DRUNK Americans New MASSACRE In Heet

An American occupation patrol forced in a house in Heet, about 210km west of Baghdad and killed seven members of the family in side the house yesterday. Early morning today (Nov 8), another American patrol came to the same house apologizing from the mother because the soldiers of the yesterday patrol were drunk!! As simple as this.. one of the wounded in the hospital said that the Americans were angry and they killed the seven men by shooting stabbing and they went leaving the wounded bleeding.. today, the town which is seized by the Americans for the last two months; there is only one entrance to the town caught by the Americans too. For the last two months, the Americans searched the town many times; they know who is coming or leaving.. it was bombed heavily months ago then the Americans alleged that the Arab fighters (terrorists) left Ramadi to Heet..

Heet, one of the oldest Iraqi inhabitant towns; from there the Sumerians brought the tar to use it as a conjugation while building the ziqurates, palaces and houses. It was before the occupation one of the most beautiful and peaceful towns on the Euphrates where the huge water wheels were watering the fields.. The Baghdadis used to spend their weekends there; when living was possible in Iraq..

Seven Iraqis were killed by drunk Americans.. For almost 3000 Americans were killed on 9-11; Americans killed till now tens of thousands of Afghanis; 650 000 Iraqis and destroyed Iraq totally.. I asked and will continue asking: why the American's life is more expensive than us? While we are the builder of the civilization; the Americans are the grandchildren of the gangsters and criminals who eliminated tens of thousands of the native Americans?.. Bush him self is not only a criminal; he is the real leader of the international mafia..

If a "drunk ' MOSLEM will kill an American; could you imagine the Bush war against terrorism where would be? Yey, according to this silly pretext; it seems that Bush is always DRUNK..

ABOUT ME

THE WOMAN I WAS
BAGHDAD, IRAQ

I am an Iraqi single mother who managed to survive the wars and the sanctions; yet I could not manage living under the occupation; writing is a resort to forget the idea of leaving Iraq.
