

Mossad As A Cover For MI6?

Commentary By Gordon Logan

Dear Peter,

"You are saying that Mossad has been a cover for a number of MI6 assassinations (Martov, Diana), i.e. that various Mossad-linked authors (primarily Gordon Thomas) have put the blame of Mossad for these MI6 murders. Do you suggest that MI6 has had an arrangement with Mossad, for it to take the blame so that MI6 can retain its squeaky-clean image? In that case, is there a payoff?"

Mossad is the boss. MI6 and the Americans jump when ordered. Israel above all. Pollard is in jail to maintain the pretence of US sovereignty, because "America doesn't exist any more, but the people haven't been told", as a ranking spook told me. Greenspan fell out with Bush in 1988 over the West Bank settlements. So Sayan Greenspan caused a recession to bring down Bush in 1991 and replace him with Clinton. Clinton refused to meet Netanyahu after the murder of Rabin, so Mossad set up the Lewinski affair and the Republican parajews proceeded to debase the US Presidency as never before.

The FED is a Zionist bank. It works for Israel not America, so the federal debt secretly requires collateral, not 'full faith and trust'. That collateral's major constituent is Saudi oil. So Israel is leveraging the federal debt in order to obtain Saudi Arabia's oil by 2010; that plus US military projection (i.e. war) is the real Operation Shekhinah.

As Perle put it, "Saudi Arabia is the prize". Zionist control of the Gulf is intended to lever Europe, China, Japan and India into submission.

Perle is also the architect of post-communist 'shock therapy' according to pentito Jude Wanniski. Wanniski attended the Jews' discussions in New York at the end of 1991, when the trick was hatched. The poison cocktail was delivered by super charlatan Jeffrey Sachs and soon the Jews had sequestered everything, and the local human beings were forced to eat out of trashcans. It is time that the average Jew understood what an absolute, unmitigated blight his elite co-religionists are.

The 'kidon magic' that Ostrovsky talks about is simple: it is the gagging of the entire international media, so that obvious Mossad operations like the murder of Princess Diana, the blowing up of the World Trade Center and the Litvinenko killing are ascribed to other parties. Political killings are much easier to figure out than the average murder and therefore require blanket control of the international media if they are not to be exposed.

These days a handful of countries are able to control the world media, which means that it is only these countries that can kill with impunity. Any other country is liable to international exposure. Israel has a dual policy: she murders people with impunity, for example using an F16 to target a man, and kill his family and his neighbours too, while at the same time she is able to foist the responsibility for high profile international murders on any country she wants. That's power.
