More and more people report us that they are receiving e-mails apparently coming from uruknet.info and containing a virus. We verified, and we assure that they don't come from us at all. We do not write e-mails to anyone if not explicitly requested (opt-in).

If you receive such e-mail, do not open it; please view "message source" (Mozilla) or "details" (Outlook Express) and verify if you see any IP address 213.203.151.218 inside it. Otherwise, let us know. Until now, all such infected e-mails contain it.
