It comes with irony I went to the popular Israeli kosher restaurant in Arizona a number of times earlier this year.

For a reason of conscience I shall not divulge the name of the restaurant or its location, but let it be said this restaurant have the artwork cutouts of white doves carrying green olive leaf hung above the front entrance.

I hold absolutely no animosity towards the Jews as long as they stay conscientious enough to voice their resounding condemnation of Zionism and its depraved ideology of actively promoting to sow excruciating pain, monstrous abuse, unjustified thievery, ferocious hate, oppressive tyranny & bestial violence perpetrated against Palestine, Lebanon, United States, Great Britain and other countries victimized by its adept and wickedly clever ability to backstab by double cross.

Conscientious [anti-Zionist Jews](#) of good character as well as respectable moral standing (as far as their opposition to the vicious cruelty to other *Jesser* Jews and the humankind in general is concerned) is stereotypically perceived as the "lunatic fringe" minority by the biased Zionist perspective of the American, British & Israeli media.

The truth must be widespread by word of mouth and alternative media exposition to counter the overwhelming Zionist media propaganda as to the true extent of the evil of Zionism and its traditional practices of perversion, betrayal & deception.

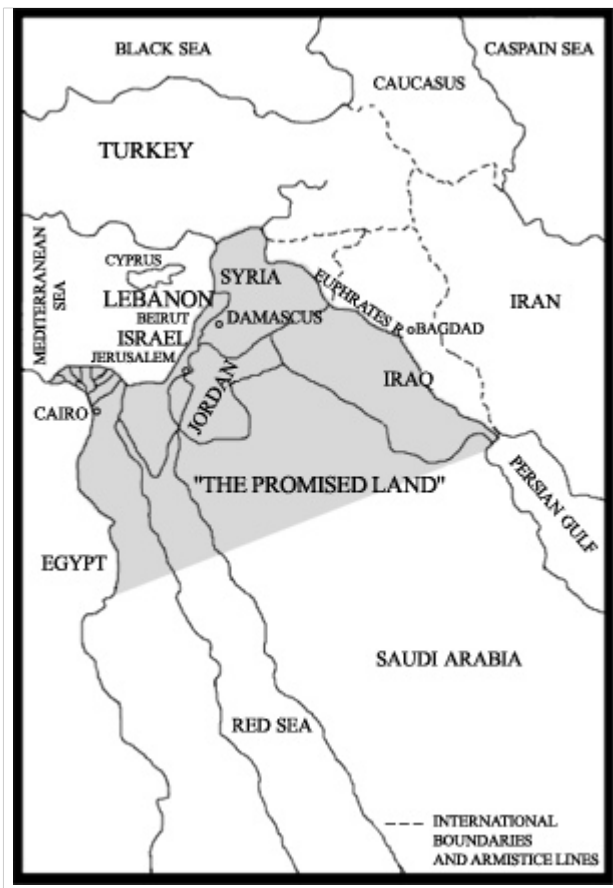

Jews of conscience must vigorously oppose the State of Israel's depraved Zionist beast machine that destroy everything in its path as it plows into the sovereign lands to covet and provoke by planned & deliberate acts of violence and destruction which the U.S. and the U.K. disgracefully sanction with an utmost amoral attitude as long as the powers remain steady in Zionist control to encourage and facilitate the massacres and indiscriminate aerial attacks that parallel the [loathsome](#) and [grotesque](#) atrocities committed with [sadistically cheerful fervor](#) and [complete impunity](#) by the invading [Imperial Japan](#) military on the offense in [East China](#).

The monstrous behavior of Israel's reason-vanquishing aggression have rendered the experiment a **colossal failure** which Harry Truman [probably regret](#) since he relented to the Zionists' massively immense pressure by way of the rapid barrage of enthusiastic propaganda rammed down the throats of Washington and the United Nations.

The conclusion of this failed experiment since the establishment of Israel in 1948 is that the babe flesh-gnawing blood-thirsty beast of Israel will end up sowing the seeds of terrifying destruction which may put the human civilization of not only the Middle East but also the Earth in grave danger in regards to the survival of humankind and existence of *Earthly life*.

Kind Sir,

I hope you are well; in good spirit and having a fruitful day.

Regarding your article:

I believe that you are correct in your general assessment of Jews; however, I have stopped using my funds at any Jewish establishment or any establishment, which is found to be sympathetic to Zionism.

While I can see your point, as you have stated, deception is very much a part of the Zionist equation. Therefore, I am aware that even some of those claiming to love peace, do so as a front.

