Now A Few Words

Three weeks ago tomorrow I suffered a stroke. I actually returned from the hospital, wrote a finale text, which took me hours to write four sentences, gathered my goods in a bag and returned to the hospital. There I dealt with life's newest twists. Three weeks ago I smoked 2 packs a day. Today, nothing. Alcohol is a fed to me three ounces a week. And finally I can move my right hand enough to compose a short piece. A very short piece which will be answered by much shorter replies.

In a typical day I read and reply to about 150 letters. I can do this by reading the letters and answering each in as few as two or three sentences. Even that's too much for now. Since I still have to spell out the replies, let's prepare for another week or two of very concise correspondence.

So let's get to the point; there is nothing to write about anyway. There are elections taking place in Israel and no one could give a damn. Ariel Sharon was murdered and the murderers will take over the country. On Dec. 18 he shared tea with Shimon Peres in the Knesset and was wheeled into the hospital a half hour later by the murderer of Yitzhak Rabin, Yoram Rubin.

There, Sharon was poisoned. Though he suffered from CAA, or weak brain blood vessels, he was diagnosed with a mild stroke and sent to his Negev home with blood thinners. On Jan. 3 Ehud Olmert was the last person to see him alive. Sharon granted Olmert three hours the next morning to be prime minister and then Olmert applied the poison. So that's the situation. Olmert, who was never even Likud member number 40 is now number one in Kadima and Peres in number two. They have plastered together a party of political criminals, all of whom will join together to destroy Judea and Samaria when the new government it leads begins to function.

I put out a new product this week beginning with an ad in *B'Sheva*, the settlers' news outlet. It is a two hour tape I recorded last month in Kiryat Arba. I spell out the elections, how Olmert and Peres took control of a phoney party, and how they will force with country to accept the pullout from Judea and Samaria after. After a few days I realized my mistake; no one in Judea and Samaria is going to defend their homes by actually fighting for them. Why do I think there is any point to any of this work?

Here is the real point of it all. Look at the following play that opened this week this Baltimore. www.centerstage.org/index.php. An Israeli nut wrote a play about the murder of Rabin based on not one piece of the facts. And Baltimore Jews think they are getting history in their theatres.

If you'd like to try motivating Israelis with the facts, you may purchase my new Hebrew DVD or video, *THE DIRTY WAR AGAINST JUDEA AND SAMARIA*, for NIS 50. Finally, the somewhat problematic DVD ***ZION FIRST: The Vatican's New Crusade For Jerusalem***, is now a problem-less CD ROM. I'll offer it for \$18 this week.

And guess what? Write me at my old address for now: Nahal Zohar 40/2, Modiin 71700 ISRAEL. The new post box is on strike and I have not had mail in 10 days. And if anyone actually cares, Yaacov Schlosser is running for Knesset and has actually promised to get the bottom of Rabin murder if elected. If you're crazy enough to vote in the election, then at least try and elect someone honest. Call him at 050 5940965.
