Israeli Mossad Implicated In Attempt To Bomb German Trains

By: Sorcha Faal, and as reported to her Russian Subscribers

August 20, 2006 FSB sources are reporting today that an attempt to bomb German trains had as its most likely source Israel's Mossad intelligence agency, and who has used such terrorist actions successfully in the past to gain much needed Western support for their attempts to ignite a greater Middle Eastern war against Syria and Iran.

These types of terrorist attacks upon Western Nations, by Israel, have also been to support those Leaders of Nations whose peoples have expressed strong opposition to both United States and Israeli actions in their combined crusade against the Muslim Nations of the World, and which in this particular case was seen as an attempt to bolster support for Germany's pro-Western Chancellor Merkel, and whose popularity has dramatically plummeted since the outbreak of war.

The success Israel has had with these terrorist attacks have had mixed results, however, with the supportive right-winged government of Spain falling after the Madrid Train Bombings of 11/3/2004, and the Blair government in Britain surviving the London Train Bombings of 7/7/2005.

In this latest attempt, according to these FSB reports, German Intelligence operatives, and operations, where able to both thwart the detonation of these bombs and identify two suspects, one of whom, a Lebanese Christian from Israel attending the Christian Albrechts University in Kiel, Germany, has been arrested during his attempt to flee the country yesterday.

These reports further state that American Intelligence Organizations were also instrumental in both capturing the suspect and preventing these train bombings after their smashing of the vast Israeli spying operation operated by the Israeli's through their government owned corporation Comverse, and which every American telephone call has been routed through.

The Israeli/American leader of Comverse, Kobi Alexander, currently being sought by the American FBI in a world-wide manhunt, has not only eluded capture but has also been charged by the Americans with transferring nearly \$60 million to Israel prior to his escape. FSB reports further add that Mr. Alexander is currently in Israel, and whose government does not allow any of its fugitives to be extradited to any other nation.

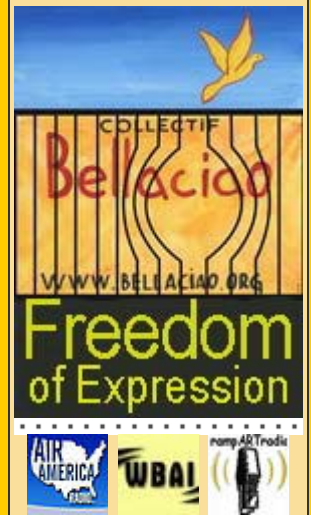

The American Military Leaders attempts to suppress their ongoing, since the Israeli backed terrorist attacks on the US on 9/11/2001, 'Secret War' against the Zionist Factions of Israel's government also appears to failing, and as we can read as reported by one dissident American News Site, InformationLiberation.Com, and which says in their report titled "Another Spy Story Suppressed to Save Israel":

"Well guess what reader, the United States government has done it again, they've hidden another Jewish spy from the American public, but this time the cats out of the bag, someone leaked the details and now we find that another Jewish American, this time a Navy Petty Officer by the name of Ariel J. Weinmann has been arrested for passing along Top Secret information related to National Security to the Israeli government.

In Weinmann's case, one can bet the information he stole was of a highly classified nature, you see Weinmann was stationed on an American nuclear submarine, the USS Albuquerque. Despite this, Kate Wiltrout, of the Virginian-Pilot reports:

The Navy originally refused to release basic information about the Weinmann case - including the dates of his Article 32, or preliminary hearing - but reversed course after The Virginian-Pilot revealed Weinmann's confinement, and the secrecy with which it was being handled."

American Federal Courts are also appearing to not allow Israel, and its dual Israeli/American citizens, any further leeway from prosecution for the crimes, and as we can read as reported by the NBC4.Com News Service in their article titled "Judge Denies Effort To Toss Out Pro-Israel Spy Case", and which says:

"A federal judge has rejected a constitutional challenge filed by two former lobbyists with a pro-Israel group. Steven Rosen of Silver Spring, Md., and Keith Weissman of Bethesda, Md., are charged under a World War One-era espionage law with receiving and disclosing national defense information.

Lawyers for the men had argued that the 1917 Espionage Act is unconstitutionally vague. The act seeks to bar receipt or disclosure of "information related to the national defense" to "persons not entitled to receive it." The lawyers also argued that prosecutors were out of bounds for using the statute in an unprecedented manner, prosecuting lobbyists who in the normal course of business discuss policy issues with government officials.

