They've done a damn good job scrubbing the internet of any jewish involvement in 9/11.

I consider myself to be a good internet researcher but you can't find anything.

Lately i've been searching for 9/11 blogs but the content on these is the same everywhere you go.

I truly believe there's a treasure trove of info out there on the jewish angle but i think it's burried deep...Cross linking will be the only way to find it and i doubt it's under JEWISH or 9/11 headings.

The info is hard to find...I think someone is sitting on a bombshell that will blow this whole thing out of the water. I bet they're scared shitless to post it on the internet for fear of death threats."

It's not that hard to find. Whatreallyhappened.com has a bunch of it archived.

There's a lot of information on Mossad/Israeli invovlement in 9/11--including the "5 dancing Israelis" and the other Israelis in white vans posing as "movers" around NYC, the Israeli "art student" spies, and the other Israeli spies in America around 9/11 gathering intelligence for future attacks. Many of these Israelis detained has traces of explosives

found in their vehicles. Some had video of potential targets (including the Sears Tower). Others had oil pipeline and nuclear power plant plans. FOXNews even did a story on the Israeli spying in America around 9/11. It was the biggest spy ring ever uncovered in the U.S. In all, around 200 Israeli spies were in the country. Many of them were "trailing" (ie, framing) the named Arab "hijackers." Research from Daniel Hopsickers' book "Welcome to Terrorland" details how Mohammed Atta was framed by a man who was most likely an Israeli (or Jew). Evidence also shows that Moussaoui was most likely framed as well. And we know that many of the named "hijackers" turned up alive after 9/11. Many of them were framed using fake IDs. Now who would want to frame Arabs?

And we know powerful Zionists have control over our government. The recent Walt and Mearsheimer paper confirmed this. Zionist Jews surrounding the Bush Administration--including the many PNAC members--were calling for a "new Pearl Harbor."

Bottom line: 9/11 was Zionist-orchestrated false flag operation carried out by Mossad and other Zionist-controlled entities--and, of course, requiring the cooperation of Zionist puppets in high-level positions in the U.S. Government, CIA, FBI, etc.

The Zionists have a long history of framing Arabs in false flag attacks--including false flag attacks on America. The Lavon Affair, the bombing of the King David Hotel, and the Israeli attack on the USS Liberty are just a few examples.

The "5 Dancing Israelis":

Israeli Mossad agents had set up video cameras on the WTC towers BEFORE the attack, and were seen dancing, shouting for joy, and congratulating each other after the attack. Later a van full of explosives occupied by Israelis was pulled over just hours after the 9/11 attacks.

There are reports five men suspected of being involved in the attack on the World Trade Centre set up cameras to record the atrocity.

The men set up cameras by the Hudson River and trained them on the twin towers.

The New York Times reports they congratulated each other when the crashes occurred.

The five are under investigation by police in Union City, New Jersey, but it is unclear if any of them are in custody.

About eight hours after terrorists struck Manhattan's tallest skyscrapers, police in Bergen County **detained five men who they said were found carrying maps linking them to the blasts.**

The five men, who were in a van stopped **on Route 3** in East Rutherford around 4:30 p.m., were being questioned by police but had not been charged with any crime late Tuesday. The Bergen County Police bomb squad X-rayed packages found inside the van but did not find any explosives, authorities said.

However, sources close to the investigation said they found other evidence linking the men to the bombing plot.

"There are maps of the city in the car with certain places highlighted," the source said. "It looked like they're hooked in with this. It looked like they knew what was going to happen when they were at Liberty State Park."

Sources also said that bomb-sniffing dogs reacted as if they had detected explosives, although officers were unable to find anything. The FBI seized the van for further testing, authorities said.

Note what is said here. A "*bombing plot.*" Dogs smelled explosives. Maps of the area. Police think they are linked to the attack and are conspirators. Also, note that this van was pulled over near Route 3, which leads directly to the Lincoln Tunnel.

Were Israelis Detained on Sept. 11 Spies?

The men were taking video or photos of themselves with the World Trade Center burning in the background, she said. What struck Maria were the expressions on the men's faces. "They were like happy, you know ... They didn't look shocked to me. I thought it was very strange," she said.

[...]

