CRACKDOWN ON HOLOCAUST REDUCTIONISTS: OMEN OF COMING PERSECUTION OF CHRISTIANS
<http://www.truthtellers.org/alerts/crackdown.html>

By Rev. Ted Pike

Today Canadian Christians who publicly criticize homosexuality or blame Jewish leaders for the crucifixion are likely to be indicted as "hate criminals." But in 1971 when B'nai B'rith Canada and the Canadian Jewish Congress persuaded Parliament to enact their national anti-hate law, these Jewish organizations were wary of alarming Christians. Instead, they began anti-hate law enforcement by going after those least likely to be defended by society: Holocaust reductionists - those who reduce the six million figure of Jewish Holocaust dead.

During the following 30 years, the Canadian public watched passively as Malcolm Ross, Doug Collins, Ernst Zundel, etc., were pilloried by the press and financially exhausted by the courts for the "hate crime" of inquiring whether the number of Jewish Holocaust dead might be less than six million.

Then, around the turn of the century, B'nai B'rith's hate crimes gestapo turned on Christians. More cases have now been prosecuted against Christians (primarily critics of homosexuality) in the last five years than of Holocaust reductionists in the

previous 30.

Today Holocaust reductionists, Ernst Zundel and Germar Rudolf, have been deported from what they thought was safe haven in America. They face prosecution in Germany for violation of its B'nai B'rith anti-hate law which makes it a "thought crime" to diminish the six million figure of Jewish Holocaust victims.

David Irving, perhaps the world's best-known and respected Holocaust reductionist was arrested and imprisoned several days ago in Austria under its B'nai B'rith hate law.

Also, lesser-known Belgian reductionist Siegfried Verbeke has been arrested in Holland and is awaiting deportation to Germany. Although not a German citizen, a German judge issued an international arrest warrant against him for the German crime of Holocaust reduction.

And, on September 19, Belgian reductionist Vincent Reynouard's house was ransacked by police. He was subjected to more than three hours of detention and hostile questioning. He is free on probation only if he submits to a psychiatric examination and ceases all Holocaust reductionist activities.

Long Arm of Zionist "Justice"

On June 20, 2004 the Jerusalem Post reported that Israel's Knesset empowered the State of Israel to criminalize anyone in the world who publicly reduces the six million figure. The government is now authorized to request extradition to Israel of such alleged "hate criminals" from any nation. Israel can also seize, prosecute, and imprison them should they set foot in Israel.

After Rudolf and Zundel have been tried in German and Austrian courts, Israel can request that they be extradited to stand trial in Israel for their "hate crimes." The American government, not having hate laws, acceded to deportation of Rudolf and Zundel. Germany and Austria, with hate laws in place, are much more likely to comply with Israel's possible demand.

Clearly, we are in the first stages of implementation of the Knesset deportation program. The public is being conditioned to approve the seizure and deportation of anyone who questions Zionism's dubious "Holocaust reality."

Yet tomorrow it will not just be Holocaust reductionists but also Christians who will be shipped to foreign courts. For Knesset, there exists a much greater crime, a crime they believe has caused unimaginable physical and mental Jewish suffering through the last two millennia. This is the accusation, rooted in the New Testament, that Jews were responsible for the crucifixion of Christ. Knesset believes the Holocaust was the result of centuries of New Testament bias, calling Jews "Christ-killers."

Of course, the New Testament does lay blame for Christ's death on Jewish leaders and the mob they incited (Acts 2:36, 3:13-15, etc.). Consequently, evil Jewish leaders today consider the New Testament "hate literature." Millions of Christians who believe the New Testament are thus considered anti-Semites.

Who Will Be Deported Next?

Today, Knesset wants Holocaust reductionists persecuted and shipped to Israel. But what of tomorrow? Considering the

much greater offense of "Christian anti-Semitism," it is inevitable that Knesset should also declare such anti-Semites to be criminals.

It is highly significant that Christ, describing last days' persecution of believers, states that such oppression will originate with evil Jewish leaders and that Christians may be deported to Israel for prosecution. He said they will "deliver you to the courts (Sanhedrin), and you will be flogged in the synagogues..." (Mark 13:9, NAS).

Yet according to ADL/B'nai B'rith's "Report on Global Anti-Semitism," ghostwritten for the U.S. State Department's new Dept. of Anti-Semitism, B'nai B'rith says that not only are those who claim Jews killed Christ 2,000 years ago anti-Semitic but so are all "strong" critics of Jews, matters Jewish, Jewish leaders, and the state of Israel.

This means that not only courageous Christians and pastors but also talk show hosts, publishers, anti-war activists, etc. will be liable for imprisonment or deportation. This is not a theoretical danger; it has already happened to those who reduced the number of Holocaust victims.

We Must Identify our Enemy

ADL/Knesset will not be restrained by protests to the U.S. Department of Immigration, the Supreme Court, or Germany. They will, however, be thwarted by massive public awareness of their role in the creation of hate crime/deportation laws.

This can be done through talk shows, the Internet, letters to the editor, calls to Congress, and discussions in conservative groups and Sunday school classes. Documentation of ADL invention of hate laws is found in my video, "Hate Laws: Making Criminals of Christians," and at www.truthtellers.org or www.adl.org.

ADL's program to destroy Christian civilization can only go forward deceptively, behind the scenes. If patriotic Americans only react to the effects of ADL initiatives yet do not identify the source of these evils, ADL's power is not curtailed. It is not enough to chop off tentacles of evil ADL legislation because, like the proverbial octopus, ADL continues working in Congress and the media, regenerating assaults on freedom.

We must go to the very eye of this anti-Christ beast, courageously raising understanding of ADL/Knesset inspiration behind hate laws and resulting deportation demands. Only by massive public awareness of the ADL/Knesset threat can our nation resist increasing global pressure to submit to international hate crimes jurisdiction.

Evil Jewish leaders over the past century have, as "God's chosen people," enjoyed immunity from criticism by most evangelicals. That must change. It's time for the unholy alliance between Christians and such leadership to end. If it doesn't, the monster we have helped create will devour us.

Consider the structural damage to society if people no longer believe the Holocaust myth.

All Western Universities, and especially history depts. will be discredited. They're either idiots or liars, there's no 3rd choice.

Will courts that have awarded billions reverse their decisions?

Will politicians who have stolen billions of taxpayer's \$ for Holocaust museums and Israel be held accountable.

This is a very short list, but one can see how the world won't look the same when people no longer believe the Holocaust myth. It's bigger than a thousand nuclear bombs.

Interesting, I wasn't aware of that. Of course we can expect non-Western governments and populations to have a very different attitude to the Holocaust story. Only the barrage of propaganda that westerners have been subjected to could produce the attitude commonly found among them.

There was a story sometime back of a bar somewhere like Thailand, I can't remember for sure, where someone opened a bar with a Nazi theme, decorated with Nazi war memorabilia. Word got around and Jewish interests made some kind of protests and asked for the bar to change its theme. I think the owners complied but were completely unable to understand the objection.

PS. It was in Pusan. Story is a little different than I remembered. I took the time to google it while the forum was down.

I think diplomats on certain levels in Western countries are very much aware of the lies and myths they push even beyond the Holocaust.

It's rare, but sometimes diplomats on certain levels do have accidents, mostly airplane accidents in the last 30 or 40 years. So their system of chains of obligations in controlling their people near the top is not 100% foolproof.
