## The Cancun Summit Mandated The North American Union by 2007

MONDAY, 19. JUNE 2006, 18:17:31

[BIRD FLU QUARANTINE](#), [NORTH AMERICAN UNION](#)

### Liberty Gone Forever

The Cancun Summit Mandated The North American Union by 2007  
by Jan Allen

#### I. Summary

The Cancun Summit produced the Leaders Joint Statement of March 31, 2006 <http://tinyurl.com/pdzlk>

It mandated six action points to insure that the North American Union be in place before the end of the year.

The North American Union is the creation of the Security and Prosperity Partnership (SPP) which established totally new state corporate rule over the entire North American Continent <http://tinyurl.com/eey4x>

II. The Leaders Joint Statement of March 31, 2006 <http://tinyurl.com/pdzlk> presented six action points to insure that the North American Union be in place before the end of the year:

#### 1) Establishment of a Trilateral Regulatory Cooperative Framework

The leaders said: We affirm our commitment to strengthen regulatory cooperation in this and other key sectors and to have our central regulatory agencies complete a "trilateral regulatory cooperation framework" by 2007.

#### 2) Establishment of the North American Competitiveness Council (NACC)

The NACC is to be the council, junta of business executives and government ministers, who make recommendations for executive action.

#### 3) Provision for North American Emergency Management

Develop a common disaster response, for events whether natural or man-made; and there will be coordinated training and exercises, with the participation of all levels of government in all countries.

#### 4) Provision for Avian and Human Pandemic Influenza Management

Develop a comprehensive, science-based and coordinated approach within North America to avian influenza and human pandemic influenza management.

5) Development of North American Energy Security

Collaborate amongst business executives and governmental agencies for energy security.

6) Assure Smart, Secure Borders North American Borders

Establish checkpoints at borders; develop the North American trusted traveler program and provide a trilateral network for the protection of judges and officers.

III. The North American Union Is The Plan For Global Governance Of The Entire Continent

1) Global governance is the application of universal principles of democracy, order, security and prosperity.

Global governance combines state power and corporate resources for rule over the people; it is this state corporatism that directs domestic and foreign policy.

2) The Cancun Summit's Leaders Statement shows that global governance is being installed via democratic institutions consisting of meetings, summits, councils and working groups; these replace constitutional law and statute law. Leaders set policy at meetings <http://tinyurl.com/eh8l5> and summits <http://tinyurl.com/fzu2x> Then councils <http://tinyurl.com/ej2r3> and working groups <http://tinyurl.com/n9q8c> consisting of governmental ministers and businesses executives establish deep integration of government with industry, commerce and trade -- these provide the infrastructure for new governance. National sovereignty is sacrificed as the interests of the region rise in pre-eminence.

Yes, at the Cancun Summit "Next Steps Meeting", George Bush and Robert J Stevens of Lockheed Martin together with other business leaders finalized their plan for The North American Union <http://tinyurl.com/h2rg3>

3) Global Governance is synonymous with Tyranny, meaning rule from above. The Age of Tyranny began March 23, 2005 when President George Bush signed the SPP thereby abrogating the US Constitution, signing away America's National Sovereignty and committing the US to a region of state corporate governance

<http://tinyurl.com/r42wp>

The President's actions have gone unchallenged by Congress: the reason is most likely they have acquiesced <http://tinyurl.com/oxx2x> to George Bush being the Unitary Executive who establishes government policy and action. The term Unitary Executive means that the President has Universal and Inherent Authority -- Plenary Power to respond to emergencies and to response to terrorism which threaten the Homeland's security, prosperity and order.

Since the President's word, will and way have become the law of the land (and the continent), The Liberty Bell and The US Flag have been, for all practical purposes retired <http://tinyurl.com/lykgc>

4) The Trilateral Regulatory Cooperation Framework = The Executive Branch Of The Forth Coming N. American Government. No specifics were given on this "framework"; one could assume the "framework" is Doublethink <http://tinyurl.com/omyu4> for the Executive Branch of tyrannical state corporate rule; the Executive Branch is complimented by NORTHCOM, the Military Law Enforcement Branch <http://tinyurl.com/hmfhj>, and the NAFTA Tribunal, the Commerce Judiciary <http://tinyurl.com/myecx>

Action point six listed above provides for a trilateral network for the protection of judges and officers; one could assume that the judges will be given physical protection from people who might express hostility to the introduction and administration of global governance.