The arresting officers said they saw a lot that aroused their suspicion about the men. One of the passengers had \$4,700 in cash hidden in his sock. Another was carrying two foreign passports. **A box cutter was found in the van. But perhaps the biggest surprise for the officers came when the five men identified themselves as Israeli citizens.**

According to the police report, one of the passengers told the officers they had been on the West Side Highway in Manhattan "during the incident" — referring to the World Trade Center attack. **The driver of the van, Sivan Kurzberg, told the officers, "We are Israeli. We are not your problem. Your problems are our problems. The Palestinians are the problem."**

[...]

When the men were transferred to jail, the case was transferred out of the FBI's Criminal Division, and into the bureau's Foreign Counterintelligence Section, which is responsible for espionage cases, ABCNEWS has learned.

One reason for the shift, sources told ABCNEWS, was that **the FBI believed Urban Moving may have been providing cover for an Israeli intelligence operation.**

Notice that the driver of the van told the officer that "the *Palestinians* are the problem."

The Forward, a Jewish newspaper, admits that these 5 Israelis were Israeli intelligence and were conducting a Mossad mission, but whitewashes it by suggesting they were just "tracking" the "muslims who carried out the attack."

Michael Rivero of [whatreallyhappened](#) notes that this is peculiar that the caller would specifically say Palestinians because Palestinians typically dress in western style clothes, not in "sheikh uniforms." *And remember* what the Israeli driver of the white van said to the police. He said "the Palestinians are the problem." This caller was most likely a co-conspirator trying to plant the seed that Arabs or Palestinians were behind the attack.

Later, a van full of explosives was pulled over by police and at least 3 occupants arrested near the George Washington Bridge (which is several miles north of the Lincoln Tunnel where the other van was pulled over). The identity of the occupants was not revealed in the below article, but other publications have reported that they were, in fact, Israelis. They had box cutters, \$4700 cash stuffed in a sock, and foreign passports. Bomb sniffing dogs were brought to the van and that they reacted as if they had smelled explosives. In

what was most likely an attempted frame up, a caller reported a white van with "Palestinians" or "Arabs" in it. Later, another white van full of explosives was pulled over, and Israelis were again the occupants. Nothing suspicious there!

ISRAELI SPIES CLAIMING TO BE "ART STUDENTS" IN AMERICA AROUND 9/11 GATHERING INTELLIGENCE TO CARRY OUT TERRORIST ATTACKS

Quote:

Federal Buildings Could Be In Jeopardy - In Houston and Nationally

Government guards have found so-called students trying to get into secure buildings

10/01/2001

By Anna Werner

11 News Investigative Reporter

HOUSTON (KHOU) - Could federal buildings in Houston and other cities be under surveillance by foreign groups? That's what some experts are asking after federal law enforcement and security officials - nationally and in Houston - described for the 11 News Defenders a curious pattern of behavior by a **group of people claiming to be Israeli art students**.

They've shown up at the Houston headquarters of the Drug Enforcement Administration, at the Leland federal building downtown, and even the federal prosecutor's office.

Who are they? They're described as Middle Eastern men and women who claim to be Israeli art students, carrying portfolios filled with artwork they say they want to sell. But government guards have found those so-called students trying to get into these secure buildings in ways they're not supposed to – through backdoors and parking garages. And that they appear to be monitoring the buildings. Even stranger, sources say, the "students" have even shown up at the homes of federal employees.

[...]

No one in the federal government would talk with us on camera, so we asked our own expert, 11 News military and terrorism analyst Ron Hatchett, for his take on the scenario described above. **"What comes to my mind right away is that this is an obvious surveillance," says Hatchett. "This is not a bunch of kids selling artwork."**

Hatchett says they could be doing what he would be doing if he were a terrorist – sizing up the situation: "We need to know what are the entrances to this particular building. We need to know what are the surveillance cameras that are operating. We need to know how many guards are at this operation, when do they take breaks?"

A former Defense Department analyst, Hatchett believes groups may be gathering intelligence for possible future attacks. "Some organization, thinking in terms of a potential retaliation against the U.S. government [could be] scouting out potential targets and ... looking for targets that would be vulnerable."

