the operative word is SAYANIM. Local Jews who choose to spy for or aid Mossad in the countries they live in

Mossad local assistants or sayanim

operating in western countries

extracted from 'By Way of Deception' by Victor Ostrovsky (pp. 86-9)

Alan's lecture was followed by one on technical cooperation between agencies, in which we learned that the Mossad had the best capability of all for cracking locks. Various lock manufacturers in Great Britain, for example, would send new mechanisms to British intelligence for security testing; they in turn sent them on to the Mossad for analysis. The procedure was for our people to analyze it, figure out how to open it, then send it back with a report that it's "impregnable."

After lunch that day, Dov L. took the class out to the parking lot where seven white Ford Escorts were parked. On Israel, most Mossad, Shaback, and police cars are white, although the head of Mossad then drove a burgundy Lincoln Town Car.) The idea was to learn how to detect if you were being followed by a car. It's something you practice again and again. There's no such thing as you see in the movies or read in books about little hairs on the back of your neck standing up and telling you somebody is behind you. It's something you learn only by practice, and more practice.

Each night when we went home, and each day when we left home for school, it was still our responsibility to make, sure we weren't being followed.

The next day Ran S. delivered a lecture on the sayanim, a unique and important part of the Mossad's operation. Sayanim ? assistants ? must be 100 percent Jewish. They live abroad, and though they are not Israeli citizens, many are reached through their relatives in Israel. An Israeli with a relative in England, for example, might be asked to write a letter saying the person bearing the letter represents an organization whose main goal is to help save Jewish people in the diaspora. Could the British relative help in any way?

There are thousands of sayanim around the world. In London alone, there are about 2,000 who are active, and another 5,000 on the list. They fulfill many different roles. A car sayan, for example, running a rental agency, could help the Mossad rent a car without having to complete the usual documentation. An apartment sayan would find accommodation without raising suspicions, a bank sayan could get you money if you needed it in the middle of the night, a doctor sayan would treat a bullet wound without reporting it to the police, and so on. The idea is to have a pool of people available when needed who can provide services but will keep quiet about them out of loyalty to the cause. They are paid only costs. Often the loyalty of sayanim is abused by katsas who take advantage of the available help for their own personal use. There is no way for the sayan to check this.

One thing you know for sure is that even if a Jewish person knows it is the Mossad, he might not agree to work with you ? but he won't turn you in. You have at your disposal a non-risk recruitment system that actually gives you a pool of millions of Jewish people to tap from outside your own borders. It's much easier to operate with what is available on the spot, and sayanim offer incredible practical support everywhere. But they are never put at risk ? nor are they privy to classified information.

Suppose during an operation a katsa suddenly had to come up with an electronics store as a cover. A call to a sayan in that business could bring 50 television sets, 200 VCRs ? whatever was needed ? from his warehouse to your building, and in next to no time, you'd have a store with \$3 or \$4 million worth of stock in it.

Since most Mossad activity is in Europe, it may be preferable to have a business address in North America. So, there are address sayanim and telephone sayanim. If a katsa has to give out an address or a phone number, he can use the sayan's. And if the sayan gets a letter or a phone call, he will know immediately how to proceed. Some business sayanim have a bank of 20 operators answering phones, typing letters, faxing messages, all a front for the Mossad. The joke is that 60 percent of the business of those telephone answering companies in Europe comes from the Mossad. They'd fold otherwise.

The one problem with the system is that the Mossad does seem to care how devastating it could be to the status of the Jewish people in the diaspora if it was known. The you get if you ask is: "So what's the worst that could happen to those Jews?" they'd all come to Israel - Great."

Katsas in the stations are in charge of the sayanim, and most active sayanim will be visited by a katsa once every three months or so, which for the katsa usually means between two and four face-to-face meetings a day with sayanim, along with numerous telephone conversations. The system allows the Mossad to work with a skeleton staff. That's why, for example, a KGB station ? would employ about 100 people, while a comparable Mossad station would need only six or seven.

