

Israel, Mossad, Iran and a Nuclear False Flag Attack

by **[R. Leland Lehrman](#)**

505.982.3609 - leland@33o.com

Updated: July 28, 2005

On April 18th of 2005, I released a public advisory, reproduced below, regarding the danger of a faked nuclear attack on America, to be staged by rogue British, American and Israeli Mossad operatives, assisted by select criminal, compromised, drug-addicted or mind-controlled "Muslim" patsies and designed to support a global war against Iran and Islam. The attack would also be used to further legitimate the building of the genocidal wall in Jerusalem and possibly even [an expansion of, rather than a pullout from, the settlements in Gaza](#) and the West Bank in furtherance of total Israeli dominance in the Middle East. The attack would be aided by [Israeli partisans in the United States](#), and [stage-managed](#) in the [Congress](#) by the [American Israel Public Affairs Committee](#), and its [attendant PR firms](#) and [media empires](#). As a descendant of Russian Jews, I consider it a particularly important personal civic responsibility to expose the deception and danger of Zionism and its terrorist agency, the Mossad, who will probably furnish the patsies. The Mossad is a [leading candidate](#) for [architect of the 9/11 attacks](#). This suppressed [German Intelligence Document](#) reveals how senior Israelis knew in advance about the attacks and "urgently wished that no attempt was made to prevent the attacks." Here's a longer quote:

"It is very evident from surveillance conducted against Mossad agents in the Federal Republic as well as interceptions of Israeli diplomatic communication from the Federal Republic to Tel Aviv, that the Mossad has successfully penetrated various extremist Arab groups in both the Federal Republic and the United States.

These investigations disclosed in late May of 2001 that an attack was to be made against certain specified targets in the American cities of Washington and New York. But it was apparent that the Mossad was not only fully aware of these attacks well in advance but actually, through their own agents inside these Arab groups, assisted in the planning and the eventual execution of the attacks.

That the Israeli government was fully aware of these attacks is absolutely certain and proven. Diplomatic traffic between the Israeli Embassy in the Federal Republic and the Israeli Foreign Office made it very clear that Minister President Sharon was

fully aware of this pending attack and urgently wished that no attempt was made to prevent the attacks.

Although the Israeli officials were instructed to warn the American intelligence community that some kind of an attack might be possible, at no time were the specific dates and targets (known at that time to Israeli officials) to be given to the Americans.

The rationale for this attitude was expressed in a conversation on August 1, 2001, between the Israeli Military Attaché in the Federal Republic to a member of the Israeli General Staff. There it was stated that Israel believed an attack on the continental United States would so inflame American public opinion that they would permit Israel to "cleanse" their state of "Arab terrorists and those who support such terrorists". This "cleansing" was explained as the expulsion of all Arabs, and even Christian groups, from the Palestine area."

[The physics911.net website has additional supporting evidence for Mossad involvement in 9/11](#) in its background information section. Although the [Mossad has been caught perpetrating fake terrorist operations](#), most people still don't know about it. It is often asserted that [Israel and Zionism are in fact themselves patsies of the Anglo-American establishment](#), but given the fact that [Talmudic Zionists like the Rothschilds](#) have controlled [international central banking and freemasonry](#) for centuries, I am not convinced of that hypothesis, though I include it [here](#) for balance. Interestingly, at the very core of secret Freemasonry doctrine is what is known as [British Israelism](#), an assertion that the British are in fact a lost tribe of Israel and that as such Britain is included in the proverbial covenant of the Chosen People. Who is at the [top of the Pyramid?](#) Why, [Lucifer himself](#) of course, whether you acknowledge it metaphorically or literally. All "identifiable groups" are expendable within the divide and conquer methodology.

Since the US Army War College already acknowledges that the Mossad ["has capability to target US forces and make it look like a Palestinian/Arab act,"](#) it may well be that the FBI has finally realized how dangerous the Israeli [Fifth Column](#) is, having begun to tighten the noose around the [legendary Israeli spying operation in America by arresting Larry Franklin, Doug Feith's deputy in the Office of Special Plans, origin of the fraudulent Iraqi weapons of mass destruction intelligence. Not yet indicted, but identified as Co-Conspirator 1 and 2 along with Franklin are the two top AIPAC operatives to whom he passed highly classified intel: Steven Rosen, head of Policy and Keith Weissman, Iran specialist.](#) Israeli sources expect Weissman and Rosen [to be indicted for espionage](#) in the coming weeks.

Once I thought that perhaps two of the largest factions of the New World

Order, [Skull and Bones](#) and the [Zionists](#) are now in open warfare, as the [Bush Administration attempts to clean out the neoconservatives, discipline the Israeli military and enforce the two state solution.](#) But it doesn't look like it now.

[Predictably, the word in pro-Zionist circles is that the FBI investigation by Counter Intelligence Chief David Szady into the Larry Franklin affair is anti-semitic and driven by a CIA old guard.](#) Some "Russian" security sources which cannot be confirmed provide tantalizing intelligence suggesting the same thing, and repeat the meme of a nuclear terrorist attack in the USA, staged by the Zionist/Skull and Bones hierarchy and including their [neoconservative](#) covert agents.

[Victor Ostrovsky, Mossad defector, has indicated that George Bush Senior may have been targeted by Mossad for assassination](#) due to his attempt at enforcing a two state solution through cancellation of American loan guarantees to Israel during a "peace process" he started. George W. Bush continues at least the appearance of peace talks as related in [The Jewish Press: "Bush made his position clear: Israel's settlement expansion in the West Bank must stop. "I told the prime minister of my concern that Israel not undertake any activity that contravenes "road map" obligations or prejudices final-status negotiations,"](#) Bush said, referring to the "road map" peace plan his administration launched three years ago. ["Therefore, Israel should remove unauthorized outposts and meet its road map obligations regarding settlements in the West Bank."](#) Of course, staging a fight is an easy thing to do when you are a [professional deceiver](#), which description suits both Zionists and Bonesmen quite well. After all, the source for Ostrovsky's allegation was most probably former head of Mossad [Ephraim Halevy, now national security advisor to Ariel Sharon and the author of a recent call to perpetual world war with Islam.](#) Halevy's other famous warning was that ["should one of the more severe scenarios come to pass, the United States will have no choice but to deepen its presence in the Middle East. To that end, it will have to renew the draft, to ensure that there are enough forces to deal with developing situations in countries like Saudi Arabia."](#)

The AIPAC affair is only the tip of a giant iceberg that goes back even beyond the Balfour Declaration and the role of Zionists in precipitating America's involvement in World War I. [It is now generally acknowledged that Lord Balfour's letter to Lord Rothschild - allowing for the establishment of a Jewish homeland in Palestine - led to a massive shift in allegiance by international elitist Zionists from the Axis to the Allies.](#) The British, under "Lawrence of Arabia" managed to convince the Arabs to fight with them against the Turkish Ottoman Empire, which allied with

Germany. However, the Palestinians were betrayed to the Zionists and the "United Nations" after [Britain's attempts at keeping the peace were destroyed by Israeli terrorists](#) such as [eventual Prime Minister, Menachem Begin](#). The Balfour Declaration also led to the massive pressure applied by [American Zionists like Louis Brandeis](#) and [Bernard Baruch](#), head of the War Industries Board, on President Woodrow Wilson to enter the war and [to create a one world government \[League of Nations\]](#) as prophesied by [David Ben Gurion in Look Magazine, 1962](#). Indeed, [Benjamin Freedman, a high-level Jewish defector from Zionism who was part of the Wilson administration stated openly that International Zionists guaranteed American assistance to the Allies in World War I in return for the Balfour Declaration](#). The thesis certainly fits the facts. Here is Freedman's statement: "They [the Zionists] told England: 'We will guarantee to bring the United States into the war as your ally, to fight with you on your side, if you will promise us Palestine after you win the war.' In other words, they made this deal: 'We will get the United States into this war as your ally. The price you must pay us is Palestine after you have won the war and defeated Germany, Austria-Hungary, and Turkey.'" Freedman goes on to state that even Zionist leaders such as Nahum Sokolow acknowledged that "the feeling against the Jews in Germany is due to the fact that they realized that this great defeat (WWI) was brought about by our (Zionist) intercession and bringing the United States into the war against them." Freedman also acknowledges the [British use of Zionism in furtherance of its own aims](#).

Peering back into history with Freedman, we watch as Freedman paints a vivid scene: "I was 'confidential man' to Henry Morgenthau, Sr., who was chairman of the Finance Committee, and I was liaison between him and Rollo Wells, the treasurer. So I sat in these meetings with President Wilson at the head of the table, and all the others, and I heard them drum into President Wilson's brain the graduated income tax and what has become the Federal Reserve, and also indoctrinate him with the Zionist movement. Justice Brandeis and President Wilson were just as close as the two fingers on this hand, and President Woodrow Wilson was just as incompetent when it came to determining what was going on as a newborn baby. And that's how they got us into World War I, while we all slept."

This background is necessary because those without a grasp of it will be less able to understand and assimilate what I must now relate, which is that the plan to take American into a war with Iran, which is supposed to be a [global war with Islam](#) to precede [one world dictatorship](#), continues apace with increasing warnings from the military, the press and the research community regarding a nuclear or other major attack on

America, perhaps as soon as this August.

Fortunately, due to the heroic efforts of the alternative media, the [London bombings](#) have now been [exposed](#) as another [terrorist exercise gone live by executive New World Order](#). We have now seen two terrorist attacks [masked by what are called drills: 9/11 and 7/7](#). When is the next terrorist attack drill slated for the USA?

This August.

What type of attack does the drill "simulate."

A nuclear attack.

According to [Dr. Stephen Sniegowski](#), writing for the excellent website [War Without End](#), and [elsewhere on the internet](#), "Richard Perle was the big hit of this May's AIPAC conference in Washington with his call for an attack on Iran. The danger of Iran was featured in an AIPAC multimedia show, "Iran's Path to the Bomb." As the Washington Post's Dana Milbank described the multimedia show: "The exhibit, worthy of a theme park, begins with a narrator condemning the International Atomic Energy Agency for being 'unwilling to conclude that Iran is developing nuclear weapons' (it had similar reservations about Iraq) and the Security Council because it 'has yet to take up the issue.' In a succession of rooms, visitors see flashing lights and hear rumbling sounds as Dr. Seuss-like contraptions make yellowcake uranium, reprocess plutonium, and pop out nuclear warheads like so many gallons of hummus for an AIPAC conference."

Worse still, former CIA/DIA agent Philip Giraldi exposes current US nuclear preparations for a response to another 9/11 type attack:

["Philip Giraldi, Deep Background](#)

[The American Conservative](#) August 1, 2005 p. 27

In Washington it is hardly a secret that the same people in and around the administration who brought you Iraq are preparing to do the same for Iran. The Pentagon, acting under instructions from Vice President Dick Cheney's office, has tasked the United States Strategic Command (STRATCOM) with drawing up a contingency plan to be employed in response to another 9/11-type terrorist attack on the United States. The plan includes a large-scale air assault on Iran employing both conventional and tactical nuclear weapons. Within Iran there are more than 450 major strategic targets, including numerous suspected nuclear-weapons-program development sites. Many of the targets are hardened or are deep underground and could not be taken out by conventional weapons, hence the nuclear option. As in the case of Iraq, the response is not conditional on Iran

actually being involved in the act of terrorism directed against the United States. Several senior Air Force officers involved in the planning are reportedly appalled at the implications of what they are doing—that Iran is being set up for an unprovoked nuclear attack—but no one is prepared to damage his career by posing any objections."