And a source tells the Defenders of another federal memo, stating that besides Houston and Dallas, the same thing has happened at sites in New York, Florida, and six other states, and even more worrisome, at 36 sensitive Department of Defense sites.

"One defense site you can explain," says Hatchett, "well that was just a serendipitous, they went to that building. Thirty-six? That's a pattern."

That memo also reportedly tells of 25 to 30 arrests, usually made on immigration fraud charges. Why?
[u]Because many of these so-called Israelis have phony passports and visas. The memo concludes these students "may have ties" to an "Islamic fundamentalist group."[/u]

If these people were muslims or potential members of "al-CIA-duh", don't you think this would have been all over the national news? The reason this has been hushed up is because these "art students" were ISRAELIS. And since when do muslim terrorists try to impersonate Israelis? Even according to the "official" story on 9/11, this didn't occur.

Israeli spies claiming to be "art students" who look "Middle Eastern" (ie, could be mistaken for being Arabs), many of whom have phony passports (possibly from Arab countries?)...WHO MAY HAVE TIES TO AN *ISLAMIC* FUNDAMENTALIST GROUP (like al-CIA-duh?) gathering surveillance on government buildings?!!

And this is not just one isolated case here. Similar incidents happened all over the country. And why wouldn't anyone in the government talk about it?

NOTHING TO SEE HERE!

Sept. 11 riddles remain

By: KEITH PHUCAS
Times Herald Staff
08/29/2005

[...]

A memorandum sent to the 9/11 Commission, and Senate and House intelligence committees in September 2004, suggests that young Israelis who canvassed dozens of U.S. Drug Enforcement Administration (DEA) offices in 2000 and 2001 trying to sell paintings to federal workers, may have been spying not only on the DEA, but also on Arab extremists in the United States - including the Sept. 11 hijackers who were living in Florida and New Jersey.

The Israeli "art student" story, which first surfaced in 2001 in news reports, has yet to be explained by U.S. authorities. Curiously, the 9/11 Commission did not venture to connect the myriad of dots to solve the mystery.

[...]

In 2001, a Fox News report by Carl Cameron laid out the Israeli spy scenario, however, the story was short-lived, and Shea was told by a representative at the news organization that there was outside pressure to kill the story.

Several publications, including The Forward, Insight and the French newspaper, Le Monde, picked up the story in 2002. All indicated there was extreme reluctance by U.S. officials - and practically anyone else - to discuss the matter publicly.

The DEA did acknowledge the internal reports describing the Israelis activity at the agency's offices to The Times Herald, but refused to elaborate.

[...]

One of the memorandum's most fascinating revelations puts the Israelis and would-be 9/11 hijackers in close proximity geographically in the months prior to the terrorist attacks in Florida, Oklahoma and New Jersey.

As the DEA was compiling its report in June 2001, 15 or the 19 plotters of the Sept. 11 attacks were living in the Hollywood, Fla., area, according to Shea's research, and more than 30 of the young Israelis also lived in the same area during this time period.

According to the memorandum, some of the Israelis and hijackers in Florida lived "within hundreds of yards" of each other. Besides Hollywood, the Israelis and hijacker lived within about five miles of one another in other southern Florida towns, including Coral Springs, Plantation, Fort Lauderdale, Miami and Coral Gables.

VERRRRRY INTERESTING. But I'm sure it's just another one of those "bizarre coincidences" that these Israeli spies were living in the same cities (and "within hundreds of yards") of the supposed "hijackers." Now, were the Israelis spying on these "al-CIA-duh" muslim terrorists, as the government may claim? If so, why didn't they reveal the plot to U.S authorities, and why is the government and media covering up the issue of these Israeli spies?

OR...were the Israeli spies the *real* terrorists themselves? Perhaps they were the "handlers" of a muslim "terrorist" patsy. Or perhaps the Israelis were *impersonating* muslims (with phony passports, ID, and all), and thus setting the stage to frame muslims for future terrorist attacks.

ZACARIAS MOUSSAOUI FRAMED BY IMPERSONATOR WHO COULDN'T SPEAK FRENCH; MAN IMPERSONATING MOUSSAOUI ALSO AN INEPT PILOT

Eagan flight trainer wouldn't let unease about Moussaoui rest

Greg Gordon
Star Tribune
Dec 21 2001

[...]