People make the mistake of thinking the Mossad is at a disadvantage by not having stations in obvious target countries. The United States, for example, has a station in Moscow and the Russians have stations in Washington and New York. But Israel doesn't have a station in Damascus. They don't understand that the Mossad regards the whole world outside Israel as a target, including Europe and the United States. Most of the Arab countries don't manufacture their own weapons. Most don't have high-level military colleges, for example. If you want to recruit a Syrian diplomat, you don't have to do that in Damascus. You can do it in Paris. If you want data on an Arab missile, you get that in Paris or London or the United States where it is made. You can get less information on Saudi Arabia from the Saudis themselves than you can from the Americans. What do the Saudis have? AWACs. Those are Boeing, and Boeing's American. What do you need the Saudis for? The total recruitment in Saudi Arabia during my time with the Institute was one attaché in the Japanese embassy. That was it.

And if you want to get to the senior officers, they study in England or the United States. Their pilots train in England, France, and the United States. Their commandos train in Italy and France. You can recruit them there. It's easier and it's less dangerous.

Ran S. also taught his class about "white agents," individuals being recruited, either by covert or direct means, who may or may not know they're working for Israel. They are always non-Arabs and usually more sophisticated in cultural knowledge. The prejudice in Israel is that Arabs don't understand technical things. It shows itself in jokes, like the one about the man selling Arab brains for \$150 a pound and Jewish brains for \$2 a pound. Asked why the Arab brain was so expensive, he says, "Because it's hardly been used." A widely held perception of Arabs in Israel.

White agents are usually less risky to deal with than "black," or Arab, agents. For one thing, Arabs working abroad are very likely to be subjected to security by Arab intelligence and if they catch you working with one as a black agent, they'll want to kill you. The worst that would happen to a Mossad katsa caught working with a white agent in France is deportation. But the white agent himself could be charged with treason. You do everything you can to protect him, but the main danger is to him. If you're working with an Arab, both of you are in danger.

While our classes at the Academy went on, exercises outside with cars continued apace. We learned a technique called maulter, the unplanned use of a car in detecting, or, improvised following. If you have to drive in an area you're unfamiliar with, and you have no preplanned route, there's a series of procedures: turning left then right, moving, stopping, and so on to follow, mainly to eliminate coincidence and make certain whether or not you are being followed. We were also frequently reminded that we were not "bolted" to our cars. If we thought we were being followed, but couldn't verify it completely, it might be wise to park, venture out on foot, and take it from there.

Another lecture, by a katsa named Rabitz, explained the Israel Station, or local station, which handles Cyprus, Egypt, Greece, and Turkey. Its katas are called "hoppers" or "jumpers," because they work out of Tel Aviv headquarters. They recruit by hopping back and forth for a few days at a time, to operate the agents and the sayanim. All these countries are dangerous to operate in because their governments tend to be pro-PLO.

The Israel station is not a popular assignment for katas. During his lecture on the subject, Ran S. dumped on it. Ironically, he was later appointed its head.

InfoGuy comments: Funny that Ostrovsky should mention car dealers/renters in this vein -- one is reminded of the "Rosen Porsche" dealership which appeared from the local newspaper's report to be at the very least a rendezvous point for the group of Israeli nationals ("movers," alas) that was arrested by local police in Pennsylvania after their suspicious behavior was observed. This was the case in which the female (holding German passport, if I recall) was seen walking with a "Moshe Eliakas" (again, if I recall correctly) and then observed to veer away from him, in an apparent attempt to make it seem they were not really together, once they spotted the police. Anyway, all this occurred at the "Rosen Porsche" dealership, I believe.

Does this dealership have anything to do with sayanim activities? I dunno, but the question intrigues.

"Suppose during an operation a katsa suddenly had to come up with an electronics store as a cover. InfoGuy comments: Funny Ostrovsky should have mentioned electronics retailers, as well.

