**Russia rejects US-French draft resolution, Tehran condemns Israeli aggression on Lebanon**

Tuesday, August 08, 2006 - 12:15 PM

**CAPITALS, (SANA)-** Russian Permanent Representative to the United Nation **Vitaly Churkin** expressed his country's rejection to the US-French draft resolution proposed to the UN Security Council on Lebanon in its current form.

In a statement to Russian Visti 24 TV Channel Tuesday, **Churkin** said that it is obvious the draft resolution is improper for the Lebanese side and unacceptable because it will lead only to continued conflict and violence.

He pointed out that efforts are exerted to make the draft resolution acceptable for the Lebanese government.

Meanwhile, an international conference on the Israeli Aggression, its Regional and International Repercussions, wrapped up deliberations on Monday in Tehran by condemning the US support to the Israeli aggressive practices against Lebanon and Palestine, holding the American administration direct responsible for the Israeli crimes, particularly in Qana and al-Qaa.

In a final statement, the participants in the Conference stressed support to Lebanese sovereignty and territorial unity, asserting that the Israeli aggression is a premeditated plan for liquidating the national resistance in Lebanon.

The statement expressed sorrow over the international silence on the Israeli aggression and the weakness of the UN Security Council to issue a cease-fire decision in Lebanon, warning against the bad repercussions of the UN losing capability of maintaining international peace and security.

It pointed out that the US-French draft resolution contradicts with Lebanon's interests, cautioning against the negative effects of imposing foreign projects on Lebanon.