The SPP <http://tinyurl.com/rofvq> made use of the word stakeholders, councils and working groups, these recommend policy for Executive Action. Thus, the US Congress is largely an irrelevant body -- it is a relic of a bygone era. The SPP is the document for a secure, prosperous and orderly North American Homeland. The three presidents and their Trilateral Regulatory Cooperation Framework are the ruling body in the North American Union.

5) The NACC was actually put in place 6-14-2006 <http://tinyurl.com/rpyrh> The NACC may become "NAFTA on Steroids".

6) Just as the "911 terrorist incident" <http://tinyurl.com/mvbl5> and "so called international terrorism"

<http://tinyurl.com/luka9> and "Sadaam's WMDs" <http://tinyurl.com/ljns6> led to military involvement in Iraq, a soon coming continental-wide emergency such as a currency devaluation, a shortage of gasoline due to a conflict with Iran or the outbreak of pandemic bird flu <http://tinyurl.com/qroe6> will require that NORTHCOM deploy the military, global peacekeepers and Blackwater USA security guards <http://tinyurl.com/q2ee9> under the terms of the terms of the SPP, for the Homeland's Security and Order <http://tinyurl.com/pu4kn>

Here are various articles suggesting that a pretext will be used to install state corporate rule over America:

6a) Bird Flu Quarantine: Pretext For A Globalist Martial Law Takeover Of America? <http://tinyurl.com/s6t6c>

6b) Urban Warfare Training Exercises: Practice For Martial Law Troop Deployment? <http://tinyurl.com/z54sf>

6c) Neocons Build World Army To Subdue Hotspots And North America <http://tinyurl.com/rjr7y>

7) The trusted traveler program, mentioned in action point six, is the foundation for what will likely become an "internal travel permit" program <http://tinyurl.com/s94v9> whereby one presents papers for travel within the Union - within the Homeland

8) Action point number three above mandates coordinated training and exercises for emergency management with the participation of all levels of government in all countries. Such a training exercise took place as reported by the The-Free Lance-Star article 'Police Training Guard' dated 6-21-2006 where thirty five of Fredericksburg's Army National Guard members received urban assault training from eight members of Fairfax County's SWAT team. The police officers drilled members of Alpha Company, 116th Brigade Special Troops Battalion--formerly the 229th Engineer Battalion--in techniques they use in urban, and suburban, scenarios. The group trained at Fort Pickett's MOUT, or Military Operation Urban Terrain section. It's a cluster of white concrete buildings built to simulate a neighborhood in Baghdad or Kabul -- a manufactured ghost town. Here they practiced commands such as Police! Get Down. The police officers remained humble while training the unit; they said they were honored to work with the soldiers. <http://tinyurl.com/l2bgv>

Such a training exercise corrupts the National Guard in two way: First, the training is a subterfuge for what is really taking place: that being creeping tyranny to build the "homeland security state infrastructure" to control the people. Secondly the training destroys the ethic and underlying principle of historical law, that being, the Posse Comitatus Act. This is the U.S. statute prohibiting the use of "armed force" for law enforcement; its intent, purpose and application described quite well by Libertarian Gene Healy in 'What of Posse Comitatus' <http://tinyurl.com/f963p>

9) The institution of the North American Union manifests the Straussian philosophy of the Bush administration <http://tinyurl.com/pz3qu> which is based upon the University Of Chicago Professor, Leo Strauss who taught that "philosopher kings" arise; these elite Few are to rule over the vulgar Many.

IV. Throughout history, transition to new governance has always been marked by asset depreciation and hyperinflation. Financial security is found in gold.

Gold has entered into a period of price stability <http://tinyurl.com/m87uu> after having risen parabolically <http://tinyurl.com/rpjus> Gold at \$570/oz represents the last opportunity to buy gold before it rises again to \$700, \$800 and even beyond.

It is wise to own gold in physical form: this means one stores gold in a vault and stores gold on one's property. Some have suggested a Gold ETF such as GLD or IAU; however, these ETFs not real assets <http://tinyurl.com/lpxzm>

Bullionvault.com is a convenient service that purchases and stores one's gold. <http://www.bullionvault.com>. The Good Web Guide Review says: ""An investment website for people to buy and sell gold bullion, which they own outright and is securely stored in professional vaults by Brinks. The website scores highly for being easy to read and being well-designed. It is clearly laid out for even an inexperienced user and the home page has links to detailed but simple instructions and FAQs." At its first review BullionVault was awarded the maximum rating of 5 stars. <http://tinyurl.com/o49rm>

One should also store gold on one's property: like buried under concrete where one, at a time of need, can physically dig it up and use it as necessary.
