Condoleeza Rice Warned Willie Brown Not To Fly On 9-11

Bush administration foreknowledge of 9-11 hijackings confirmed by condoleeza Rice herself.

August 10, 2003

Grasping a straws and closing a loop

"Condoleeza Rice, the most senior black woman in the Bush administration, has levelled a charge of racism against critics of the US drive to bring Western freedoms to the Middle East."
<http://makeashorterlink.com/?O2FC34B85>

That's the grasping at straws part.

But wait. There's more.

Did this former Chevron (San Francisco) employee got this new rhetorical tactic from San Francisco mayor Willie Brown, who has managed to turn every scandal there into an issue of race?

SF Election fraud? White people don't want blacks to have an expensive, disruptive, mafia owned football stadium in their overtaxed, under served neighborhood.

Off duty cops robbing and beating citizens? White people who complain don't want a black police chief to succeed.

Rice has a lot of deep official SF connections besides Chevron: Charles Schwab, San Francisco Symphony Board of Governors, Transamerica Corporation, KQED.

Trivia question: What mayor of a major west coast city claimed just hours after 9-11 that he'd been warned not to fly the week of 9-11 by what he described as his 'airport security.' None other than Willie Brown!

Details:

http://propagandamatrix.com/willie_brown_got_low_key_early_warning.html
<http://www.sfgate.com/cgi-bin/article.cgi?file=/chronicle/archive/2001/09/12/MN229389.DTL>

Think about it. Where else on earth would Brown get the message not to fly on a particular day? The airport says there was no advisory in place.

Note that when asked, Brown clammed up as to the source. Why?

Searching...

Turns out my hunch ain't a news flash. Just the sussing out of a significant, but very obscure piece of 9-11 trivia.

On May 17, 2002, Pacifica Radio reported that Rice was the source of the call to Brown.

See side bar: http://www.fpp.co.uk/online/02/05/Bush_knew2.html

So in case you missed it:

THE ASSISTANT TO THE PRESIDENT FOR NATIONAL SECURITY AFFAIRS CONDOLEEEZZA RICE CALLED A FRIEND THE DAY BEFORE SEPTEMBER 11TH AND TOLD HIM TO STAY OUT OF THE AIR THAT WEEK

Got that?

San Francisco historians take note. The city elite found yet another way to be involved first hand in the reaming of the Republic.

📖 **Re: Condoleeza Rice Warned Willie Brown Not To Fly On 9/11**

Not that I'd defend Rice, who is a delusional (or, if you prefer, deluded, but it's the same thing as a practical matter) fool not to be believed, but this story sounds like BS. If that's really his story, Willie's either making it up completely, or he's hiding his source -- who is possibly some palm reader, but one can't be sure enough to rule out some other government flunky.

The government was supposedly running hijacking drills on 9/11. Attack warnings were published in the major newspapers in the weeks before 9/11. Obviously a lot of people in the government were worried. Many of them had been worried for months before 9/11 happened, and may have been fatigued of warnings at that point.

That's the great thing about ambiguity.

Hey as Rice said "my husb...I mean the president".

I have it on good advice that the bulge in W's jacket is actually the receiver for his remote control ben wa balls, which are controlled jointly by Rice and Cheney. His facial expressions absolutely confirm this. Remember, if you have not heard a rumour by 9am, then start one.

Re: Condoleeza Rice Warned Willie Brown Not To Fly On 9/11

Rice believes those that oppose the process started in Iraq are racists? She thinks it's Birmingham Alabama 1963 all over again. She talks of "western freedoms" and that the average folks in the middle east are being deprived by not having them as it's their right. Oh yeah we're free alright, baloney, the fact is that the folks in the middle east are freer by far in their ability to determine the outcome of their lives than we ever will be. Freedom as per Ms Rice is the freedom to be kept in line, to follow the edicts of the elite and to play by their rules, well it's nonsense, she knows it, and it boggles me that she can spin it with a straight face.

(Note below to moderators on possible LF HTML malfunction.)