It is certainly gratifying to see that American Conservatives like the magazine doing the above reporting are as aware of the current administration's dangerous tendencies as American Liberals. But will Americans from all political persuasions join together soon enough to thwart the danger?

It's up to you.

[Writing in the Washington Post, William Arkin echoes the military nuclear theme with an in depth expose of America's Strategic Command and its new nuclear directive:](#)

"A confluence of events, beginning with the Sept. 11, 2001 attacks and the president's forthright commitment to the idea of preemptive action to prevent future attacks, has set in motion a process that has led to a fundamental change in how the U.S. military might respond to certain possible threats. Understanding how we got to this point, and what it might mean for U.S. policy, is particularly important now -- with the renewed focus last week on Iran's nuclear intentions and on speculation that North Korea is ready to conduct its first test of a nuclear weapon.

Global strike has become one of the core missions for the Omaha-based Strategic Command, or Stratcom. Once, Stratcom oversaw only the nation's nuclear forces; now it has responsibility for overseeing a global strike plan with both conventional and nuclear options. President Bush spelled out the definition of "full-spectrum" global strike in a January 2003 classified directive, describing it as "a capability to deliver rapid, extended range, precision kinetic (nuclear and conventional) and non-kinetic (elements of space and information operations) effects in support of theater and national objectives."

This blurring of the nuclear/conventional line, wittingly or unwittingly, could heighten the risk that the nuclear option will be used. Exhibit A may be the Stratcom contingency plan for dealing with "imminent" threats from countries such as North Korea or Iran, formally known as CONPLAN 8022-02."

The Financial Times reports on covert operations against Iran in this illuminating piece:

"Books Add to Rightwing Campaign to Demonise Iran

Published: July 8 2005

Two new books in the US - Countdown to Terror and Countdown to Crisis - accuse an incompetent Central Intelligence Agency of failing to recognise the potentially catastrophic threat posed by Iran through what it alleges are close ties between Iran

and the fugitive Osama bin Laden and al-Qaeda.

Serialized in the conservative media and popularised on talk-shows, the books have arrived in the midst of a rightwing campaign to demonise Iran - and expose the CIA - at the same time as the Bush administration is exploring ways of funding and backing Iranian opposition groups.

In *Countdown to Terror*, Curt Weldon, a Pennsylvania republican congressman and vice-chairman of the House armed services committee, charges that Iran will carry out the next terror strike on the US, has a bomb that can kill more than 100,000 people, and is giving refuge to Mr bin Laden.

Mr Weldon's information comes from "Ali", said to be a former senior official during the Shah of Iran's rule, whom he first met in Paris in April, last year.

Mr Weldon says he was driven to write his book after the CIA dismissed Ali as a fraud even though, Mr Weldon claims, many of his predictions came true.

Mr Weldon's secondary target is George Tenet, the former CIA boss, and what he calls the old intelligence community elite. Mr Weldon accuses this elite of waging a propaganda war against George W. Bush in the run-up to the 2004 presidential election.

Mr Weldon strongly defends his old friend Porter Goss, who replaced Mr Tenet last year, and his efforts to purge the agency. He concludes that the US would be justified in launching a pre-emptive war against Iran. But since this is not feasible, Mr Weldon argues that the US should give financial support to Iranian groups preparing for regime change.

The ferocity of Mr Weldon's accusations have driven Bill Murray, the former CIA station chief in Paris, to go public with his side of the story - that Ali was a fraudster well known to the agency. The CIA has responded by declassifying a letter to Mr Weldon, in which it says Ali was a fabricator who embellished press reports. "He has provided no information to date worthy of follow-up," it said, adding that it spent hundreds of man hours evaluating his claims.

Mr Murray told the *Financial Times* that he had informed Mr Weldon that Ali was a known fabricator who wanted money. He said Ali was "totally dependent" on Manouchehr Ghorbanifar, an Iranian arms dealer discredited by the CIA for his role in the Iran-Contra scandal of the 1980s.

James Woolsey, a friend of Mr Weldon and former CIA director, praises the book as "a case study of an intelligence failure in the process of happening, with potentially catastrophic consequences for the United States." Mr Goss has not commented on it in public.

The CIA has not commented either on *Countdown To Crisis: the Coming Nuclear Showdown With Iran*, by Kenneth Timmerman, a journalist and author with close ties to exiled Iranian opposition groups. A CIA spokesman said the agency was too busy to read it.

Mr Timmerman, quoting alleged high-level defectors from Iranian intelligence organisations, says Iran plotted the September 11, 2001, attacks on the US together with al-Qaeda, and is also protecting Mr bin Laden.

"Because of the arrogance and wilful blindness of our nation's top intelligence officers, America's leaders were misled about the threat from Iran until it was too late."

The problem for us in the above story is that not only is [Ghorbanifar a known liar](#), but he was the [conduit between Israel, the US and Iran during the Iran-Contra affair](#), and is very close with [Michael Ledeen](#), spearhead of the Nuke Iran gang as you will see below. His collaboration with Italian Intelligence, or SISMI links him to the [Propaganda Due \[P2\]](#) operation in Italy which has terrorized Europe for decades and is now [collaborating with Ledeen and Co. again](#):

["In the 1980s, a number of books and articles fingered Michael Ledeen as a member of Italy's fascist P2 "lodge," a pseudo-Masonic power group founded by former blackshirt and SS liaison officer Licio Gelli. Gelli's fascist cabal infiltrated, and largely controlled, SISMI. According to reports published in the 1980s, Gelli had created an organization within the organization, jocularly labeled "Super SISMI."](#)

But it wasn't just books and articles that fingered Ledeen, in fact, "[Ledeen is identified in the \[Italian\] court documents as an agent of SISMI](#)," and even the Tower Commission set up to investigate the Iran-Contra affair "[concluded that the CIA should permanently terminate its relationship with Ledeen and his associate, Ghorbanifar.](#)"

["His attachment to Israel, reflected in his JINSA connection, may have influenced his pursuit of the hostage deal with Iran \(Israel favored such a transaction\), and his former boss in the Pentagon, Noel Koch, asserts that while Ledeen was in Italy the CIA station chief there took him to be "an agent of influence of a foreign government."](#)

You see, [Ledeen](#) is a self-professed "[Universal Fascist](#)," the title of one of his books:

"Ledeen, as he wrote in his book Machiavelli on Modern Leadership: Why Machiavelli's Iron Rules Are As Timely and Important Today as Five Centuries Ago (New York: St. Martin's Press, 2000), is a believer in "total war" through "creative violence." There is no such thing as peace between nations, he maintains; peace is just an interlude between wars.

Ledeen fits the profile of a "Synarchist," or "Nazi/Communist," as those concepts were discussed in World War II-era documents made available to EIR by military intelligence and other sources during the 1980s (see Jeffrey Steinberg, "Synarchism: The Fascist Roots of the Wolfowitz Cabal," EIR, May 30, 2003). Particularly relevant to this characterization is Ledeen's work with both "Red" and

"Black" terrorists in Italy, and his support, along with Henry Kissinger, of the Propaganda Due (P-2) Freemasonic Lodge of former Nazi collaborator Licio Gelli, which directed the NATO-related "strategy of tension" [and eventual assassination] against former Italian Prime Minister Aldo Moro..."

An...important mentor to Ledeen was Renzo de Felice, an advocate of the Jacobin Revolution in France which led to the emergence of the first modern Fascist, Napoleon Bonaparte. De Felice did not hide his Fascism, as he wrote in *The Illuminati and Revolutionary Mysticism, 1789-1900*: "There is something in common between my Jacobins and a certain kind of Fascism.... Fascism wanted to achieve the transformation of society and the individual ... [toward] a new phase in the history of civilization."

After researching in Italy from 1966 to 1967, where he met scions of the Venetian oligarchy who are "magicians" in cultural warfare, Ledeen wrote: *Universal Fascism* (1972); "Italian Fascism and Youth," *Journal of Contemporary History*, July 1969; "Fascist Social Policy," in *The Use and Abuse of Social Science*, ed, Irving Louis Horowitz; and, among others, *Fascism, An Informal Introduction to Its Theory and Practice*, by Renzo de Felice, which includes an interview with Ledeen.

Ledeen preferred unbridled, Jacobin-style fascism, such as that of Gabrielle D'Annunzio in the early 1900s. In his 1972 *Universal Fascism*, Ledeen criticized Benito Mussolini as being too rigid: "He never had enough confidence in the Italian people to permit them a genuine participation in Fascism."

Are you getting the picture? If this guy is saying there will be a nuclear attack on America, we'd better take it seriously. He's hooked up with the blackest of international criminals.

No expose would be complete without a word from the inestimably patriotic Major Scott Ritter, former UN weapons inspector and war-protester. [His recent warning](#) that war plans against Iran had been set for June was followed up by [this piece on the media's silence](#) and then [this excellent piece on the current covert operations already taking place in preparation for a full-scale attack](#).

But an Iran war would never fly with the American public, already tired of Iraq and the "War on Terror." Or would it? Maybe, just maybe, with the right sort of provocation... And that's where the latest news from Northcom, or the US Northern Command gets nervewracking. [They are planning a nuclear terrorism drill for August of this year](#). Two weeks away. As I noted before, we have now seen [two devastating instances of drills used as covers for real terrorism](#). Is this going to be the third strike, and we're out? Read carefully:

["Exercise to focus on nuclear terror scenario](#)

Posted Jun 29, 2005 at 1:00:PM MDT

FORT MONROE, Va. -- Here's the scenario...A seafaring vessel transporting a 10-kiloton nuclear warhead makes its way into a port off the coast of Charleston, S.C. Terrorists aboard the ship attempt to smuggle the warhead off the ship to detonate it. Is this really a possibility?

Joint Task Force Civil Support (JTF-CS) here is planning its next exercise on the premise that this crisis is indeed plausible.

Sudden Response 05 will take place this August on Fort Monroe and will be carried out as an internal command post exercise. The exercise is intended to train the JTF-CS staff to plan and execute Consequence Management operations in support of Federal Emergency Management Agency Region IV's response to a nuclear detonation.

Some of this year's objectives for SR05 are to refine nuclear incident Concept of Operations, produce a CM Operation Order, refine command post set-up procedures and maintain situational awareness of multiple CM incidents.

The Sudden Response exercise has been held at Quantico, Va., in the past, but has been moved to Fort Monroe to maximize command post training time. The senior leadership felt that it was more important to accomplish training instead of losing up to a day and a half in travel time, said Paul Defluri, J7 Lead Exercise Planner. "This will allow us to still meet our training objectives," he said.

Some external participants may work with JTF-CS during the exercise.

"We're trying to get representatives from FEMA Region IV as well as representatives from South Carolina Emergency Management Division and active duty soldiers from the (Chemical, Biological, Radiological, Nuclear and Explosive) Consequence Management Response Force to play the role of task force units," Defluri said.

"Each time we do one of these internal exercises, we try to make it more robust and try to add in fidelity," Defluri said. "That's what we're trying to do for SR05: create a good scenario and be able to replicate the effects as best we can. That way we can give the command a really good CM exercise."

