Why was the shooting of the Mossad agent covered up

A third stewardess aboard the nine-crew flight – **Madeline Amy Sweeney** - used her cellphone, or possibly the plane phone, to alert **Michael Woodward**, her supervisor back at **Logan International Airport**, about the hijacking and murders. The terrorists were armed with razor-tipped knives that looked like box cutters, she relayed.

The plane left the gate at about 7:45 a.m. and took off at about 7:55 a.m. **Sweeney made her call around 8:10 a.m. or 8:15 a.m.**, the source says. At about 8:25 a.m., the jet turned sharply off its planned westbound flight path and headed south toward Manhattan. The jet crashed into the north World Trade Center tower at about 8:45 a.m.

Mossad cover up – Memos altered

DANIEL C. LEWIN

WASHINGTON – An internal Federal Aviation Administration memo summarizing the Sept. 11 hijackings says a **passenger aboard American Airlines Flight 11 was shot to death by a single bullet**, **WorldNetDaily** has learned.

The FAA claims the memo, time-stamped Sept. 11 at 5:30 p.m., was written in error. "It was a first draft," said FAA spokeswoman Laura Brown in a phone interview today. "There was no gun."

The real truth is

The stewardess called and said -- " A passanger in 9-a is shooting the pilots - I show him listed as a Daniel Lewin "

Here is the setup for FI 11

Four Arabs and a Capt in the Sayret Matkal (Israel's counter terror and assassin team)

So you have to believe a top Israeli agent walks into a jet - past these Arabs and doesn't notice four ' Camel Jockeys ' in first class ?

Figure the odds

A jew - Sayret Matkal (Jew terror unit) - on FI 11 - with 4 arabs - getting shot - etc. The odds are a billion to one.

No doubt Lewin was one of the hijackers.

We also know of another Israeli agent, Alona Avraham, but that hijacking on the other plane out of Boston appears to have gone more smoothly, so know even less about her.

Of course the FBI knows exactly who hijacked the planes. There are thousands of stills from the airport videos alone. Not to mention the 8 living suicide hijackers.

Atta more than likely is at the bottom of outer Boston harbor.

We don't have a single still, from the thousands, from the airport videos that one so called Arab hijacker ever boarded any of the planes. If any pictures existed, for sure it would be to the benefit of the FBI to show these pictures. Obviously, after 2 years, none exist!

The so called 19 are Jew's patsies--they were framed by the Jews. They followed them and recorded all thier moves before 9-11, for the final set-up. They even knew Atta went to nudie bar, had 3 beers, and went to the men's room twice.

There's no evidence Atta even boarded the plane out of Boston. More than likely he's at the bottom of outer Boston Harbor.

We're not saying he was shot, we're saying the stewardess said there's a hijacking led by passenger Lewin.

I believe there are non-cell phones at a few locations of the plane.

I looked at those two articles you posted and there's nothing in them about the Mossad agent being the shooter. Both say that he was shot. And reports I've read about cell phones claim that they don't work once the plane is aloft because they can't make contact with a tower. So the cell calls were just a cover story although I don't recall the govt. saying that guns were used. I thought it was all done using box cutters.

Agree, the cell phnoe story was BS. But the only way we know about box cutters was from the so called Olson phone call, which I also believe was BS.

There were several stories about the shooting of Lewin, and then they were edited, and then dropped out of sight. One of the first ones said Lewin was shot because he was a Jew, blah, blah, blah. These stories had to be dropped because they conflicted with the box cutter myth.

I believe the stewardess made a call (from a plane phone) and identified Lewin as one of the the hijackers, but then the story was changed to make him look like a victim of anti-Semitism, and then it was dropped altogether.

If he wasn't one of the hijackers, then one has to stretch reality and believe a trained Israeli agent is sitting with five Arab hijackers in 1st class and suspects nothing. In a near empty plane.

No, they're not. The CIA-rabs thought they were doing some kind of hijacking op they would survive, and the Israel intel people thought they were spying on a CIA-rab operation and gathering blackmail material in the process. The Jew wasn't a kamikaze, and neither were the 'religious' CIA-rabs who were heavily into porn, strippers and cocaine. . .

There are several examples of Jews doing suicide bombings. The most famous is a Jewish girl in a Jerusalem train station in the late 1940's, when Jews were under the British.

(Flag-- anyone have a copy of that famous bombing?)

Even though, not all the hijackers had to know it was a suicide mission, only the pilot had to know. Another likely scenario is that some were terminally ill? 9-11 bought Israel time.

Suicide attacks have religiously high esteem in Judaism, going all the way back to the Jewish defenders committing suicide rather than surrendering at their Maasada fortress in Roman-occupied Palestine.

In the Inquisition in Portugal and Spain, suicide attacks were common due to sheer desperation among Jews during the hellish Inquisition.

Jewish suicide attacks against the British were very prevalent in the 1940's against the British colonial government in Palestine.