The short story from Rice's Confirmation Hearing at the link below is worth a read. Here's an interesting excerpt from [url=

[http://www.todaysalternativenews.com/index.php?event=link,150&values\[0\]=&values\[1\]=2125](http://www.todaysalternativenews.com/index.php?event=link,150&values[0]=&values[1]=2125)
]here[/url],

Quote:

[Condoleeza] Rice kept saying that she did not want her credibility impugned—Senator [Barbara] Boxer then stated, “I am but quoting your own contradictions.” For any sane person listening to the comments, it was clear that Conde Rice has no credibility, no integrity and is not fit to hold an office as important as Secretary of State.

Barbara Boxer for prez, 2008? I guess "spine showing" have to be taken with a pinch of salt, though. Seems to me Kerry earlier on supported Palestine, but then got corrected.

Note to moderators. Possible malfunction: When I write

]here[/url],

but without the [Enter] after "url=" (left square bracket omitted in this quotation, because including the left square bracket tries to convert some of this discussion into an invisible URL) and without the " " in front of "]here[/url]," my link gets converted to "=2125]here" trying to point to the partial URL preceding "=2125," which of course doesn't work as it is only a partial URL.

Unless I have made a mistake that I don't recognise, it appears your engine incorrectly parsed matching left and right square brackets within the URL, i.e., "values[0]=&values[1]," and defaulted to the second right square bracket as having to close the "[url=" function. Perhaps instead, it should parse backwards from the "[/url]."

Interesting link. I'm not sure I'm convinced that "A capt in Sayret Matkal was on Flight 77" realised he was

on a suicide mission. Is there any history of Israeli suicide missions? I don't mean just dangerous missions, but where the outcome success depends upon suicide? Of course, there's always a first time, but I still lean toward remote control and Dov Zakheim.

I believe there is something going on here with the Israeli connection to 9/11, I post the links and leave the reader to decide --

Today's program is based on Robert Pate's article in the latest National Vanguard print magazine, "The Anthrax Mystery: Solved." It is one of the most compelling and important stories we've told.. The anthrax murders remain officially unsolved. Was this bio-terrorism a case of an Arab attack on Americans because 'they hate our freedom'? Was it the work of a 'domestic terrorist' motivated by hate of the US media or government? The evidence points to none of these things: Instead it points to the anthrax attacks being an operation of a foreign intelligence service with capabilities and motives identical to those of the murderous Israeli Mossad.

The Anthrax Murders: The Israeli Connection 2

by Robert Pate and Kevin Alfred Strom

<http://www.natvan.com/internet-radio/ts/050804.ram> (Real Player)

<http://www.natvan.com/internet-radio/ts/050804.pls> (Mp3 Player)

Who benefited from the anthrax murders -- and who had the technology to produce the several distinctly different weapons-grade agents used? Was it Saddam Hussein or Arab terrorists hiding in the hills of Afghanistan? Absurd. Was it right-wing domestic terrorists? Ridiculous. Was it a faction within the CIA? No motive, no evidence. Was it the intelligence service of the Zionist state, with foreknowledge of and coordination with the 9/11 attacks? Listen to the evidence and decide for yourself as we present part 2 of this important series.

The Anthrax Murders: The Israeli Connection 3

by Robert Pate and Kevin Alfred Strom

AVD Broadcast Date: 05-22-2004

<http://www.natall.com/internet-radio/ts/052204.ram> (Real Player)

<http://www.natall.com/internet-radio/ts/052204.pls> (Mp3 Player)

In the final segment of Robert Pate's investigative report, we'll explore the Israelis' means, motive, and opportunity for committing the anthrax attacks -- their disinformation and hoax campaigns, designed to implicate Dr. Steven Hatfill -- and the likely chronology of the murders themselves -- as American Dissident Voices presents "The Anthrax Murders, the Israeli Connection," part 3.

No, but blowing away a parent in front of one of his children *as part of a torture session in Iraq* has never been reported, to my knowledge, and is a very different thing than what happened here.

You didn't make the context clear at all. The way you juxtaposed the photo and description of events was highly misleading. It's the kind of post that polarizes public opinion here even more than it already is. It gives defenders of the war another excuse to think that no one who protests the war really knows anything or has any intellectual honesty, and is out to paint all US forces as rampaging psychopaths.

Notice how much more humane the soldiers seem when you know that they took the surviving victims to the hospital.

Seems to me the only criminals in this *particular* situation are the politicians who threw these teenage and 20-something American kids into a meat grinder with no planning, insufficient troops, equipment, and training, and no exit strategy.