[Notice the role of FEMA](#), who were also scheduled to be in New York around 9/11, by eerie coincidence, [part of a terrorism drill called "Tripod II."](#)

[These drills are in fact common practise at Northcom, and now include drills for nuclear detonation, major hurricane and nuclear accident all at the same time.](#) Here's another interesting drill, [involving an international force off the coast of the US.](#)

A personal connection was hammered home to me when one of my fellow travelers in the Peace and Justice Community alerted me to the following:

"A friend came by today. His relative is fairly high-level in regional counter-terrorism. My friend says his relative told him they are preparing

for the strong possibility that there will be 7 U.S. cities attacked with small, backpack-held nuclear devices by 'al-Qaida types.' It sounds like the propaganda -- the cover stories for PNAC or whomever these bad guys are -- has begun."

This does not sound good.

[Finally, one of a few other internet authors to posit a similar theory, an individual known only by his handle, "Skunk" or "Son of Liberty," created this speculative website regarding a nuclear false flag attack on America. It provides some compelling ideas worthy of attention. Ignore it at your peril.](#)

And now, read on regarding the original motivations for this public warning, and take heed. [Please contact me with any corroborating evidence, or for any helpful and loving reason.](#)

April 18th, 2005 - Public Advisory

New [information](#) and [threats](#), including [this commercial video](#) (available from the [Iran Freedom Foundation](#) home page) and other [neoconservative rants](#) regarding an "Iranian" nuclear threat have prompted an essential update to this piece regarding **the extensive record of recently arrested Israeli, not Iranian operatives, often around nuclear facilities in America.**

This campaign designed to prepare the American people to blame Iran for a possible upcoming nuclear terrorist attack fits the description of a Mossad false flag operation, especially because of Israel's numerous, even flagrant recent violations of American nuclear security.

Israel's long record of using terrorism and especially "false flag" terrorism - covert military operations designed to pin blame on an enemy - is [extensive and well documented](#), beginning with the bombing of the [Hotel King David by Menachem Begin's Irgun fighters](#), through the [Lavon Affair](#) and recently includes the [bust up of a phony al Qaeda cell](#) that was in reality manufactured by the Mossad.

For those still under the illusion that Israel has always been a US ally, please note the [USS Liberty Incident](#), wherein Israeli fighter planes and torpedo boats nearly sunk an unarmed US intelligence vessel in

international waters, and also the US Army War College's assesment of the Mossad: "Wildcard. Ruthless and cunning. Has capability to target US forces and make it look like a Palestinian/Arab act." - [Washington Times](#) . Even the US army acknowledges that Israel can and does engineer "false flag" attacks.

Jerome Corsi

Here's why they say history repeats itself. America, doesn't this sound a bit too familiar: "As during the run-up to the invasion of Iraq, the [neocons have embarked on another inane search for monarchic exile groups](#) to prop up as future leaders of a "free and democratic" Iran. This effort, according to the [Financial Times](#), is led by a gruesome twosome -- Iran-Contra scumlord, [Michael Ledeen](#), and Swift Boat washup, [Jerome Corsi](#) -- along with [AIPAC](#) and a laundry list of wingers in congress." - [Max Blumenthal](#)

"A prominent backer of the Alliance [for "Democracy" in Iran - forerunner to the Iran Freedom Foundation] is [Jerome Corsi](#), well known for his role in the [Swift Boat Veterans and POWs for Truth campaign against John Kerry](#), the Democratic presidential candidate... The Alliance says it is in partnership with the rightwing Hudson Institute. Alliance members are also inspired by Michael Ledeen of the [American Enterprise Institute](#), an influential neoconservative policy group, who is a veteran campaigner for regime change." - [Financial Times](#)

[The Hudson Institute](#), the ultraconservative, organic food bashing home of neocon all star Meyrav Wurmser, co- author of the famous [Project for a New Pearl Harbor](#), I mean [Project for a New American Century](#) document, [Rebuilding America's Defenses](#) provides insitutional cover for this poorly disguised covert intelligence operation. Hudson Institute features the [Bildberger criminal](#), "Lord" [Conrad Black as one of its trustees](#). Here's what New World Order genius-in-chief Henry Kissinger has to say about the Hudson

Institute:

“Hudson Institute is today one of America's foremost policy research centers, in the forefront of study and debate on important domestic and international policy issues, known and respected around the globe, a leader in innovative thinking and creative solutions to the challenges of the present and the future.” - Henry A. Kissinger

This recent [propaganda effort](#) streaming through wild-eyed right-wing rags like [World Net Daily](#) is well-organized and may perhaps indicate that the "provocation" designed to legitimate the [planned war with Iran](#), is about to occur. Neocon bullhorn World Net Daily blares: "[NUCLEAR WAR-FEAR: Iran nuke commercial hits TV markets. Spot depicting atomic terror attack in NYC to be seen in 20 cities.](#)"

Citizens can afford to waste no time informing the President, the Pentagon, Congress, State Officials, FBI Counter Intelligence and the press that we are aware of the intent of this propaganda campaign and are not fooled.

Recent Israeli and US efforts to publicly distance themselves from war plans for Iran may be part of a campaign to appear peaceful, such that a terrorist attack falsely blamed on Iran with the full force of the international media will look all the more brutal and undeserved.

We have seen [these types of "terrorist attacks" both real and imagined](#) used to legitimate foreign military adventures that are deceptively sold to an unwitting public as if they were in our "National Interest," or "Promote Democracy." No, no, as Major General Smedley Butler put it in 1935: [War is a Racket](#). When was the last time this Administration warned us about mushroom clouds over US cities? Where are those weapons of mass destruction today?

Read on for the details of the Israeli agents arrested near US nuclear facilities or in other suspicious circumstances. All instances documented in mainstream press. External articles rendered in Arial Font.

Israeli nationals, recently arrested all around the country, may be part of a possible false flag attack on the United States, perhaps even involving

nuclear weapons or an attack on nuclear facilities. These attacks may be designed to frame Muslim nations in order to legitimate resource and world domination wars.

Look at the below published news reports and documents.

1. King's Bay Naval Nuclear Facility

The most recent incident was at King's Bay Naval Nuclear Facility. The news reports in that case describe the fact that the dogs were alerted to the scent of explosives and that there was a remote control robot in a suitcase in the van.

Here's one article:

Movers Who Prompt Kings Bay Lockdown To Be Deported
POSTED: 1:44 pm EDT May 25, 2004
<http://www.news4jax.com/news4georgia/3344771/detail.html>

ST. MARYS, Ga. -- Two Israeli men working for a moving-and-storage company who attempted to enter Kings Bay Submarine Base Friday are being held for deportation.

The two entered the Franklin gate about 10:30 a.m. Friday to pick up some items in base housing, base spokesman Ed Buczek said.

Neither was able to present valid work permits to security personnel, and one had an expired passport. Base personnel and bomb-sniffing dogs inspected the van, prompting a lockdown of the base.

St. Marys police closed access to an area one-half mile surrounding the base and called in a bomb squad, Buczek said.

"The military dogs were alerted to a scent in the cab of the truck," Buczek said. "Guards closed access to the base and notified the Georgia Bureau of Investigation, the Federal Bureau of Investigation and the Naval Criminal Investigative Service."

Nothing was found in the van, but both men, Tamir D. Sason, 24 and Daniel Levy, 23, both of Metar, Israel, were turned over to federal immigration officers as undocumented aliens. They are being held for deportation.

Here's another:

Security scare shuts Kings Bay

http://www.jacksonville.com/tu-online/stories/052204/geo_15672724.shtml

Bomb suspected after an Israeli was unable to give credentials for entry.
by LIZ HAMPTON

Times-Union correspondent

ST. MARYS, Ga. -- Kings Bay Naval Submarine Base was locked down for security reasons Friday after two Israelis were detained for questioning.

Base spokesman Ed Buczek said two Israeli men attempted to enter the base about 10:30 a.m. They were hired by a moving-and-storage company to pick up some household goods in base housing, he said....

"The military dogs were alerted to a scent in the cab of the truck," Buczek said. "Guards closed access to the base and notified the Georgia Bureau of Investigation, the Federal Bureau of Investigation and the Naval Criminal Investigative Service."

St. Marys police closed access to an area one-half mile out surrounding the base, and a bomb squad was called in, Buczek said. A briefcase was removed from the vehicle with a remote control robot, but nothing was found in it.

Daniel Hopsicker provides additional details [here](#) and [here](#).

Additional investigative reporting [here at libertypost.org](#). An excerpt:

"Thankfully there was one subject on which the Navy spokesman was prepared to wax eloquent... The bomb-sniffing guard dogs at the base were filled with the right stuff, and possessed a high level of skill & accuracy.

"The military dogs were alerted to a scent in the cab of the truck," a base spokesman had stated. "Guards immediately closed access to the base."

"Do they often test false positives?" we inquired.

Not at all. "The idea that they would pick up a false positive is highly unlikely," sniffed the base spokesman."

[The American Free Press](#) actually contacted the Department of Homeland Security. [Here's what they found out:](#)

"Marc Raimondi, spokesman at the Department of Homeland Security (DHS) in Washington, told AFP that both Sason and Levy will be

deported. Raimondi said ICE had taken custody of the two individuals and checked them out through immigration and known criminal databases. Their only offense, Raimondi said, was that they had worked illegally on visitor visas.

"Perhaps the conspiracy theory has merit," Raimondi said when asked why Israeli agents involved in criminal activities were being deported on visa violations. Raimondi was unable to answer when asked if DHS was concerned about the network of Israeli-owned moving companies in the United States, some with proven ties to Israeli intelligence.

He said the agency welcomes any information that could be helpful."

2. Nuclear Fuel Services Plant, Erwin, Tennessee

Prior to the King's Bay incident, Israeli "movers" including the son of the Likud Party spokesperson Shmuel Dahan were busted in Tennessee near the Nuclear Fuel Services plant in Erwin.

[Here is the AP report:](#)

Two men arrested after high-speed chase in Tennessee

The Associated Press

ERWIN, Tenn. (AP) - Two Israeli men who led the Unicoi County sheriff on a high-speed chase in a rented moving truck were placed under arrest and are being investigated by the FBI, local officials said.

SHMUEL DAHAN and Almaliach Naor, both from Israel, were being held without bond Sunday afternoon at the Unicoi County Jail. The truck, rented from a Ryder office in Mars Hills, N.C., was being held in the county garage pending an FBI investigation, officials said.

Dahan is charged with reckless driving, littering, false identification and evading arrest, while Naor faces charges of false identification and evading arrest, an officer with the Unicoi County Sheriff's Department who would not give his name said Sunday.

Almaliach Naor and Shmuel Dahan
Israeli Operatives in US Custody
Erwin, Tennessee, 5/12/2004

An investigation by the FBI is ongoing and more charges are possible, he said. A woman who answered the phone at the FBI's Knoxville office said there was no one available to answer questions about the arrest.

The incident began late Saturday afternoon when Sheriff Kent Harris noticed a rental truck traveling at a high speed along former U.S. Highway 23, a lightly-traveled highway near the North Carolina state line.

"I was really concerned because the driver would not stop after I flashed my headlights for nearly three miles," Harris said. "He was weaving back and forth and I was wondering what a large (rental truck) was doing on the two-lane highway late Saturday afternoon instead of the faster I-26 Interstate."

Harris said he saw the men throw something from the truck while they were being pursued. Officers scouring the area later found a vial containing an unknown substance along the roadway, he said.

Once the men were apprehended, officers also found a "Learn to Fly" brochure in the truck, leading Harris and others to express concern about security at the Nuclear Fuel Services plant in Erwin.

