# Wont Get Fooled Again?

Rixon Stewart - November 28, 2003

**'Meet the new boss, same as the old boss...'**

That line, from an old song by the Who, says it all. For in the wake of the Iraq invasion, a number of factors have become all too apparent. Firstly, far from being greeted as liberators, ordinary Iraqis have come to view British and American forces as an army of occupation, as indeed they are. Second, both Britain and America are getting sucked into a conflict that is getting bloodier by the day, and could ultimately assume Vietnam like proportions. Finally, at the time of writing, Saddam Hussein has still not been found and his Weapons of Mass Destruction, which were originally used to justify the invasion, are conspicuous by their absence.

So it's clear that Britons and Americans have been lied to. As a result ordinary Iraqis are dying and mounting numbers of Coalition forces are returning home in body bags.

As it dawns on people that they have been deceived, the popularity of Bush and Blair is sure to plummet. However this writer would like to sound a note of warning. For while there is a growing awareness that we have been misled, and as popular discontent grows, the ruling elites are already manoeuvring to exploit it. They are indeed about to use the growing unpopularity of Bush and Blair, to install their own chosen replacements.

In Britain, one likely candidate is the newly elected leader of the Tory Party, Michael Howard. He has all the credentials: he's a skilled political orator with a sharp mind but gathering round him, as he prepares to challenge Blair, are others of a more dubious provenance.

One such is his shadow chancellor Oliver Letwin, who like Howard is Jewish. More significantly he also happens to be an acting director with London based NM Rothschild.

Now if any one family is central to the emerging New World Order, it is the Rothschild dynasty. Their enormous wealth stretches back to the 17th century, when they first established themselves as moneylenders and goldsmiths in Frankfurt-on-the-Main. Since then they have amassed an untold fortune, largely through cunning, while keeping an extremely low profile. An illustration of this was the Battle of Waterloo, where Rothschild's agents were monitoring the fighting. As soon as it became evident that Wellington had defeated Napoleon, Rothschild's messengers rushed back to London, arriving hours before Wellington's own couriers. On arrival, Rothschild himself met them in London's Stock Exchange, whereupon he immediately began selling his own stocks.

Conspicuously.

Naturally the other brokers assumed that Wellington had lost to Napoleon,

and started selling their own stocks, at which point, other Rothschild agents bought up huge amounts at rock bottom prices.

Since then the Rothschild's have not looked back. Moving deftly through the worlds of politics, espionage and high finance they have quietly built an empire founded on deceit and delusion. Augmenting their wealth from generation to generation, until they are now without doubt one of the world's richest and most powerful families.

Moreover, their power completely transcends national boundaries. Thus Jacob Rothschild and other billionaires were on hand at his English country estate last year, to sanction Arnold Schwarzenegger's bid for the Governorship of California – the world's 10th largest economy.

Left to right: billionaire Warren Buffet, Arnold and Jacob Rothschild on the latter's estate last year.

Moving behind the scenes and away from the glare of publicity is essential to their success. Thus, the Rothschild's and their allies are able to choose political leaders and dictate what direction they will follow, while the public remains blissfully unaware of who is really calling the shots. They did so in 1993 at the Bilderberg meeting in Vouliagment, Greece, when Tony Blair was invited and approved as Britain's new leader. Thereafter John Smith, the head of the Labour Party died suddenly – and some would say suspiciously – to be replaced by the then Home Affairs spokesman, Tony Blair. Following that the ruling Conservative Party was rocked by a series of scandals, which were gloated over in the elite owned mainstream media, and which helped catapult Labour to a landslide election victory.

Now though, Blair has served his purpose and in response to increasing public cynicism, he needs to be replaced. And while the mainstream media makes much of public dissatisfaction with Blair over Iraq, they ignore the fact that Michael Howard was fully supportive of Blair's decisions regarding Iraq.

Still, Blair and Howard aside, the Rothschild's are the key players here. With their vast wealth they sponsor such politicians who in turn owe their positions to the dynasty, and who are therefore beholden to them. But who, if anyone, are the Rothschild's beholden to?

money. For years it's been rumoured that they were in league with far darker forces, which in turn helped them generate their vast fortune.

According to eyewitnesses, prominent enough to have visited one of the British Rothschild homes, the family are frequently visited by a figure from ancient mythology. It has been reported by more than one, that they set a place at their table (2) and often entertain an entity known to the early Persians as Ahriman.

Here a few words about Ahriman are in order, and what follows is largely based on the writings of Rudolph Steiner, a Christian mystic and teacher. According to Steiner, Ahriman is in his element in the material world, particularly the realms of banking and scientific materialism. Through these mediums, Ahriman strives to lock humanity in a world devoid of genuine spiritual impulses. A realm untouched by higher spiritual reality and limited entirely to base materialism, an element where Ahriman reigns supreme.

So it is no surprise that the Rothschilds, working in league with Ahriman, have excelled as bankers. It is a simple trade off: on the one hand Ahriman has bestowed upon them their financial wizardry, whilst on the other, the Rothschild's have enabled Ahriman to extend his thrall even further. Reaching out into the worlds of business, politics, and indeed across the very breadth of human endeavour. Ahriman is active from banking to scientific research laboratories and vivisection; where animals are routinely tortured and killed in the name of scientific research – but in reality sacrificed on the altars of Ahriman's 'scientific materialism'.

The Rothschilds have also played an important part of the history of the Seal of Solomon, otherwise known as the Star of David. Contrary to popular belief, the six pointed star was not even considered a Jewish symbol until the Rothschilds began using it (3). Prior to this, the Seal of Solomon was used by Arab Magicians, Cabalist Magicians, Druids and Satanists. However in 1822 the Rothschilds took this powerful magical symbol for their coat- of-arms. The name they adopted for their family actually comes from the fact that in the 17th century Mayer Amschel Bauer began hanging out a red hexagram in front of their house to identify it. Mayer Amschel then decided to take the name red-schild (Rothschild in German) after the red Seal of Solomon that they used.

So it is perhaps no coincidence that Israel, which uses the Star of David as its national symbol, was originally founded with generous financial handouts from the House of Rothschild. And here the bible is explicit: the reappearance of Israel and the return of Jews to their homeland marks the beginning of the 'end times' and the emergence of the anti-Christ.

According to occultist Alice Bailey, an occult hierarchy has a special group which she calls "the financial group", controlling all that can be converted into energy, and constituting a dictatorship over all modes of intercourse, commerce and exchange." (4)

Do the Rothschild's play a part in this financial group? Are they and their billionaire allies preparing the way for Ahriman to step on to the world stage?

It is worth pondering such questions as we approach the run up to elections in both Britain and the States. Because nothing is what it appears to be and behind the façade of normality, far darker forces may be at work. Like actors on a stage play, our political leaders may come and go. But behind the

Finally, for those unfamiliar with Steiner's work, Ahriman is more commonly known today as ... Satan.