I cannot risk my funds being used to further the Zionist cause; therefore, until Zionism is completely defeated, I will not knowingly enrich them.

Deception and lies have always been the trademark of Zionism. This is most unfortunate considering that our Father in heaven SPECIFICALLY forbids deception in His Law (The Torah).

We are the children of whom we serve, and those who practice deception are not children of The "IAM" no matter who they claim to be.

Learn the history.

Learn the history.

Learn the history.

Yes, Israel has made some bad choices. So have you. So have I. So has every country in the world. To bring the UN into it is absurd. To point to Israel as the worst perpetrator of human rights 'violations' in the world is crude distortion of reality. What about half the countries in Africa? China? North Korea? Even, the United States? Hell, while we're at it, Iraq? Iran? Saudi Arabia (possibly the worst)?

The fact that the UN has slammed Israel with a grossly disproportionate number of these 'proclamations' is the horrible, frightening truth that anti-semitism is alive and well; and that bigoted dunces like you still exist.

Anti-zionism=anti-semitism.

If Jews are so bad, then how come they treat the Israeli-Arabs among them better than any of their OWN countries treat their own citizens? How about that one?

Alright; destroy Israel. Great. Let's destroy the Middle East country with the most liberal laws, with the most open society,

culturally productive, and BELIEVE IT OR NOT, eager to embrace peace with their Arab neighbors, if they ever would want it.

Learn the history. Though, based on your comments, you are far too gone for any sort of reconciliation. I sincerely hope that you rot in hell, you Jew-hating, bigoted asshole.

Tobias,

Learn the history, indeed.

How do you arrive at the conclusion that anti-Zionism equals anti-Semitism?

Semitism refers to a group of languages used by various tribes of what we call the Middle East. Zionism is a political movement founded by Ashkenazi Sabbateans in the 1800s in Europe. The Ashkenazi, of Turkic/Mongol/Caucasian descent, are mostly Russian, Hungarian, Lithuanian and Polish. They are Jewish by conversion.

Roughly 95% of the population of Israel is Ashkenazi.

Sephardic Jews, those of true Semitic lineage, are second class citizens in Israel. Israel was designed by Zionists to function as a racist, Apartheid state.

Zionism is nobody's friend, least of all to true Jews, whom Zionism hides behind. Israel is, in fact, an anti-Semitic state, in that it daily murders true Semites.

Do the research and get a grip before you sling insults around.

The history of the Jews is know, well known, from before even the time of the Romans. You, Tobias, fall back into the vilest invective which is a typical component of the character that has seen our Jew and Jewess brothers and sisters expelled from 109 counties/regions since only the year 250 of the Common Era. Wonderful record that. No other race/religion or whatever you all are, can compare.

What appears to be confusing to the world and many that are sympathetic to Israel as a people is the Zionist Regime that runs the Government is not what the poeple of Israel are all about. Most of the common Jewish people despise their Government. It does not represent their values or interests. It is under the same

about GLOBALISM and perpetual WAR. They want power and control - not peace and prosperity. They do not care one bit for the common Jewish people who are now victims and are unwittingly being setup for another holocaust at the hands of their own government. What needs to be made absolutely clear is that there is a REAL difference between the Jewish people and its ROGUE ZIONIST government. Period!

Dear Gary, I can't accept your differentiation between the working stiff of Israel and their zionist masters. One of your own (assuming), Goldhagen of Montreal I believe, published "Hitler's Willing Executioners" in which he attempted to blacken the entire German race. Well I put this to you: How do you account for last weeks pictures of the children of Jewish working stiff happily signing their greetings of death on a truckload of artillery shells. Their teacher in the background seemed quite satisfied with this and the IDF soldiers in the same pictures were kind of indifferent but also content to let them express themselves this way. Such a scene blackens all of Jewry.

max hutchinson: fyi israel is 60% sefardic jews. get the facts straight if you can think beyond your next cup of tea.

what's wrong with a large israel? it still would be smaller than saudi arabia and the EU, China, Russia, and America. cant handle a little competition? where was your voice for morality during the British Empire? did you know that the Brits invented the concentration camp in the Boer War against South Africa? did you know that your famous Queen Victoria promoted zionism and called herself "Protector of the Jews"?

i hope israel gains its expanded territory, forces all moslems to convert to christianity, and kills all who refuse. that will bring us all the PEACE, SHALOM, SALAAM we all want!