Going back to the 1970s in New York City there was the much-advertised seller of consumer electronics, the Israeli "Crazy Eddie". Years later, I believe, he was busted for some kind of illegality.

Fast-forward to the present, and there's "Crazy Eddie's" heir, the Israeli "Crazy Gideon" in Los Angeles, running his own much-advertised consumer electronics outlet.

Did "Crazy Eddie," and does "Crazy Gideon," have anything to do with sayanim activities? I dunno, but the question intrigues.

Each day, Corruption's obscene grip on the world consolidates a little more, a little more, and this gets harder and harder to watch. Rabid Jewish supremacists (a.k.a. "zionists") are the supreme gurus of corruption. That's why their political clout in the United States, the world epicenter of corruption, is totally out of proportion to their numbers ( $\pm 2\%$  of the population) or their wealth (a larger percentage, to be sure, but nowhere near a controlling interest). I live in a very Jewish part of the U.S., and my eyes are wide open, so I know whereof I speak. I've also been harassed, in a quite threatening way, by an American sayan. That's what happens when you work to alert people to the Zionist Mafia's machinations, as I have done, as Ostrovsky has more famously done; they track you down and make it clear they know who you are, where you live, etc. I expect they'll escalate further in my case, because I have no intention of shutting up. I would rather die than allow such filth to dictate the terms of my life to me. Most of my countrymen, on the other hand, have totally caved in to their manipulations, without even knowing that's what the Iraq war signifies. There's no chance they'll ever figure it out, either. They're much too delusional.

What I find most ironic is that so many Jews of good conscience, including Einstein, have been perfectly aware of Zionism's odious character and have spoken out against over the years:

[http://globalwebpost.com/farooqm/study\\_res/einstein/nyt\\_letter.html](http://globalwebpost.com/farooqm/study_res/einstein/nyt_letter.html)

Once the vanguard of the political left, Jews have been subverted by mounting nationalist bigotry; overwhelmingly, they have retreated into the Zionist perspective of "us Jews against everyone else." This is what propels the sayanim phenomenon. Their own "leaders" have done this to them, no doubt, but they've received unlimited assistance from the international capitalist elite. The Jewish left (Marx, Lenin, Trotsky, etc.) was too effective, too threatening; it had to be destroyed, and so it became a target for ICE's trademark 'divide and conquer' tactics. This is just one of the strategic functions Israel serves. The Jews themselves are the biggest dupes in all this; the fascism known as "Zionism" doesn't remotely serve their broader interests.

Take heart, because the weight of world opinion really is turning against them now. You can't fool all the people all the time...

The US is rife with pro-Israeli agents that are nothing more than enemies of our nation. They should all be deported and the American Jews put on notice where their loyalty must lie to remain in America. The Jewish methods of pushing into high positions to control their host nation's domestic and foreign policies must be terminated and they become disqualified for civil service. This evil trait was the basis for Hitler's war against the German Jews and his solution may not be far in the future of the US.

Tactic of the Zionists: If there are critics of Zionist, blow up a few buildings and leave 'convinient' evidence.

'Nail Bomber' was a Zio- OP.

'Fertiliser Bomb plot' was a Zio- OP

'Abu- Hamza' is a Zio- op to scare people into accepting zionism views.

many many more incidents. The sayanim media is soo full of pro- zionist writers and journalists.

Responses to Brian's excerpt of Ostrovsky's book only serve to re-enforce my long-held impression : that the Gentiles are so FAR behind the Jews ( light years ) in strategic, 3 - dimensional thinking that their only proffered defense is a pathetic denial of their own life - threatening vulnerability. It is the Jews who are the most realistic, self - affirming, survivalist, rational people, and the ( Western ) Gentiles the most delusional, self - destructive, and suicidal. The proof is all around you -- " res ipsa loquitur " -- the thing speaks for itself.

The Mossad has infiltrated the highest levels of the U.S. Govt. An example of this is Samuel (Sandy) Berger. Berger has recently been exposed committing espionage against the U.S. by pilfering super secret documents from the National Archives. We are being told that there isn't any way to determine the content of these documents as they have gone missing. Some of the pundits are attempting to play this off as a joke, a laughable mistake, or an inadvertant act. This is nonsense. Mr. Berger has held the highest position in America at the NSA and is a lawyer to boot. He is well aware that his acts of theft are criminal treason. Mr. berger wouldn't have taken the risk of removing the "code worded" documents merely to prevent additional embarassment to the Clinton

Administration. I believe the documents implicate the Israelis and the Mossad in the 9-11 tragedy.

This is not the first time a Jew in a high official security capacity has been caught stealing documents. Bill Clinton pardoned John Deutsch, former director of the CIA, for the same type of activity. John Deutsch is a Jew.

George Tenet recently resigned from the position of Director of the CIA and he too is a Jew. His resignation comes at the inopportune time when the U.S. Govt. is proclaiming the inevitability of another terrorist attack.

These Jewish Government appointees are all Mossad accomplices, and dual citizens, a dangerous combination to the security of America.

Dear FIRO Staff,

Re: [http://flight800.org/release\\_7\\_04.htm](http://flight800.org/release_7_04.htm)

We're reminded of the missing door from the Waco "compound," which evidence would have determined which side had fired first. The feds had had the area bulldozed before any formal investigation had ensued.

The feds have done lots of "scrubbing" of crime scenes: Waco, Oklahoma City, TWA Flight 800, 9/11; "scrubbing" means to remove evidence from a crime scene

before a formal investigation ensues.

Dear Paul Craig Roberts,

Re: "The Process Did It,"

<http://www.lewrockwell.com/roberts/roberts55.html>

The stark reality has yet to  
dawn on the vast majority  
of conservatives, as they  
turn a blind eye to this  
MOST-CRITICAL question  
about events surrounding  
9/11:

Did Bush and company  
help the terrorists carry  
out their plans by doing  
nothing to prevent  
them?

Would that you and other  
conservatives keep focusing  
on that question, then  
maybe an impeachment  
would be forthcoming.

Alas, all major media and  
political powers that be  
are alligned against the  
truth ever being served!

Best Regards,

Deacon Elurby

P.S.

Find the truth below,  
regarding the events  
surrounding 9/11.

-from my collection of thoughts on America's steep moral/cultural decline, "Paleoconservative Thoughts To Ponder":

2044) [LETTER TO JEWISH FINANCIAL ANALYST]: Regarding postponing elections if there is a terrorist attack, how many can handle the truth?: The NWO architects have engineered events to reach their goal of one-world government, under GLOBAL ECONOMIC SOCIALISM. There are so many clues, such as all of those MAGICAL ANOMALIES - before, during and after those 9/11 attacks - which point to a joint U.S./Israeli HELPING-HANDS operation--not an "al-Qaida" attack; "al-Qaida" being a catch-all term for the DUMMY BAD-GUYS we're all being entrained to fear, and who'll pop up to do this or that bad deed, for keeping us all in fear and subserviant to these neocon puppet-masters--and, maybe, to keep this WAR PRESIDENT in office beyond his term. Yes, there are Arab-Islamic terrorists hoping to destroy the West. But the neocons seized upon that threat to corral public sentiment in the West, for warring in the Middle East and beyond, to protect Israel and Big-Oil/Big-Banking/Big-Business profit-making interests. The Patriot Act was drawn up BEFORE 9/11 in neocon think tanks! 9/11 attacks were part of a stage production, set up to fool you!--and, ultimately, to enslave you! It's a ruse, a trick, a ploy to advance neocons' brand of empire-building. We'll all suffer badly for the EVIL MAGICIANS' slight-of-hand tricks. By the way, "neocon" is code. Do you know for what? The answer partly explains why the West is in steep moral/cultural decline. Answer is here: <http://www.rense.com/general31/lifeof.htm>

#####

There are so many of what this scribbler calls "MAGICAL ANOMALIES" surrounding 9/11 that only a VILLAGE IDIOT would accept as truth the massive, Orwellian lies coming through mainstream media and the feds.