"I GOT A SICK FEELING WHEN I SAW IT," Harris said.

Dahan also gave authorities a fake Florida driver's license issued in Plantation, Fla., he said, while Naor produced a fake identification card.

Harris subsequently contacted the FBI, the federal Bureau of Tobacco and Firearms and other local authorities to look into the situation.

"We're not overreacting," Harris said. "We have a responsibility to protect the citizens of Unicoi County and that's what I'm going to do at any cost. I'd rather overreact, if that's what you call it, than be sorry later."

More details on that investigation, with notes on other incidents involving Israeli "movers" can again be found [at Daniel Hopsicker's website](#):

"...the 'learn to fly in Florida' business card is that of Nissan Giat, also an Israeli military veteran, he said, as well as a free-lance flight instructor in the Miami area, working out of the Fort Lauderdale Executive Airport."

3. Plymouth, Pennsylvania with a video of the Sears Tower:

[2 found with video of Sears Tower](#)

MICHELLE MOWAD, Special to The Mercury October 17, 2001
PLYMOUTH (PA) -- Two men whom police described as Middle Eastern were detained in the township by federal immigration authorities after being found with detailed video footage of the Sears Tower in Chicago.

Plymouth Police encountered the men after an officer responded to Pizzeria Uno on West Ridge Pike at 2:40 p.m. Thursday for a report of illegal dumping.

A manager there advised the police officer that a tractor-trailer was observed backed up to the dumpster at the rear of the restaurant. The manager noticed a freshly dumped pile of furniture adjacent to the Dumpster, according to police. The manager confronted the vehicle's operator, a Middle Eastern man, police said.

The man, who later identified himself as Moshe Elmakias, 30, denied that he did anything and fled the scene, heading west on West Ridge Pike... The manager was able to provide township police with the Florida registration number of the tractor-trailer and said that a sign posted on the side of the vehicle read "Moving Systems Incorporated" police said.

The area was searched by township police, and the vehicle was spotted parked on the curb in front of John Kennedy Ford on Ridge Pike. An officer proceeded to make contact with the occupants of the truck by knocking on the cab, according to reports.

A Middle Eastern man, later identified as Ron Katar, 23, exited the sleeper area of the cab and said that the operator was across the street as he pointed toward the Don Rosen Porsche dealer, reports said.

Elmakias and a white female, Ayelet Reisler, 23, were approaching the vehicle from the dealership, but the female then began walking in a different direction, acting as if she were not with Elmakias, according to reports. Reisler was detained and checked for identification. She had a German passport in her name and medication in a different name, police said. Plymouth Police Sgt. Thomas Longo was notified and responded to the incident.

Elmakias allegedly admitted to being behind Pizzeria Uno, although he said that he did not dump furniture, he was only turning around. Elmakias said that his destination was New York and that he was also coming from New York. He said he was in Plymouth because he was supposed to make a pickup in the morning and pointed toward the Storage USA facility on Belvoir Road , police said. Elmakias could not, however, provide a name or telephone number of the customer.

Township police dispatched a request for a Motor Carrier Program Inspector. Officer Gerald Schwartz of the Whitpain Police Department responded. Schwartz discovered through his investigation that the operator's log had been falsified and put the truck out of service due to violations. Inspection of the tractor-trailer's contents revealed a load three-quarters full containing household items, including furniture and boxes. Among the items in the truck was a Sony video camera. Plymouth Police Officer David McCann reviewed the tape found inside the camera. The tape had video footage of Chicago with zoomed-in shots of the Sears Tower, according to police.

The Federal Bureau of Investigation was notified of the incident and all three subjects were transported to the Plymouth Police station. FBI Agents James Sweeney and Richard Tofani arrived at the station and proceeded to investigate both the subjects and their belongings with the assistance of Immigration and Naturalization Services. All evidence collected by Plymouth and Whitpain officers was transferred to federal facilities. Special Agent Linda Vizi, a spokeswoman for the Philadelphia FBI, could not be contacted for comment on further investigations.

4. Whidbey Island Naval Station

<http://www.libertypost.org/cgi-bin/readart.cgi?ArtNum=49488>

On May 7th, 2002, two Israeli "movers" were arrested for speeding after midnight near the Whidbey Island Naval Air Station and Oak Harbor, Washington. The Jerusalem Post gives the cover story:

FBI clears Israelis suspected of carrying explosives

Jerusalem Post; 5/15/2002; MELISSA RADLER

Wednesday, May 15, 2002 -- NEW YORK - The two Israelis arrested last week in Washington State on charges of having traces of explosives in their rental truck were cleared by the Federal Bureau of Investigation yesterday. The FBI said further tests found no trace of explosives.

Officials attributed the false positive to the presence of diesel fuel, which was used to fill up the van.

News of the incident spread like wildfire on Fox News and TV stations in Israel.

The Israelis' saga began on May 8 when they were pulled over in Oak Harbor, Washington, and a trace amount of TNT and the plastic explosive RDX was apparently found on the gear shift and steering wheel of their

vehicle and on one of the Israeli's clothes, Fox News reported yesterday.

According to an FBI spokesman in Seattle, Ray Lauer, local police who pulled the Israelis over for speeding became suspicious after one of the men was found to be in possession of an altered passport, and the other was unable to produce any identification other than an Israeli driver's license. Suspicions were heightened since the Israelis were close to Whidbey Island Naval Station, and the driver insisted they were moving furniture - a claim that did not seem to mesh with the late hour.

Military personnel who were called in from Whidbey Island to conduct tests on the vehicle dispatched sniffer dogs and ionizers that indicated the presence of explosives in the car. The men denied any connection to explosive material and were hauled off to INS custody for violating immigration laws.

"They did not have explosives on them," Lauer said. "The tests that they conducted appear to be false positives."

The Israelis are currently being held in INS custody on immigration violations, including entering the country illegally and working without proper documentation, according to Garrison Courtney, a spokesman in Seattle's INS office.

"The two gentlemen that were stopped were held on immigration violations. They are in the custody of the INS. We are only charging them with immigration violations," Courtney said.

Since September 11, dozens of Israelis have been detained by the INS and deported to Israel for violating a variety of immigration laws, including overstaying their visa and working without a permit.

The Israeli consulate in San Francisco, which has jurisdiction over Washington State, did not return calls seeking comment.

[The Palestine Chronicle gives the detail:](#)

"...The report by Carl Cameron goes into detail about the event and the facts as they unfolded after the stop by the local Oak Harbor Police Department.

The report states that the police stopped a Budget Rental truck for speeding after midnight just outside the entrance to the NAS facility and close enough that the military left the base and participated in the investigation on a public Oak Harbor street and that Naval Intelligence is involved in the subsequent investigation. The question that comes to

mind is just why and under what authority, would the MP's leave a military facility to assist the local police in a routine stop for speeding on a city street? Why? Why would Naval Intelligence get involved in the investigation, given the wording of the final report as it was provided to me this afternoon, by those close to the investigation? If there was nothing to be made of any of it, why are they interested?

According to the report of Carl Cameron and confirmed to me by investigating authorities, a bomb-sniffing dog was called to the scene. For a speeding violation? Now here comes the sketchy parts.

The dog did - as reported by several sources - detect the presence of explosives in the cab of the truck and on one of the men. At that point High-Tech detection equipment was brought in and it was determined that traces of TNT and RDX (plastic explosives) were found. What aroused the suspicions to bring in a bomb-sniffing dog in the first place? Just because a truck was speeding? It confirmed the presence of explosives as did the high-tech stuff. The 'official' spin that I got today from those involved with the investigation was that the dog did not react at all to anything. There was nothing and a completely benign reaction. It was confirmed that the high-tech equipment was used, but no mention of those results were offered.

Upon further questioning it was then stated that the dog did in fact have a reaction, but that the investigators (those reportedly involved were all of the intelligence branches/authorities - FBI, ATF, Naval Intelligence, Counter Terrorism and some unidentified participants) did a 'swab' test of the suspected contaminated areas and it was determined that the traces of explosives were just residue of diesel fuel. Boy, that is a stretch. First the dog had a reaction, then it didn't, then it did, but what it detected was plain old diesel fuel oil. If that were the case, the dog would have had a reaction just passing by the vehicles fuel tank which was full of diesel. This particular dog would be of no value as a sniffing detector if it would react to the presence of diesel fuel. Almost all of the vehicles it would be required to respond to are diesel powered type vehicles. IT would react positively every time it scented diesel. Then it was explained to me that the composition of TNT is similar and easily confused with diesel fuel.

Here's the rub. Just the fact that TNT and RDX were mentioned as being present is extremely worrisome. These two compounds together are used strictly in military explosive configurations. Projectile boosters, landmines and 'special' clandestine type explosive arrangements. Why was a dog brought to the scene? Why such a determined effort to determine the presence of explosives and who made the TNT/RDX connection, that it was present and did they all ready suspect, or even know that these

explosives and these two detainees had these type explosives and they were being pursued? Who concocted the story? There is absolutely no other way to spin the events, they must have happened and they are now trying to cover tracks, or public awareness for some unknown reason.

It was easy to dismiss the reaction of the dog, it can't argue back. But their explanation that the dog confused military explosives with diesel fuel is absurd. What gave them away is that the way to test for the presence of TNT/RDX is through swabbing, or a gauze wipe test with acetone. It will determine the presence of this extremely powerful explosive compound, but cannot determine whether diesel fuel is present. Why was the dog brought in and then backed up with high-tech detection equipment and then gauze wipe tests performed if it was just diesel fuel? Why was the military off base in the middle of a routine speeding stop, already being handled by the Oak Harbor Police and who called them, they certainly didn't? Why was the truck speeding away from the Naval Air Station and why was Naval Intelligence involved? Pursuit? Had they been involved in a theft on base? What exactly was going on?

I asked about the moving furniture story and was told that the investigators claimed that they followed up on this angle and said that they did talk to an elderly lady at an elderly care housing facility that claims that she had furniture delivered in the middle of the night by some guys whose description fit those of the two stopped for speeding, but there again is another confusing explanation. Supposedly this lady was angry because the two tried to extort money from her for the moving of her furniture, but she angrily refused and the two just dumped her furniture outside on the ground. Just how did she manage to get it all inside and so quickly in the middle of the night? Or is it all a ruse?

The information I got was provided by the Oak Harbor Police Department and they were highly skeptical of the explanations and versions they were instructed to give to anyone that asked. Apparently the two arrested individuals - both of whom were Israeli nationals, one here illegally and the other on an expired and altered visa - were remanded to the custody of the INS and disposition is unknown at this time. However, the Oak Harbor Police informed me that the only charges against these two were probably going to be minor.

Calls to the Border Patrol/INS, ATF, FBI and others have gone unreturned. I tried to contact Naval authorities, but they claim they have absolutely no record of the incident and referred me to the Naval Public Affairs Office...

5. Cloudcroft, New Mexico

Excellent work regarding the Cloudcroft and other Israeli arrests can be found in the article, [Mossad and Moving Companies: Masterminds of Global Terrorism? With Commentary by Laura Knight-Jadczyk](#)

Here's the news story:

Cloudcroft chief stops Israelis with suspicious cargo

By Michael Shinabery

Staff Writer, Alamogordo Daily News

CLOUDCROFT — That they were speeding through the school zone first got his attention.

That they had Israeli driver's licenses and expired passports made him suspicious.