But a judge in U.S. District Court in Alexandria upheld the law as well as the government's effort to apply it to the lobbyists."

Most disturbing about these events, however, remains the growing anger against Jewish peoples in the United States, and where the attacks against these peoples are on the increase, and as we can read as reported by the LSN News Service in their article titled "Jewish Neighborhood Smashed In Howard County, Maryland", and which says:

"The homes of twenty five residents of a predominantly Jewish neighborhood of Clarksville, Maryland were smashed up and covered with anti-Jewish graffiti, local newspapers are reporting today.

Police say that cars had windows broken and tired slashed, houses were spray-painted with anti-Jewish slogans and swastikas, and mailboxes were knocked off their posts at more than two dozen residences in River Hill subdivision of Clarksville."

Russian Socialologists have long reported that peoples of Nations allowed to be controlled by irrational fears constantly being bombarded upon them by Fascist Government/Corporate/Media organs will always find those different races, and religions of peoples to place upon them blame. This has also been echoed by Israeli Researchers, and as we can read as reported by the Ynet News Service in their article titled "Study: Economic concerns to trigger anti-Semitism in US, Germany", and which says:

"A new behavior-research tool, Affective Encryption Analysis, has uncovered a dramatic trend in both the US and Germany-a developing wave of potentially violent anti-Semitism. Affective Encryption Analysis, which was recently used to predict the outcome of the 2008 US Presidential election, uses naturalistic research methods to measure the way in which "feeling-trends" develop over time. It then forecasts the likely behavioral outcomes.

Using Affective Encryption Analysis, media psychologist, Dr. James N. Herndon, of Media Psychology Affiliates, led an investigation to predict long-term "feeling-trends" concerning the economy. Population samples in both the US and Germany were chosen as indicators of both US and European feelings toward economic conditions.

"Our results showed far greater feelings of dread about the economic

future than we currently find in mainstream survey research," stated Dr. Herndon. "In fact, almost 70 percent of our sample expressed a precipitously declining sense of economic stability. This was especially strong among the lower-middle-class," he added.

'Scapegoating Israel'

"What we did not expect was a widespread association of economic problems with support for Israel. This belief appears to be growing exponentially in both the US and in Germany," he said. "We currently have worryingly low rates of savings and capital investment, combined with systemic unemployment and an ever-increasing spiral of debt and inflation," said Dr. Herndon.

"If current trends are left unchecked, we believe that by late 2007, a feeling of economic desperation will begin to overtake large sectors of the lower-middle-class in the US, as well as the welfare-dependent classes in Germany," he warned. "Our results strongly suggest that this will provide the emotional trigger for the scapegoating of Jews, toward whom feelings in our sample were unexpectedly negative, and often violent."

To the fullest extent of the manipulation of the American peoples, and exactly like those manipulations done to the German peoples under the Nazi Regime of last century, lies in their failure to separate the radical political movement of Zionism from that of the Jewish peoples themselves, and which the head of the Jewish Hospital in Iran perhaps stated best by his stating, "The Jews never support criminal acts of the Zionist regime".

But though this most important of distinctions, between the brutal Zionists and Jewish peoples, has been lost upon the American peoples themselves, it has not been lost upon those of Jewish faith in the United States, and who while even in the midst of the brutal war between Israel and Lebanon, have fled the United States for Israel in record numbers.

The greatest tragedy, and as always, remains how easily the American people have allowed themselves to be so manipulated by irrational fear by those seeking Total War, and which is much closer than many of them know.....even at their very door in fact.

We knew this things for a long time, it will not help Israel! The world opinion and any civilized human being, is turning away from the Neo Nazis of Israel. U.S. and Israel might bomb a few times more, but than it is the turn of the civilized nation to give a final answer to the new Nazis.

Why do people make responses using the slang term "Dude" and expect to have even the slightest shred of credibility?

Also, remember what Israel deliberately did to America's ship, the U.S.S.Liberty!

According to the Time magazine article - included in the link below, along with several others regarding this case - Robert Weinmann, the father of Ariel J. Weinmann, states that his son is not Jewish and the family's background is German (note the surname spelling with two n's). Also, according to the non-Muslim sources, the most likely candidate for being the recipient of Weinmann's information was Russia, not Israel.