The still-unidentified flight instructor became wary of Moussaoui immediately, according to Minnesota Rep. Jim Oberstar and others with direct knowledge of the briefings.

Moussaoui first raised eyebrows when, during a simple introductory exchange, he said he was from France, but then didn't seem to understand when the instructor spoke French to him.

Moussaoui then became belligerent and evasive about his background, Oberstar and other sources said. In addition, **he seemed inept in basic flying procedures, while seeking expensive training on an advanced commercial jet simulator.**

[...]

Oberstar said the flight instructor, a retired military pilot, **grew suspicious after he began speaking French to Moussaoui. Oberstar said Moussaoui seemed not to understand, said he wasn't fluent in French, didn't live in France long and added: "I'm from the Middle East."**

The instructor found it odd that Moussaoui said he was from the Middle East, rather than identifying a country, Oberstar said. When the instructor inquired further, Moussaoui grew belligerent, several sources said.

It was not clear whether Moussaoui, who was born in France and attended French schools as a youth, did not

understand French or merely chose not to speak it.

Over the next three days, Moussaoui seemed to his instructor to be uncoordinated and showed little ability to follow the lessons, several sources said. The instructor "tried to tell him he was wasting his money," one source said, but Moussaoui persisted.

The *real* Moussaoui was born in France in 1968, and speaks fluent French (that being his primary language). Yet, this Moussaoui *impersonator* didn't understand French, *and even claimed he wasn't fluent in French*. RED FLAG. The impersonator then claimed he was "from the Middle East" and "didn't live in France long." ANOTHER RED FLAG. The real Moussaoui was born in (and "from") *France* (not the "Middle East") and lived in France his entire childhood.

Oh, and this impersonator was "inept" at even "*basic*" flying procedures (just like the other supposed "hijacker pilots"--eg, Hani Hanjour--who were also poor pilots). But we are to believe that these jokers really flew hijacked planes into the WTC and Pentagon?

El Wafi, who spoke French at the news conference, said she was concerned that **her son does not speak any English and cannot understand the charges against him.**

She questioned whether he could get a fair trial in the United States and preferred that he be tried in France.

"I think it's better because he's French, he was born in France, he speaks in French, he was educated in France. I prefer he get his legal papers in French so he can understand why he's being accused," El Wafi said.

Judge Doubts Moussaoui's Claims About 9/11

By MATTHEW BARAKAT, Associated Press Writer
Wed May 3, 9:15 AM ET

ALEXANDRIA, Va. - **The judge presiding over Zacarias Moussaoui's sentencing told trial lawyers that she doesn't believe Moussaoui's claims on the witness stand that he knew advance details of the Sept. 11 plot.**

"I still think that Moussaoui was not accurate in a lot of what he said about how much he knew about what was going to happen with which particular buildings and when," U.S. District Judge Leonie Brinkema said during a closed hearing on April 21 outside the jury's presence. Transcripts of the hearing were released Tuesday.

Moussaoui's bombshell testimony on March 27, in which he took the stand against the advice of his court-appointed lawyers and claimed a direct role in the 9/11 plot *after years of denial*, revived a moribund prosecution case. Defense attorneys have argued that Moussaoui lied on the stand either to inflate his role in history or antagonize the jury into making him a martyr through execution.

Specifically, Moussaoui claimed that he and would-be shoe bomber Richard Reid were to have flown a fifth plane on 9/11 into the White House, and that he also knew the World Trade Center towers were targeted.

Brinkema made her comment during a debate over jury instructions.

So Moussaoui denies any involvement in 9/11 for years. The government apparently has a poor case with little evidence against him. Then, suddenly, Moussaoui takes the stand and "confesses" to a role in the attacks, reviving the prosecution's case. BUT, the testimony is quite suspect and even the presiding judge doesn't believe his testimony "confessing" to a role in 9/11.

Doesn't that sound like he was pressured into "confessing" to a role in 9/11?

I just finished Daniel Hopsicker's *Welcome to Terrorland*. He exposes the cover story of the Florida flight schools, and the ongoing cover-up. The whole thing stinks of Iran/Contra and CIA drugs. It's the same, bloody game.