Cloudcroft Police Chief Gene Green stopped the 2-ton van on Thursday, for speeding. Initially, Green thought the truck was commercial because of exterior markings. But when he found it was out of Chicago, he asked for documentation such as logs books and manifests.

"They said this is a U-Haul truck and handed me a rental agreement (for) in-town delivery only in Illinois, (which) had expired two days before," Green said.

He called for backup, and Otero County Sheriff's Deputy Billy Anders, who patrols the Sacramento Mountains, arrived, along with Capt. Norbert Sanchez and Det. Eddie Medrano.

"We got them out and started digging a little deeper," Green said, "got permission to search the truck. They claimed they were hauling furniture from Austin to Chicago."

When officers advised the men they were not exactly en route from one town to another, Green said the two men claimed they were Deming bound.

"But they couldn't give us an address in Deming they were going to," he said. "Once we got into the truck, they had some junk furniture I wouldn't have given to Goodwill."

Also inside the vehicle were, Green said, "50 boxes" they claimed was a "private" delivery, but the men insisted they had no "idea what was in them."

At that point, the officers called for drug-sniffing and bomb-sniffing dogs. The men were turned over to the Immigration and Naturalization Service, and U-Haul recovered the truck. Contents of the boxes remain unknown, pending investigation.

6. "The Midwest"

Right after September 11th, a group of Israeli operatives carrying boxcutters and "other equipment" were detained and released in "the Midwest." Here's the story:

Nuclear Plants Tighten Security

FBI seeking 6 men seen in Midwest

By Martin Merzer, Curtis Morgan and Lenny Savino
The Miami Herald
October 3, 2001

WASHINGTON -- As the nation stands on high alert, the FBI is searching for six men stopped by police in the Midwest last weekend but released -- even though they possessed photos and descriptions of a nuclear power plant in Florida and the Trans-Alaska pipeline, a senior law enforcement official said Tuesday.

The Federal Aviation Administration imposed new flight restrictions around nuclear plants nationwide Tuesday, and the Nuclear Regulatory Commission advised the nation's 103 nuclear plants late Monday to fortify security. On Tuesday, agency spokesmen said the FAA's flight restrictions and the Nuclear Regulatory Commission's security recommendations were based on Ashcroft's general alert rather than a specific threat. Ashcroft warned that Americans could be struck by another terrorist attack this week.

The incident in the Midwest apparently contributed to the new warning. The six men stopped by police were traveling in groups of three in two white sedans, said a senior law enforcement official, who requested anonymity.

SUSPICIOUS MATERIAL

In addition to the photographs and other suspicious material, they carried "box cutters and other equipment," the official said. They appeared to be from the Middle East and held Israeli passports. They were let go after the Immigration and Naturalization Service determined that the passports were valid and that the men had entered the United States legally, the

official said.

The FBI declined to comment. An INS spokesman called the report unfounded. "We have absolutely no information at this point in time to substantiate that story," said the agency's Russ Bergeron. It could not be learned in what state the six men were stopped or how they aroused suspicion. It was not known whether their true identities matched those on the passports, or why the FBI was not releasing their names or descriptions.

Investigators think the men almost certainly have changed cars by now and have fled to Canada or elsewhere. Ashcroft and FBI Director Robert Mueller were "furious" that the INS allowed the men to be released without consulting the FBI, the official said. Ashcroft and Mueller appeared Monday evening at a news conference to announce that the government had "credible" but vague information that another wave of terrorist attacks could strike Americans within a week.

ON ALERT

Spokeswoman Rachel Scott said FPL's plants remained at the highest level of alert. "We are in very close communication with all levels of law enforcement, including the FBI, to ensure we have the security measures in place to protect the plants," she said. Also Tuesday, the FAA restricted all flights below 18,000 feet and within 10 miles of 86 "sensitive nuclear sites", the agency said. Exceptions can be made for law enforcement, medical and firefighting flights. The 800-mile-long Trans-Alaska Pipeline runs from Prudhoe Bay on the Arctic Ocean to Valdez on the Pacific.

7. New York City, 9/11

[A huge amount has been written about "The Dancing Israelis,"](#) caught, arrested and jailed for dancing and photographing themselves with the World Trade Center burning in the background. It was later determined that at least two of them were Mossad operatives again connected to a moving company, Urban Moving Systems. Something is clearly wrong here. Michael Rivero's whatreallyhappened.com website does a good job of covering this scandal.

[Dominic Suter](#), the head of the moving company to which the Mossad agents were attached ended up on an [FBI terrorist watch list distributed to the Italian banking authorities.](#)

8. The DEA Report

Israeli "art students" operating a spy-ring in Florida and around the country are documented in [this DEA/FBI report](#). The spy ring maintained residences close enough to the purported 9/11 hijackers so that [official sounding stories](#) now parrot the official line that these Mossad operatives were watching the 9/11 hijackers with the cooperation of the US government. [This German Intelligence Report](#) goes much farther, stating that in fact they were the **operators** of the "al Qaeda" cell in America:

"The role of the Israeli Mossad in the terrorist attacks

Note: The following two sections are considered to be extremely sensitive due to the special relationship between the Federal Republic [of Germany] and its Jewish citizens as well as the State of Israel. This material is compiled from German and American sources.

During the term of President George HW Bush, the government of Israel made an official, but very secret, request to the American president. This request was to permit agents of the Mossad, Israeli Foreign Intelligence, to enter the United States and conduct surveillance operations against various Arab groups residing in that country.

The stated purpose of this surveillance was to permit Israeli early warning of terrorist plots against their country. Permission for this surveillance was granted with the caveat that the Mossad would have a liaison with the FBI and report any and all finding to that agency.

However, these conditions were not observed. The Mossad not only did not inform the FBI of any of its findings, it is known to have engaged in commerce with several groups of Israeli criminals of Russian backgrounds. These groups were engaged in extensive criminal activities inside the United States, to include the smuggling of the Ecstasy drug. Mossad agents were able to subvert American criminal investigations through their knowledge of American telephone surveillance of such groups.

It is very evident from surveillance conducted against Mossad agents in the Federal Republic as well as interceptions of Israeli diplomatic communication from the Federal Republic to Tel Aviv, that the Mossad has successfully penetrated various extremist Arab groups in both the Federal Republic and the United States.

These investigations disclosed in late May of 2001 that an attack was to be made against certain specified targets in the American cities of Washington and New York. But it was apparent that the Mossad was not only fully aware of these attacks well in advance but actually, through their own agents inside these Arab groups, assisted in the planning and the eventual execution of the attacks.

That the Israeli government was fully aware of these attacks is absolutely certain and proven. Diplomatic traffic between the Israeli Embassy in the Federal Republic and the Israeli Foreign Office made it very clear that Minister President Sharon was fully aware of this pending attack and urgently wished that no attempt was made to prevent the attacks.

Although the Israeli officials were instructed to warn the American intelligence community that some kind of an attack might be possible, at no time were the specific dates and targets (known at that time to Israeli officials) to be given to the Americans.

The rationale for this attitude was expressed in a conversation on August 1, 2001, between the Israeli Military Attaché in the Federal Republic to a member of the Israeli General Staff. There it was stated that Israel believed an attack on the continental United States would so inflame American public opinion that they would permit Israel to "cleanse" their state of "Arab terrorists and those who support such terrorists". This "cleansing" was explained as the expulsion of all Arabs, and even Christian groups, from the Palestine area.

American intelligence officials have repeatedly expressed great concern in meeting with our people that the Israeli government, through a company called Amdocs, was able to conduct surveillance of all telephone communications within the United States. It was categorically stated that this Israeli-based firm was given the American contract with 25 of the largest American telephone companies. This contract was granted over the objections and concerns of the American intelligence community.

The official reason given for this extraordinary arrangement that permitted Israeli agencies to observe all highly confidential investigative telephone calls was that the United States has a "special relationship" with the State

of Israel and they had requested this."

This information is completely credible because [Israel is famous for impersonating or manipulating Arab criminals into terrorist activities such that they can legitimate their genocidal land grab in Palestine.](#)

["Other allegations involved Israelis claiming to be art students who had backgrounds in signal interception and ordnance. " - Forward Magazine](#)

[Ordnance? Isn't that bombs? Signal Interception. Isn't that spying?](#)

Here's [a synopsis of the DEA Report by John Sugg of Creative Loafing](#), one of the people involved in breaking the story:

A major international espionage saga is unfolding across the United States, with some of its roots right here in the Atlanta area. It's been pretty hush-hush so far, largely because the implications could be a major embarrassment for the government.

The spy story is even more touchy because it isn't Saddam, Fidel, Osama or even what passes nowadays for the KGB spying on America -- but our "friend" in the war against "evil," Israel.

The basis of the spy allegations is a 60-page document -- a compilation of field reports by Drug Enforcement Administration agents and other U.S. law enforcement officials.

Creative Loafing last week obtained a copy of the report from intelligence sources with long-term contacts among both Israeli and American agencies. The government has attempted to deflect attention from earlier leaks about the spy scandal. However, while declining to confirm or deny the authenticity of the document, a spokesman for the DEA, William Glaspy, did acknowledge that the agency had received many reports of the nature described in the 60 pages.

A source familiar with the creation of the document has told CL that the 60-page memo was a draft intended as the base for a 250-page report. The larger report has not been produced because of the volatile nature of suggesting that Israel spies on America's deepest secrets.

Suspicious Activities Involving Israeli Art Students at DEA Facilities

Background:

In January, 2001, the Drug Enforcement Administration (DEA), Office of Security Programs (IS), began to receive reports of Israeli art students attempting to penetrate several DEA Field Offices in the continental United States. Additionally, there have been reports of Israeli art students visiting the homes of numerous DEA employees. These incidents have occurred since at least the beginning of 2000, and have continued to the present. The number of reported incidents increased in November/December 2000, and has continued to date. These incidents have involved several other law enforcement and Department of Defense agencies, with contacts made at other agencies' facilities and the residences of their employees. Geographically, these incidents are very widespread, ranging from California to Florida. The majority of the incidents have occurred in the southern half of the continental U.S. with the most activity reported in the state of Florida. Since April 2001, the number of reported incidents has declined, however, the geographic spread of the incidents has increased to Wisconsin, Oklahoma, and Los Angeles.

Another DEA spokesperson, Rogene Waite, told Associated Press a draft document had been compiled and forwarded to other agencies.

The validity of the scenarios described in the document is attested to in at least one official mention. The Office of the National Counterintelligence Executive, in a March 2001 summary, reported on "suspicious visitors to federal facilities" and noted the type of "aggressive" activity recounted in the document obtained by the Planet.

The nation's most prominent Jewish newspaper, the New York-based Forward, also has confirmed portions of the vast spying network -- although stating that the Israelis were monitoring Arabs in the United States, not trying to access U.S. secrets. Referring to the arrest of five Israeli employees of a New Jersey moving company who were arrested and held for two months after the Sept. 11 attack, Forward on March 15 stated: "According to one former high-ranking American intelligence official, who asked not to be named, the FBI came to the conclusion at the end of its investigation that the five Israelis ... were conducting a Mossad surveillance mission and that their employer, Urban Moving Systems of Weehawken, N.J., served as a front."

Forward also reported that a counterintelligence probe concluded two of the men were operatives of Mossad, Israel's spy service.