I make my case here:

Evil Magicians

[MY RESPONSE TO A REPORTER'S INSISTANCE THAT I "LOOK AT THE OBVIOUS," THAT ONLY ISLAMIC TERRORISTS WERE RESPONSIBLE FOR 9/11]: "Why ignore what's right in your face?" you ask. Well, that's exactly what a magician asks of his audience--to ignore his slight-of-hand machinations, his well-hidden wires, trap-doors and other props for deception. Israel's Mossad knows the value of WARRING BY DECEPTION, as that is its motto. The magician's tool is deception, and we Americans have been deceived by magicians--by a cabal of U.S. and Israeli agents, who demand that we focus on the obvious, not their slight-of-hand machinations; not those DANCING ISRAELIS high-fiving each other and laughing about the murdered victims and World Trade Center's destruction, all of whom were quietly sent back to Israel; nor those two Israeli agents caught trying to sneak explosives into Mexico's legislature, post-9/11, which incident was quickly buried by the U.S. press, and the intruders sent back to Israel; nor those hundreds of so-called Israeli "ART STUDENTS" who were engaged - pre-9/11 - in the largest spy operation in U.S. history, shadowing those Arab terrorists wherever they travelled, even living next to them, all of which "STUDENTS" were quietly sent back to Israel, and without any in-depth investigation by U.S. spy agencies or investigative journalists in America's media; nor how such poorly trained Arab flight STUDENTS could have executed those maneuvers, which even expert pilots - with thousands of hours of flying experience - question whether or not they could have made those turns and hit those targets so precisely; nor those photos of each terrorist, so quickly televised after the event, as if U.S. agents had had those photos prepared before 9/11 for broadcasting; nor those FBI-listed terrorists who happen to be alive and well today, after we were told that they had perished with their captives in those doomed airbuses; nor the curious finding of a terroist's passport, found in pristine condition within the WTC debris field; nor the lack of any matching debris field in front of or within the Pentagon, to match the size and contents of a huge passenger plane crashing into the side of that structure; nor those millions-of-dollars worth of pre-9/11 put options, some of which airline options have not been claimed, and all of which buyers' identities remain hidden by the FBI; nor the photo of that strange and heretofore unexplained device hanging beneath one of the doomed airbuses; nor President Bush's strange, devil-may-care behaviour after learning the U.S. was under attack; nor the unprecedented stand-down by U.S. air defenses, upon learning that civilian passenger planes were radically off course; nor the demolition-type collapse of both towers, with the first-hit tower collapsing after the second; nor firefighters' reports of hearing strange explosions within the towers; nor building seven's demolition-type collapse, even though it had not sustatined a hit; nor Bush and company claiming they had had no suspicion that Arab terrorists might use planes as missiles, even though every other Western government had known of that possibility; nor . . . ; and the list goes on and on for anyone willing to investigate all the magical anomalies surrounding 9/11; that is to say, what may be obvious to the public just might conceal an evil magician's handiwork, well exposed if you would just take a closer look.

What this guy seems to be saying is "resistance is futile." How do you say THAT in Latin?