...And FYI, here are some notes I kept while reading the book:

[...]

1. In Venice Florida, Mohamed Atta **lived for two months with an American stripper/lingerie model** named Amanda Keller.
2. **Atta loved to party**. He was out with Keller nearly every night they were together. **He was a heavy drinker, snorted coke, was a stylish dresser and wore expensive jewelry**.
3. According to Keller, **Atta loved pork chops**.

[...]

6. In Miami, **Atta consorted with women known to be linked to the Mafia.**

7. **Atta's email list included names of people who worked for defense contractors.**

[...]

9. Atta was **fluent in at least Arabic, English, German, French and Hebrew.**

[...]

10. One day when Atta was rummaging through his flight bag, Keller got a look inside. Her words:

"...And a folder with **all these different ID's in it.** And that's when I saw one – because it fell out – a little blue and white thing the size of a driver's license. **It had his picture on it, and it looked like a mug shot, or a prison shot. And it didn't look like him, and I asked him, 'Who is this?'**

...

He told me he spoke Hebrew. I said bullshit. So he started speaking it, and I guess he did.

[...]

14. **Under pressure from the FBI, and despite numerous witnesses who had known them together, Keller publicly retracted her story of having lived with Atta, saying he'd been another hijacker named Mohammed, no last name...**

[...]

38. **A former Huffman executive, speaking about the hijackers: "Early on I gleaned that these guys had government protection. They were let into this country for a specific purpose. It was a business deal."**

39. **The FBI visited the home of this executive just four hours after the attacks. The purpose has been not to investigate, but to intimidate him into silence. The man says his phones were bugged, and thinks pilots were "double agents." He quit the flight school fearing for his life, and claims he knows too much about Wally Hillier, saying he "has a family to think about."**

[...]

48. **Most of Atta's closest associates in Venice were not Arabs, but Europeans with connection to the drug trade.**

[...]

50. **According to his girlfriend, Atta was a big Beastie Boys fan.**

WOW...Again, this is coming from one novel, but *if true*, it sure explains a lot.

Would the *real* Mohammed Atta be fluent in *Hebrew*? And would a real "devoutly religious muslim fanatic" party all the time, get drunk, snort cocaine, eat port, and date a stripper? And why would the real Atta have a bunch of phony IDs? And what about this "Atta" associating with people linked to the Mafia, and associating more with Europeans connected to the drug trade than Arabs? And this "Atta" was a "big fan of the Beastie Boys"? Come on. This was NOT the real Mohammed Atta. **This was an Israeli or Mossad agent impersonating Atta in order to frame him.**

As the post also recounts, this "Atta" was acquainted with several individuals involved in drug trafficking (who even had government protection to continue the trafficking) linked to the flight school where he was supposedly taking flight lessons.

And notice that bombshell where the flight school executive says that the "hijackers" had "government protection" and "were let into this country for a specific purpose." Remember how Israeli/Mossad involvement in 9/11 is "classified"?

Also, FBI agents applied pressure to witnesses (including the flight school executive) and people associated with this "Atta" impersonator to recant their stories and be silent.

FOXNews Story on Israeli Spying

Up to 200 Israelis were arrested after 9/11 on suspected connection to the 9/11 attacks, but they were ordered to be quietly released shortly thereafter by certain high-level officials in the federal government.

Shortly after 9/11, Carl Cameron of Fox News conducted a 4 part series investigating Israeli spying in America. Fox News uncovered evidence of a massive Israeli spy ring inside the United States. They reported that around 200 Israelis had been arrested or detained in connection with 9/11, and that these Israelis had information about the 9/11 attacks that

was not passed on to the American government.

Not long after the report was produced, Carl Cameron and Fox came under fire from certain groups and individuals. Subsequently, Fox News pulled the transcriptions of the reports off its web site, saying that "this story no longer exists."