Reports of the spying were first made public in December broadcasts by Fox News reporter Carl Cameron. It isn't clear whether he had the 60-page document or was only told its contents. A French online news service has obtained the report, and Le Monde in Paris has advanced the story. However, in the United States, the media ignored the original Fox broadcast, and only a handful of publications. The Atlanta Journal-Constitution hasn't reported the story although another Cox-owned paper, The Palm Beach Post has.

The absence of reporting hasn't gone unnoticed. The authoritative British intelligence and military analysis service, Jane's Information Group, on March 13 chided: "It is rather strange that the U.S. media ... seem to be ignoring what may well prove to be the most explosive story since the 11 September attack, the alleged breakup of a major Israeli espionage operation in the United States which aimed to infiltrate both the Justice and Defense departments and which may also have been tracking al-Qaida terrorists before the aircraft hijackings took place."

In flat language and sometimes excruciating bureaucratic detail, the document relates scores of encounters between federal agents and Israelis describing themselves as art students. The implication is that the

seemingly innocuous cover was used to gain access to sensitive U.S. offices and military installations. For example, Paragraph 82 of the document states that MacDill Air Force Base intelligence officers were warned in March 2001 of the art students' efforts. A month later, a special alert was issued about a "possible intelligence collection effort" at Tinker Air Force Base in Oklahoma City. Among other activities, the base houses AWACS surveillance planes and repairs B-1 bombers.

The author of the document is not identified. However, many DEA and other law enforcement agents are named. CL has contacted some of the named agents, and three federal employees have confirmed the incidents described in the report. None disputed the authenticity of the report. One senior DEA official, when read paragraphs that mentioned him, said: "Absolutely, that's my report," adding, however, that he didn't think the incidents were sufficient to prove an ongoing spy operation. All of the federal employees said they could not be quoted by name.

The specific incidents are richly chronicled, down to names, drivers' license numbers, addresses and phone numbers of the Israelis.

Perhaps most intriguing, the Israelis' military and intelligence specialties are listed: "special forces," "intelligence officer," "demolition/explosive ordnance specialist," "bodyguard to head of Israeli army," "electronic intercept operator" -- even "son of a two-star (Israeli) army general."

"The activities of these Israeli art students raised the suspicion of (the DEA's Office of Security Programs) and other field offices when attempts were made to circumvent the access control systems at DEA offices, and when these individuals began to solicit their paintings at the homes of DEA employees," the document states. "The nature of the individuals' conduct, combined with intelligence information and historical information regarding past incidents (involving Israelis leads the DEA) to believe the incidents may well be an organized intelligence gathering activity."

The document also links the Israelis to possible drug investigations. The report states: "DEA Orlando has developed the first drug nexus to this group. Telephone numbers obtained from an Israeli Art Student encountered at the Orlando (district office) have been linked to several ongoing DEA MDMA (Ecstasy) investigations in Florida, California, Texas, and New York."

Much of the Israeli activity, according to the report, centered on Florida. In addition to attempting to gain access to government installations, the document states that the Israelis approached many intelligence agents, prosecutors and federal marshals at their homes -- including one incident

on Davis Islands.

In researching this story, the CL has learned of other encounters not included in the 60-page report. For example, a member of Congress from Georgia recounted to CL of being targeted by the art students on two occasions. A Tampa state court judge was also approached. Neither the member of Congress nor the judge wanted to be named.

In an era where CNN CEO Walter Issacson says it would be "perverse" to televise Afghan babies killed by U.S. bombs, it's not surprising some stories go unnoticed by a press that embraces "patriotism" by ignoring sacred cows.

One such sacred cow is what's happening in Israel and Palestine. Reporters know that to criticize Israel -- to point out, for example, that wanton killing of innocents is equally devilish, whether committed by Ariel Sharon's soldiers flying U.S.-made helicopters, or by a Hamas suicide bomber who pushes the button -- is to risk being called an anti-Semite. It's a tired canard meant to bludgeon debate into silence, but it's often effective.

Even with that background, however, it's a little hard to understand the media's avoidance of the spy story. In 1999, word began spreading among intelligence agencies about bands of Israeli "students" doing very strange things, such as popping up around federal buildings and military establishments marketing artwork.

According to CL intelligence sources, low-level alerts began being flashed around to offices of the FBI, DEA, federal prosecutors and others. By March 23, 2001, counterintelligence officials had issued a bulletin to be on the watch for Israelis masquerading as "art students." The alert stated that there was an "ongoing 'security threat' in the form of individuals who are purportedly 'Israeli National Art Students' that are targeting government offices selling 'artwork.'"

At the same time, American intelligence services were increasingly worried by the dominance of many highly sensitive areas of telecommunications by Israeli companies. Comverse Infosys (now called Verint) provides U.S. lawmen with computer equipment for wiretapping. Speculation is that "catch gates" in the system allowed listeners to be listened to. Software made by another Israeli outfit, Amdocs, provided extensive records of virtually all calls placed by the 25 largest U.S. telephone companies. The relationship of those companies to the detained Israelis is detailed in the 60-page document.

The DEA's intense interest in the case stems from its 1997 purchase of

\$25-million in interception equipment from Israeli companies, according to a March 14 report by Intelligence Online, a French Web-based service that first revealed the existence of the 60-page document.

"In assigning so many resources to the inquiry (all DEA offices were asked to contribute)," Intelligence Online stated. "The agency was clearly worried that its own systems might have been compromised."

Often the Israeli "students" sold their artwork on street locations near federal buildings. In Tampa on March 1, 2001, a DEA agent heard a knock on his office door. According to the government report: "At the door was a young female who immediately identified herself as an Israeli art student who had beautiful art to sell." Knowing about the security alert, the agent began questioning the "student." After several contradictory statements, the agent concluded "her responses were evasive at best."

Elsewhere, the document notes that the students were "persistent" in trying to gain access to the homes of law enforcement personnel.

On other occasions, the "students" showed up at homes of intelligence agents, judges and other government employees. The report describes a December 2000 incident when a man and a woman knocked on the door of an Atlanta DEA agent. "Both subjects claimed to be Israeli art students," the document states. "The Special Agent examined some of the artwork, but became suspicious when the students would not provide him with a contact telephone number.... Subsequently, the Special Agent saw some of the exact same artwork for sale at [a] kiosk in the Mall of Georgia."

Many of the apparent operatives had set up shop at addresses only stones' throws from Arabs in San Diego, Little Rock, Irving, Texas, and in South Florida. The Planet also has obtained a watch list of mostly Arabs under scrutiny by the U.S. government. The addresses of many correspond to the specific areas where the Israelis established bases.

For example, an address for the Sept. 11 hijacking leader, Mohammad Atta, is 3389 Sheridan St. in Hollywood, Fla., only a few blocks and a few hundred feet from the address of some of the Israelis, at 4220 Sheridan.

A dozen Israelis, including the alleged surveillance leader, had been based in Hollywood, Fla., between January and June last year -- quite possibly watching Arabs living nearby who are suspected of providing logistical support to Osama bin Laden's network. Especially in Florida, where 10 of the 19 Sept. 11 terrorists lived, the revelations about the Israeli activities bolster speculation, reported by a Fox news reporter, that the students-cum-spies might have gained advance knowledge of

aspects of the Sept. 11 terrorists -- and not passed on that critical intelligence to the United States. CL sources with Israeli connections suggest that the information might have been relayed to U.S. agencies, but might have been ignored or overlooked.

Despite the highly suspect behavior of the Israelis, the media hadn't picked up on the story.

Then came Sept. 11. While America was mesmerized by the "War on Terrorism," the media went out to a four-martini lunch when it came to skeptical reporting.

With a few commendable exceptions. One of those is Carl Cameron, a gutsy reporter for Fox News. On Dec. 12, Cameron broke the blockbuster spy story. He said at the time: "Since Sept. 11, more than 60 Israelis have been arrested or detained, either under the new PATRIOT anti-terrorism law, or for immigration violations. A handful of active Israeli military were among those detained, according to investigators, who say some of the detainees also failed polygraph questions when asked about alleged surveillance activities against and in the United States."

Fox also reported the Israeli "students" "targeted" U.S. military bases -- which is bolstered by the report obtained by the CL.

In the rest of the world -- Europe, Arab countries and Israel, especially -- the story made headlines. Even the official Chinese news agency perked up. Not in our well-defended (against disturbing news) homeland, however.

Cameron, in an interview, said he doesn't believe the conspiracy theories about why the story was ignored here. An honest scribe, he points to a shortcoming in his own work -- one hammered on by Israeli critics at the time -- conceding "there were no (on the record) interviews. I didn't tell other reporters where to find the documents. They couldn't do instant journalism."

Others at Fox confirm there was intense pressure on the network by pro-Israeli lobbying groups, such as the Anti-Defamation League and the misnamed Committee for Accuracy in Middle East Reporting (CAMERA).

"These charges are arrant nonsense unworthy of the usually reliable Fox News," CAMERA huffed in a Dec. 12 release.

Cameron reported Dec. 13 that federal agents were afraid to criticize Israel. "Investigators within the DEA, INS and FBI have all told Fox News that to pursue or even suggest Israeli spying ... is considered career

suicide."

Cameron told me in similar language that's what journalists also can face. And, what's clear is that Fox quickly removed the story from its Web site. (It was reposted this month by Fox after other media began showing interest in the story.)

After Cameron's initial reports, the story pretty much evaporated in the United States before Christmas. Then, all hell broke loose in the last few weeks. Intelligence Online in France obtained the same 60-page June 2001 federal report that CL has. The French Web site reported that 120 Israelis had by now been detained or deported by U.S. authorities.

Let's repeat that: 120 potential spies. This isn't worth press curiosity?

Few papers have given the story significant space. Many, like the AJC, haven't uttered a peep.

Some of what has seeped out is disturbing. The Oklahoman, prompted by the French articles, reported last week that 10 months ago four Israelis peddling artwork (but carrying military IDs) were detained near sensitive Tinker Air Force Base in Oklahoma. Le Monde in Paris recounted that six intercepted "students" had cell phones purchased by an Israeli vice consul in the United States. Sources told me that many of the phones had a walkie-talkie feature that was virtually impossible to intercept.

Bush administration shills were quick to try to spin the story -- perhaps to minimize damage should it turn out the government did have information in advance about the people or activities that led to the Sept. 11 attack. A Justice Department spokesperson, Susan Dryden, called the spy report an "urban myth," and other federal flacks trumpeted that no Israeli had been charged with or deported for spying. Of course, in the Great Game, "friendly" spies are seldom embarrassed by being called by their true colors. The Israelis who have been deported have been given the boot because of visa expirations and other minor violations.

The Washington Post, which apparently doesn't have the 60-page document, nonetheless reported March 6 that unnamed law enforcement officials had told the paper that a "disgruntled" DEA agent had compiled the report after other federal agencies didn't react to the Israelis' suspicious behavior. The Post, however, also quoted a DEA spokesman who acknowledged that the large number of incident reports had been combined into a draft memo. As with CL's inquiry, the DEA spokesman wouldn't confirm for the Post whether the memo was the 60-page document.

Predictably, Israeli Embassy spokesman Mark Reguev derided the Intelligence Online report as "nonsense."

And, pro-Israeli apologists such as anti-Arab ideologue Daniel Pipes quickly took the field with strident polemics. Pipes, who makes no claim of having seen the 60-page document, nonetheless claimed in a March 11 column that the story was a "dangerous falsehood" and that "U.S. journalists found not a shred of evidence to support" it.

