer Victor Ostrovsky in his two excellent books *By Way of Deception* and *The Other Side of Deception* demonstrates that the Mossad often uses useless warnings as a way of making themselves look innocent when in fact the opposite is true:

http://www.marwenmedia.com/articles_images/BookReview.html

"Admony, then the head of Mossad, decided they would simply give the Americans the usual general warning, a vague notice that they had reason to believe someone might be planning an operation against them. But this was so general and so commonplace, it was like sending a weather report; unlikely to raise any particular alarm or prompt increased security precautions. In the six months following receipt of this information, for example, there were more than 100 general warnings of car-bomb attacks. One more would not heighten US concerns or surveillance."

"Admony, in refusing to give the Americans specific information on the truck, said, "No, we're not going to protect the Americans. They're a big country. Send only the regular information."

Once one understands the methodology of the Mossad and its management of false flag attacks - as well as the massive involvement of the US - Israeli axis in manufacturing the "War on Terror" - to accept the idea that the Mossad is innocent because it gave weak and useless warnings to its well-infiltrated sister the CIA becomes absurd.

Read Michael Collins Piper's work on James Angleton and the Mossad in his book *Final Judgment* for an understanding of just how deep the connection between the two agencies really is.

Here's the article from the Jerusalem Post about the Mossad warnings:

Note that they gave no targets, fingered bin Laden and *implicated Iraq,* and we all know how involved Iraq was in 9/11...

"Mossad warned CIA of attacks - report By Douglas Davis

LONDON (September 17) - Mossad officials traveled to Washington last month to warn the CIA and the FBI that a cell of up to 200 terrorists was planning a major operation, according to a report in the Sunday Telegraph here yesterday.

The paper said the Israeli officials specifically warned their counterparts in Washington that "large-scale terrorist attacks on highly visible targets on the American mainland were imminent." They offered no specific information about targets, but they did link the plot to Afghanistan-based terrorist Osama bin Laden, and they told the Americans there were "strong grounds" for suspecting Iraqi involvement.

A US administration official told the paper that it was "quite credible" that the CIA did not heed the Mossad warning: "It has a history of being over-cautious about Israeli information." But the official noted that "if this is true, then the refusal to take it seriously will mean heads will roll."

Furthermore, according to Der Spiegel, Mossad handed over a list of 19 terrorist suspects. We know that the "19 terrorists" are not on the passenger manifests and that the FBI has acknowledged that several of them are still alive while refusing to change the official list of suspects.

Did the Mossad know the official story was going to include 19 hijacker patsies? It's a pretty eerie coincidence I'd say.

"While the Israelis were closely observing Atta and his friends, they did not inform the U.S. government what they were up to until August 2001: Der Spiegel reported (October 1, 2002) that they handed over a list of 19 terrorist suspects, with at least four of the hijackers on it, "a few weeks before" September 11, but the federal government says that the warning was for attacks "outside the United States."

Paul Wolfowitz and Doug Feith, both well-known Israeli partisans who have even been investigated for espionage on behalf of Israel, were both effectively *in command* of the Defense department on 9/11. If Mossad had wanted to warn America, it would have warned them. And yet, no action on 9/11 from DoD. Nothing. A giant 757 or whatever hit the Pentagon nearly an hour and a half after the first hijacking was known to be underway and neither fighter aircraft nor anti-aircraft missile batteries performed.

Just look at the way Wolfowitz, Feith, Perle and Niger Uranium hoaxer Michael Ledeen have been caught working for Israel throughout history:

<http://www.counterpunch.org/green02282004.html>

"In 1978, [Wolfowitz] was investigated for providing a classified document on the proposed sale of U.S. weapons to an Arab government, to an Israel Government official, through an AIPAC intermediary. An inquiry was launched and dropped, however, and Wolfowitz continued to work at ACDA until 1980...

...But Feith was fired because he'd been the object of an inquiry into whether he'd provided classified material to an official of the Israeli Embassy in Washington. The FBI had opened the inquiry...

... Perle's second brush with the law occurred a year later in 1970. An FBI wiretap authorized for the Israeli Embassy picked up Perle discussing with an Embassy official classified information which he said had been supplied to him by a staff member on the National Security Council. An NSC/FBI investigation was launched to identify the staff member...

...In 1983, on the recommendation of Richard Perle, Ledeen was hired at the Department of Defense as a consultant on terrorism. His immediate supervisor was the Principle Assistant Secretary for International Security Affairs, Noel Koch. Early in their work together, Koch noticed with concern Ledeen's habit of stopping by in his (Koch's) outer office to read classified materials. When the two of them took a trip to Italy, Koch learned from the CIA station there that when Ledeen had lived in Rome previously, as correspondent for The New Republic, he'd been carried in Agency files as an agent of influence of a foreign government: Israel..."

My friends, if the Mossad had truly warned America, and the Mossad's friends in America had intended to protect us, we would never have been attacked.

It's that simple.

CIA/Mossad/AEI asset and right wing Israeli war hawk Benjamin Netanyahu talks weekly with Larry Silverstein: <http://tinyurl.com/qsvjj>

And, although Mossad met with the CIA on August 23rd, 2001 to give warnings, they didn't tell the CIA what the targets were. And here's the clincher:

They clearly knew what the targets were because less than three weeks later, Israeli agents were set up at the WTC ahead of time filming and celebrating.

More information on the involvement of Silverstein and Netanyahu, along with the Republican Jewish Coalition can be found here:

Instead of crying at the sight of the WTC in flames, the Mossad agents were laughing and celebrating.

If you were a loyal, religious Mossad agent who had been unable to prevent an attack on an ally, would you be laughing and celebrating, taking photos of yourself with a lighter positioned underneath the image of the WTC towers and box cutters in your van?

I wouldn't. But if your motto is By Way of Deception, Thou Shalt Do War, perhaps you would consider it:
