Early June 2005: US Intelligence Find Evidence of Mossad or CIA Support For Insurgents in Iraq

US Intelligence officers report that some of the insurgents in Iraq are using recent-model Beretta 02 pistols that have no serial numbers. The numbers have not been removed; the guns came off a production line with no number.

"Analysts suggest the lack of serial numbers indicates that the weapons were intended for intelligence operations or terrorist cells with substantial government backing. Analysts speculate that these guns are probably from either Mossad or the CIA. Analysts speculate that agent provocateurs may be using the untraceable weapons even as US authorities use insurgent attacks against civilians as evidence of the illegitimacy of the resistance." [United Press International, 6/6/2005]