The fact that reporters were beginning to piece together real shreds was blithely ignored by Pipes.

Israel in the past has belligerently denied wrongdoing until long after the truth was obvious. Israel claimed Jonathan Pollard -- a super spy who did horrendous, deadly damage to the United States until arrested in 1985 - wasn't an agent. And, Israel has stubbornly contended its 1967 attack on the USS Liberty, in which 35 American sailors were slaughtered, was an accident -- a lie exposed in recent reports including one last fall on the History Channel. A recent authoritative book, *Body of Secrets*, by James Bamford, concludes that National Security Agency officials "were virtually unanimous in their belief that the attack was deliberate."

With the purported art students, it's likely that denial will reach screeching levels. The Bush administration would find it difficult to explain why it either ignored or discounted such a large espionage operation."

[Here's the full DEA report with supporting documents.](#)

[The four part Fox News TV series that got pulled is here.](#)

Recently, [the National Enquirer ran a story](#) that "MI5 and Mossad are alleging that al Qaeda has planted weapons around the USA." Moshe Cohen, a non-Zionist Jew from New York [reveals the strategy behind that poor attempt at population conditioning.](#) The Mossad has a history of planting misleading rumors in the press prior to their attacks. Documentation for that claim appears in Mossad whistleblower Victor Ostrovsky's books, [By Way of Deception](#) and [The Other Side of Deception.](#) The Mossad is much more involved than distributing rumors. [Check out this operation](#) in which Ostrovsky documents how the Mossad actually engineered false intelligence that resulted in the bombing of Libya. Notice the similarity to the [Office of Special Plans that engineered the false intelligence on Iraq.](#) Ostrovsky documented this pattern and predicted the destruction of Saddam back in the eighties and nineties:

"Ephraim had spelled it all out for me and confirmed some of the

information I'd already known. He then went on. "After the bombing of Libya, our friend Qadhafi is sure to stay out of the picture for some time. Iraq and Saddam Hussein are the next target. We're starting now to build him up as the big villain. It will take some time, but in the end, there's no doubt it'll work."

"But isn't Saddam regarded as moderate toward us, allied with Jordan, the big enemy of Iran and Syria?"

"Yes, that's why I'm opposed to this action. But that's the directive, and I must follow it. Hopefully, you and I will be done with our little operation before anything big happens. After all, we have already destroyed his nuclear facility, and we are making money by selling him technology and equipment through South Africa."

In the following weeks, more and more discoveries were made regarding the big gun and other elements of the Saddam war machine. The Mossad had all but saturated the intelligence field with information regarding the evil intentions of Saddam the Terrible, banking on the fact that before long, he'd have enough rope to hang himself. It was very clear what the Mossad's overall goal was. It wanted the West to do its bidding, just as the Americans had in Libya with the bombing of Qadhafi. After all, Israel didn't possess carriers and ample air power, and although it was capable of bombing a refugee camp in Tunis, that was not the same. The Mossad leaders knew that if they could make Saddam appear bad enough and a threat to the Gulf oil supply, of which he'd been the protector up to that point, then the United States and its allies would not let him get away with anything, but would take measures that would all but eliminate his army and his weapons potential, especially if they were led to believe that this might just be their last chance before he went nuclear.

Ostrovsky knows that being famous keeps him alive."

Dick Cheney and other members of the Administration keep saying they "KNOW" there will be another terrorist attack. Maybe they have inside information. The top level of the US administration (Feith, Wolfowitz, Libby, Luti, Perle, Zakheim) has very close ties to Israel, some of them even being dual nationals. [Perle, Wolfowitz and Feith have all either been caught or investigated spying for Israel.](#)

Lt. Col. Karen Kwiatkowski's pieces on the [Israeli generals in Doug Feith's office](#) reveal the extent of Israeli penetration at the Pentagon.

Here's a picture of one of the meetings [between Paul Wolfowitz and Israeli Defense Chief Shaul Mofaz.](#)

Then there's [the AIPAC spy probe](#). Two officials of the American Israel Public Affairs Committee (AIPAC) were recently arrested distributing classified information from Larry Franklin, the Defense Intelligence Agency specialist on Iran. They've both now been fired, but shouldn't they be in custody?

Altogether, the **massive quantity** of Israeli or dual nationals both in and out of government arrested spying and or possibly moving explosives (of the 120 Israeli nationals deported prior to 9/11, [many were expert in explosives or signals intelligence \(also check DEA report for confirmation\)](#)) prior to and after 9/11 warrants a thorough investigation and interdiction. Especially given the high-level Israeli infiltration of the US civilian and military command.

Comment on Rense.com

From Pat

6-12-4

Hello again, Jeff. Am reading the article "Israeli Nationals, Nukes..." posted at your website. Do you know what is frighteningly close to Whitpain, PA? The Limerick Nuclear Power Facility.

<http://www.nucleartourist.com/us/limerick.htm>

You bet I want to know about this information. I live just outside of the evacuation zone and drive within spitting distance of the power plant weekly.

The link from the article on your website fails to mention the close proximity of Limerick to the Whitpain area where the suspects were detained. Thought you might want to know.

Addendum: Selections from a letter I wrote contains some

additional evidence and analysis regarding the Zionist connection to 911.

Understanding Before Action

The Israeli Connection Must Be Understood

Calling Zionist Research Anti-Semitic Curtails Legitimate Inquiry.

It is accepted among many with Jewish heritage who have done the research that the Jewish people themselves are one of the most common sacrificial lambs of the Zionists. Zionist political wolves, like their kind in all religions, do not care whose people are sacrificed on the march to Greater Israel. Witness the Masonic Pyramid with the all-seeing Eye (top left in photo) on top of the Supreme Court of Israel:

My understanding is that the Masonic Pyramid is a New World Order symbol that looks towards a day when "they" control the globe from the top of their pyramid. It even says New World Order under the Masonic Pyramid on the US dollar bill. Whether the New World Order is Zionist or British or transnational or American is beside the point. The Israeli Supreme Court Building, designed and paid for by the central banker Rothschilds, promotes it. Those on the receiving end of Globalization now have a terrific advocate in [John Perkins](#), whose new book, [Confessions of an Economic Hitman](#) exposes Globalization and the New World Order for what it really is: a transnational, transreligious, corporate crime syndicate whose major criminal enterprises are known as banks, intelligence services and "Defense" departments.

According to [Andreas von Bulow](#), the former German Parliamentarian and State Secretary in the Department of Defense:

"Von Bulow told AFP [American Free Press] that he believes that the Israeli intelligence service, Mossad, is behind the September 11 terror attacks. These attacks, he said, were carried out to turn public opinion

against the Arabs, and boost military and security spending...At this level, he said, the organization doing the planning, such as Mossad, is primarily interested in affecting public opinion. The architectural level planners use corrupt "guns for hire" such as Abu Nidal, the Palestinian terrorist who von Bulow called "an instrument of Mossad," high-ranking Stasi (former East German secret service) operatives, or Libyan agents who organize terror attacks using dedicated people, for example Palestinian and Arab "freedom fighters." The terrorists who actually commit the crimes are what von Bulow calls "the working level," such as the 19 Arabs who allegedly hijacked the planes on September 11. "The working level is part of the deception," he said. "Ninety-five percent of the work of the intelligence agencies around the world is deception and disinformation," von Bulow said, which is widely propagated in the mainstream media creating an accepted version of events. "Journalists don't even raise the simplest questions," he said adding, "those who differ are labeled as crazy."

Just as important is the Zionist ideology, well summarized by Yitzhak Shamir, former Israeli Prime Minister:

"Neither Jewish morality nor Jewish tradition can be used to disallow terror as a means of war... We are very far from any moral hesitations when concerned with the national struggle. First and foremost, terror is for us a part of the political war appropriate for the circumstances of today..."

Non-Zionist rabbis such as those affiliated with [Neturei Karta](#) reveal the even more heinous [Zionist collaboration with Nazism](#) during the second world war. Zionism's advocates refused to assist those trying to help Jews escape from Europe during the war on the grounds that, "if we also do not offer many human sacrifices, how can we gain the right to sit at the conference table when the territorial boundaries are reshaped?" As a descendant of Russian Jews, I consider it my responsibility to expose and depose these deceptive and murderous pretenders on behalf of Jewry, mankind and Mother Earth.

These documents should convince any intelligent reader of the importance of examining the possible Zionist connection to the 9/11 terror attacks. There is much more evidence, and those with questions and interest in additional documentation are welcome to [request it](#). Equating legitimate research and critique of those shielding Zionists from public inquiry using the canard of anti-semitism is a typical attack of people who, ironically, are unashamedly racist, anti-Arab and in some cases as documented in the Talmud, anti-Gentile. Instead, those same

people who shout anti-semitism at the first hint of Zionist or Jewish supremacist critique might consider denouncing the racist Zionist doctrines and distancing themselves from Jewish religious teachings that promote or allow racism. That would be a proper justice and honor to the memory of the holocaust.

Addendum 2: The German Intelligence [BND] Document

Web Location: <http://www.physics911.net/germanintel.htm>

TOP SECRET

- DO NOT RUBBERSTAMP -
- DO NOT SIGN -
- DO NOT WRITE ON -
- DO NOT MARK -

On Monday 6, August, 2001, at 17:50, [German] Ambassador Ischinger personally notified the President of the United States that information developed by the Bundesamt für Verfassungsschutz [German domestic secret service] as well as the BND [Bundesnachrichtendienst, German foreign secret service] indicated that an attack by a radical Arab group partially based in Germany was to occur on 10-11 September, 2001. The President was at that time in residence at his farm in Texas. Our [the German's] Ambassador was acting in direct response to instructions from Foreign Minister Fischer.

This information was developed from official surveillance of Arab extremist groups operating in the Federal Republic as well as from intercepted communications between the Embassy of Israel and the Israeli Foreign Ministry in Tel Aviv concerning this matter.

The information was "gratefully received" by the US President who stated at the time that he was also aware of the same pending assaults.

Subsequent to these attacks, the office of the US President, through the US Department of State, made an urgent request to the government of the Federal Republic of Germany that no reference whatsoever should be made to the official warnings given by Ambassador Ischinger.

In order to clarify the background of this matter, this Gesamtübersicht [overall survey] of the events leading to the assault was prepared, basing on extracts of reports from our [BND's] foreign stations. Overall, it is evident that the American authorities were aware of the pending attacks. Why they did nothing, is explained in the following.

Background: General Overview

Because of the Bush family's involvement in oil (Zapata Oil Company), many important and wealthy individuals and corporations with oil interests financially supported the Bush political career. Today, the Bush administration is therefore strongly influenced by major American business groups.

The candidate for American Vice President, Richard "Dick" Cheney, had been the Chief Director of the Halliburton Company. This company, based in Dallas, Texas, where Bush was Governor, is the largest oil service company in the world.

Between 1991 and 1997, such important American oil companies as Texaco, Unocal, Shell, BP Amoco, Chevron and Exxon-Mobil became involved with the former Soviet state of Kazakhstan who holds enormous oil reserves. The government of Kazakhstan was eventually paid over \$3 billions of corporate money to allow these companies to secure oil rights. At the same time, these companies agreed further to give the sums of 35 billion US Dollar in investments in plant and equipment to the Kazakhstan projects. A confidential project report of said US firms announced that the gas and oil reserves in Kazakhstan would amount to 4 trillion US Dollar.

The United States is not self-sufficient in oil and 50% of their supply is imported from various foreign sources. Some 80% of oil imported to the US comes from OPEC-Countries, the Arabian oil cartel. Because of the unconditional support by American political leaders of the state of Israel, these Arab governments have a very strained relationship with the USA.

A further small percentage of oil imported to the US comes from Venezuela. Just recently, the US government has been attempting to overthrow the government of Chavez with the help of the CIA and replace it with a government "more sympathetic to American oil needs."

A position paper prepared by the office of the later-Vice President Cheney states that the Kazakhstan oil reserves would be "more than sufficient to supply US needs for at least a decade" and would further "reduce American dependence on OPEC."

Unocal Oil Company signed an agreement with the reigning Taliban forces as well as their opponents, the Northern Alliance, in order to permit an oil pipeline to be built through Afghanistan direct through Pakistan to the Indian Ocean. by this, the exorbitant rates charged by the Russian to use their pipelines would be avoided. Unocal then opened official offices in Uzbekistan, Pakistan, Turkmenistan and Kazakhstan to facilitate the construction of this oil pipeline.

In December of 1997, official Taliban representatives were in the United States to attend a conference at Unocal headquarters in Texas to discuss the Afghanistan pipeline. These talks failed because the Taliban made what Unocal

felt were excessive financial demands.

In 1998, internal strife in Afghanistan and inherent instability in Pakistan reached such levels as to render the pipeline project impossible to execute. In the same year, the Houston, Texas based firm of Enron suggested instead to build a \$3 billion oil pipeline parallel to the Russian pipelines, running westwards rather than taking the shorter but more problematic route south.

In a secret memorandum by Cheney, it is stated that the Unocal company was prepared to finance the southern route. According to this, this project would take five years to complete and its annual revenues from the successful completion of this pipeline would approximate \$2 billions. however, and this had been the subject of a number of secret American reports, the only thing standing in the way of the construction of the pipeline was the basic opposition of the Afghanistan government and its political supporters.

On May 8, 2001, the US Department of State, in the name of Secretary of State Powell, gave 43 million US Dollars to the Taliban in order to facilitate their cooperation in the pipeline project.

On June 10, 2001, the BND warned the CIA office in the US Embassy to the Federal Republic [of Germany] that certain Arab terrorists were planning to seize American commercial aircraft for use as weapons of destruction against significant American symbols. This was considered a general warning only. The Federal Republic's warning of August 6, however, was specific as to date, time and places of the attacks.

On July 11, 2001, in Berlin, US officials: Thomas Simmons, a former American Ambassador to Pakistan, Lee Coldren, State Department expert on Asian matters, and Karl Inderfurth, Assistant Secretary of State for Asian matter met with Russian and Pakistani intelligence officers. At this meeting, which was under surveillance, it was stated by the Americans that the United States planned to launch military strikes against Afghanistan in October of that year. The purpose of these strikes was to topple the Afghanistan government and the Taliban in order to replace it with a government "more sensitive to the needs of American oil interests."

In mid-August 2001, President of the Russian Federation Putin ordered that the American authorities be warned of pending attacks on government buildings inside the United States. This warning was conveyed to the US Ambassador in Moscow and via the Russian Ambassadors office directly to the US President. On August 20, the Government of France, through the American Embassy in Paris and their Embassy in Washington, issued a more specific warning. This warning specified the exact date, time and places of the attacks.

On September 11, President Bush and top aides flew to the state of Florida so

that the President could speak with children in a kindergarten. Also at that time, Vice President Cheney absented himself from Washington and went to the safety of the Presidential compound in the mountains of Maryland.

It was noted in Washington that Cheney remained sequestered in Maryland for some time and only appeared in public surrounded by heavy security.

The Role of the Israeli Mossad in the Terrorist Attacks

Note: The following two sections are considered to be extremely sensitive due to the special relationship between the Federal Republic [of Germany] and its Jewish citizens as well as the State of Israel. This material is compiled from German and American sources.

During the term of President George HW Bush, the government of Israel made an official, but very secret, request to the American president. This request was to permit agents of the Mossad, Israeli Foreign Intelligence, to enter the United States and conduct surveillance operations against various Arab groups residing in that country.

The stated purpose of this surveillance was to permit Israeli early warning of terrorist plots against their country. Permission for this surveillance was granted with the caveat that the Mossad would have a liaison with the FBI and report any and all findings to that agency.

However, these conditions were not observed. The Mossad not only did not inform the FBI of any of its findings, it is known to have engaged in commerce with several groups of Israeli criminals of Russian backgrounds. These groups were engaged in extensive criminal activities inside the United States, to include the smuggling of the Ecstasy drug. Mossad agents were able to subvert American criminal investigations through their knowledge of American telephone surveillance of such groups.

It is very evident from surveillance conducted against Mossad agents in the Federal Republic as well as interceptions of Israeli diplomatic communication from the Federal Republic to Tel Aviv, that the Mossad has successfully penetrated various extremist Arab groups in both the Federal Republic and the United States.

These investigations disclosed in late May of 2001 that an attack was to be made against certain specified targets in the American cities of Washington and New York. But it was apparent that the Mossad was not only fully aware of these attacks well in advance but actually, through their own agents inside these Arab groups, assisted in the planning and the eventual execution of the attacks.

That the Israeli government was fully aware of these attack is absolutely certain and proven. Diplomatic traffic between the Israeli Embassy in the Federal

Republic and the Israeli Foreign Office made it very clear that Minister President Sharon was fully aware of this pending attack and urgently wished that no attempt was made to prevent the attacks.

Although the Israeli officials were instructed to warn the American intelligence community that some kind of an attack might be possible, at no time were the specific dates and targets (known at that time to Israeli officials) to be given to the Americans.

The rationale for this attitude was expressed in a conversation on August 1, 2001, between the Israeli Military Attaché in the Federal Republic to a member of the Israeli General Staff. There it was stated that Israel believed an attack on the continental United States would so inflame American public opinion that they would permit Israel to "cleanse" their state of "Arab terrorists and those who support such terrorists". This "cleansing" was explained as the expulsion of all Arabs, and even Christian groups, from the Palestine area.

American intelligence officials have repeatedly expressed great concern in meeting with our people that the Israeli government, through a company called Amdocs, was able to conduct surveillance of all telephone communications within the United States. It was categorically stated that this Israeli-based firm was given the American contract with 25 of the largest American telephone companies. This contract was granted over the objections and concerns of the American intelligence community.

The official reason given for this extraordinary arrangement that permitted Israeli agencies to observe all highly confidential investigative telephone calls was that the United States has a "special relationship" with the State of Israel and they had requested this.

The Israeli Political Influence in the United States

It should be noted here that the professional Israeli lobby in America is huge in size and is considered even by our American colleagues to be a very powerful and entirely dominant factor in American politics.

The American Israel Public Affairs Committee is the largest foreign lobby in Washington and fourth most powerful lobby in the country. Other Israeli groups also include the Anti-Defamation League (from whose national offices, along with the Israel Trade Mission and the many Israeli Consulates, many Mossad agents were working,) the Jewish Institute for National Security Affairs and the Committee for Accuracy in Middle East Reporting in America.

These groups, in conjunction with Jewish dominated media giants like the New York Times, the Washington Post, Newsweek Magazine, the Los Angeles Times, Time- Warner-AOL and their CNN news network, basically control the

dissemination of news in the United States. It is therefore almost impossible for any news that would be considered in opposition to Israeli interests to appear before the American public, although such stories are readily available in most European media.

The Role of the Christian Fundamentalists in American Politics

The so-called "Christian Right" consists of Protestant fundamentalists, where the so-called Pentecostals play a dominant role. This is a very fanatical and aggressively missionary denomination that believes in the return of a living Christ to earth and the subsequent elevation of its members to heavenly paradise.

In order for this appearance of Christ to occur, several factors must be in place according to the views of this denomination. In the first place, a number of Jews must convert to Christianity, and, in the second, there must be a rebuilding of the Jewish temple in Jerusalem. As the site of this temple is now occupied by a major Islamic mosque, it will be necessary to destroy this building.

Starting as an Episcopalian, Bush tried other Protestant denominations before joining the Pentecostals. Apart from US President Bush and his Attorney General John Ashcroft, other members of his administration are members of this denomination, too, which is the second largest Christian denomination after the Catholic Church. As a considerable part of the American public sentiment is strongly opposed to religious fanatics, these facts have been kept very quiet.

Bush and his entourage are very strong supporters of the State of Israel because of their belief, that the founding of this nation is viewed as another requirement for the return of Christ. For this reason, Bush unconditionally supports any program put forward by the Israeli government and is a devoted follower and supporter of Sharon, the Israeli right wing extremist Minister President.

Attorney General Ashcroft has stated in a public sermon (he is a lay preacher of the Pentecostal church) that Muslims are "agents of the Anti-Christ" and must be destroyed in the so-called "Battle of Armageddon". According to the beliefs of fundamentalist Christians, this battle will be fought over Israel's existence and will lead to the end of the world and the return of Christ.

It is generally known in Washington that Bush is entirely guided by his religious beliefs and that he has been attempting repeatedly to force his views onto the American public by means of various disguised programs, such as religious control of charities, unconditional support of Israel, and so forth.

Summary and Outlook

The terrorist attacks on American targets were fully known to many entities well in advance. The US President was fully informed as to the nature and exact time

of these attacks.

The US government in general and the US President in specific have become subservient to the wishes and plans of the Israeli government. As these plans encompass the removal of the Arab population of Israel and adjoining territories, it is evident that the population of the United States is being pushed into a situation that could easily result in more, and terrible, attacks on their home country.

In view of this possibility, the US authorities are determined to limit any discussion of the 11 September attacks to the official version as it appears regularly in the US media.

It also appears from confidential sources that Bush's plans to attack Iraq are based mainly on a desire on the part of Israel to remove Saddam Hussein. Tel Aviv views Hussein as a real threat and has already attacked that country before.

There is also evidence that if Hussein is toppled by American military forces, the oil resources of Iraq would be put under the control of a consortium of the American oil interests that so avidly support the Bush administration.

Pullach, April 5, 2002

Commentary by Scientific Panel Investigating Nine Eleven Intelligence Expert

The document purports to be from the German Bundesnachrichtendienst (BND), which has its headquarters at Pullach, near Munich. It was reportedly delivered to Bill White, of Overthrow.com, at a meeting of the Barnes Review, in Washington DC. The original German document, complete with top secret classification markings and other details, is enclosed for scrutiny and verification. The document may or may not be genuine. It has not been proven to be a forgery. If Ambassador Ischinger did not go to Crawford, Texas, on the date named, and did not make telephone contact with the President on that date, then the document may not be truthful. If, on the other hand, Ischinger did telephone President Bush or go to Crawford to speak with him at the time and date mentioned, then the occasion must have been a matter of extreme urgency. It will be possible for someone to verify or refute the facts of Ambassador Ischinger's whereabouts. If the document is genuine, it would go far to explain Germany's reluctance to get involved in the so-called War on Terror, including aggression against the innocent nations of Iraq and Afghanistan. Germany's public silence could well be explained by concern about the extremely sensitive relation of Germany to the state of Israel, and by the horrifying implications this document would have for its relation to its NATO ally, the USA. We offer this document for what it is worth. If anyone can find proof that it is spurious, we welcome such proof. If not, it must remain as a possibly genuine document with truly

devastating implications.