The story can still be found on www.archive.org, and transcripts of the story (and video) are here (although the video does not seem to be working for me, only the audio works):

U.S. GOVERNMENT COVERS UP AND "CLASSIFIES" MOSSAD/ISRAELI INVOLVEMENT IN 9/11

The following admission came from Carl Cameron's 4-part series on Israeli Spying in America on FOXNews:

A highly placed investigator said there are "tie-ins." But when asked for details, he flatly refused to describe them, saying, "**evidence linking these Israelis to 9-11 is classified. I cannot tell you about evidence that has been gathered. It's classified information.**"

<http://tinyurl.com/k6dm5>

Senator Bob Graham (D-FL), a leading member of the Senate Intelligence Committee, appeared as a guest on the PBS Newshour with Gwen Ifill on December 11, 2002. Graham stated that a foreign government or governments had to have funded and supported the hijackers. Here's part of the exchange:

Quote:

IFILL: *"Are you suggesting that you are convinced that there was a state sponsor behind 9/11?"*

GRAHAM: *"I think there is very compelling evidence that at least some of the terrorists were assisted not just in financing – although that was part of it – **by a sovereign foreign government and that we have been derelict in our duty to track that down**, make the further case, or find the evidence that would indicate that that is not true and we can look for other reasons why the terrorists were able to function so effectively in the United States."*

IFILL: *"Do you think that will ever become public, which countries you're talking about?"*

GRAHAM: *"**It will become public at some point when it's turned over to the archives, but that's 20 or 30 years from now.** And, we need to have this information now because it's relevant to the threat that the people of the United States are facing today."*

http://www.pbs.org/newshour/bb/congress/july-dec02/intelligence_12-11.html

Commentary:

Quote:

Senator Graham is suggesting that US intelligence knows which foreign government helped the terrorists, but the government isn't going to tell us for another 30 years! **Given the current state of anti-Muslim war hysteria being promoted by the media and government, common sense dictates that if an Arab government was ever discovered to have sponsored 9-11, we'd be seeing the evidence night and day on the controlled media, and hearing about it non-stop from all the President's warmongers as well as the Israeli-occupied US Congress and Senate. This alone is evidence that no Arab government was involved in 9-11.**

<http://www.whatreallyhappened.com/hundreds.html>

Are you getting the picture? A high-level U.S. Government official admits that Israeli involvement in 9/11 is "classified" information. Then Senator Bob Graham, leading member of the Senate Intelligence Committee, admits that "a foreign

government" was involved in 9/11, but the U.S. government is not doing enough to pursue that link, and this information will not be declassified and released to the public for another 20-30 years. This obviously isn't some Arab/Muslim government Graham's talking about. *Based upon all of the evidence*--including the Israeli spies in America "trailing" (handling and framing) the 9/11 "hijackers", the Mossad agents filming and celebrating the WTC attacks, and the Israeli "art students" and other spies gathering intelligence for terrorist attacks--it is clear that the government Graham is talking about is Zionist Israel.

Consider a formerly secret CIA assessment, Israel: Foreign Intelligence and Security Services, dated March 1979, which reported that it is a long-standing policy for Israeli intelligence to disguise Jews as Arabs:

One of the established goals of the intelligence and security services is that each officer be fluent in Arabic. A nine-month, intensive Arabic language course is given annually . . . to students . . .

As further training, these Mossad officers work in the [Israeli-controlled Arab lands] for two years to sharpen their language skills. . . .

Many Israelis have come from Arab countries where they were born and educated and appear more Arab than Israeli . . .

By forging passports and identity documents of Arab and western countries and providing sound background legends and cover, Mossad has successfully sent into Egypt and other Arab countries Israelis disguised and documented as Arabs or citizens of European countries. . . . These persons are also useful for their ability to pass completely for a citizen of the nation in question. The Israeli talent for counterfeiting or forging foreign passports and documents ably supports the agent's authenticity.

Pulitzer Prize-winner Jack Anderson, a supporter of Israel, wrote on Sept. 17, 1972 that:

Israeli agents—immigrants whose families had lived in Arab lands for generations—have a perfect knowledge of Arab dialects and customs. They have been able to infiltrate Arab governments with ease.

[...]

In The New Yorker on Oct. 8, Pulitzer Prize winner Seymour Hersh pointed out:

Many of the investigators believe that some of the initial clues about the terrorists' identities and preparations, such as flight manuals, were meant to be found. A former high-level intelligence official told me, "Whatever trail was left was left deliberately—for the FBI to chase."

Why Arabs would plant evidence implicating their own is a point mainstream media chooses not to address.