Of course, his own "strategic, 3-dimensional thinking" is too weak for him to notice how extraordinarily well the Jewish bigot agenda, in its present alignment, serves that of Western Old Money. Who's really pulling whose strings? Based on which party has actually dominated the world for the past 500 years, my money's on the Western ruling class. The Jews are just their star dupes, and this is borne out in the way it is THEY who occupy an exceedingly perilous position. The Arabs will NEVER forgive or forget the humiliations and tragedies they've endured at Jewish hands these past 56 years. WHEN the Western global empire implodes to any degree (as soon as the oil runs out), the blue bloods are going to wash their hands of the Israelis in a thrice, and the Arabs will descend on them like so many snarling wolves. Israel will start nuking them without hesitation, of course, but Arabs are notably unconcerned about dying, and by the time Israel's down to its last nuke, even more people will want them all dead. Hell, if Western hegemony subsides enough, the Pakistanis will be right there, firing nukes off for the Arab side. Who knows who might have them by then.

It's not especially hard to see this bitter harvest in Israel's distant future, and this isn't the stuff of "supreme strategic thinkers," but of geopolitical cannon-fodder who've been maliciously led by their marked cultural predilection for racist extremism (just look at the racist paranoia celebrated in all their ancient religious holidays).

This guy "Conner" (appropriate name) is either a Jewish supremacist mouthpiece himself, or is contemptibly enthralled by their amoral pragmatism, i.e. corruption, which he idealizes as "strategic 3-dimensional thinking."

Warning: To the discriminating thinker it is important to realize that hatred of Judaic people is exactly the sentiment the rabbis seek to induce in the goyim (gentiles). This secret tactic is propounded in the Zohar.

If one hates Judaics or is part of an organization or subscribes to an ideology that has as its foundation the hatred of Judaic people, one is fulfilling the expectations of the Talmudic and Kabbalistic rabbis and playing directly into their hands. Ultimately, "Jew haters" are puppets of rabbis; they are acting a role in a psychodrama scripted by the Gemara and the Kabbalah.

Victory over Judaism and Zionism can only be achieved by detesting the wicked and murderous Judaic and Zionist ideologies and fearlessly exposing them for what they are, while loving those who have been deluded by or through them, including those who are advocates and practitioners of these most toxic of all ideologies. This strategy is not based on mystical, religious "Christianity," but upon the science of human relations as it applies to the psychology of paranoid totalitarian systems. This is the highest teaching one can impart on this subject and the only effective means of overcoming Judaism and Zionism.

Those who have gained a significant inside knowledge of Zionism and Judaism have historically fallen into the trap of hating Judaics, and as a result, either have had their power manipulated, coopted and redirected, or were neutralized and subsequently collapsed into oblivion and defeat.

You have been warned.

geez, did I just stumble onto the new Nazi message boards? I urge all of you to look up the Nazi propaganda used during World War II and compare it to the things you all are saying here. you will notice a chilling similarity. and while we are on the Subject, one of you mentioned Waco, TX. nice try, but remember, David Koresh was Jewish. so why would Jews Conspire to murder other Jews? and 9/11? come on! of course the first thing terrorists do once they attack is blame the attack on Israel. just like that 15 year old Palestinian Kid who was killed by Al-Aqsa Martyrs Brigade, and then the PA fabricates a story about Israeli tanks firing at him. but I suppose the Kid's own family members were lying when they Said the Martyrs Brigade killed him, right? for the love of God, People. get a Life. can anyone honestly say there are no CIA, or MI6 agents in Israel or other Countries? if you think there aren't, you are very Naive. I think you all need serious therapy. you wanna talk about people desiring World domination? how about this? #file\_1##file\_2##file\_3# Muslims Conspired with Nazis all the Time. (and apparently still hold onto the Hate Teachings) Haj Amin Al-Husseini (Arafat's Mentor) recruited the Hanjar Waffen SS Battalion, made up entirely of Bosnian Muslims. oh, but forget that stuff, right? because even though Jews control only 0.01% of the middle east, they still somehow have a grip on the whole world, right? HA! it's amazing. Muslims cut our heads off, blow up our Buildings, Kidnap our People, and we then blame Jews for it. who's hands do you think you are playing into with that kind of mentality?

Oh my G-d.

Is this indymedia, or a Nazi website?

There are no such things as Sayanim, just like there's no such thing as ZOG. You people make me sick.
