Ask Yourself Who Benefits

This was the single worse day in two years. Five car bombs and two mortar rounds struck the capital's Shiite Sadr City slum Thursday, killing at least 215 people and wounding 257. The attack was blamed on the Sunnis and Shiites quickly struck back.

Soon after the onslaught, Shiite militants fired 10 mortar rounds at the Sunnis' holiest shrine in Baghdad, the Abu Hanifa mosque in the Azamiya neighborhood, killing one person and wounding 14. A 3-foot hole was blown in the dome and some inside rooms sustained severe damage.

Look At The Pattern

We are told some Sunni day workers plant five sophisticated, high explosive, remote control bombs, that target dirt poor Shiites at markets, and food stands. Then some some Shiites farmer get their hands on sophisticated mortars, and hit the Sunnis most sacred shrine.

What Is Really Happening

All these bombs stink of Israeli operatives. They will kill every bit of resistance and take over the country, the same way they did in the 1918 Bolshevik Revolution.
