BREAKING! FASCIST CONSPIRACY, FUELED BY U.S. TAX DOLLARS TO LAUNCH THE 2ND COUP D'ETAT in THE BOLIVARIAN REPUBLIC OF VENEZUELA

By Arturo Rosales in Valencia and Ramon Santiago in Maracay. Axis of Logic Exclusive!
Nov 10, 2007, 16:40

Editor's Note: My two correspondents in Venezuela provided me with the following report based upon their meetings with government officials earlier today. -*LMB*

14 DEPUTIES IN NATIONAL ASSEMBLY COME OUT AGAINST THE GOVERNMENT

14 deputies are expected to go to the opposition side in the National Assembly between now and the December 2nd National Referendum to approve the constitutional reforms.

3 LEADERS, FORMERLY LOYAL TO CHAVEZ COME OUT AGAINST HIM

After ex-General and former Defense Minister, Raul Baduel came out against the constitutional reforms earlier this week, the Attorney General, Isaias Rodriguez and Comptroller General of the Republic, Cloudosbaldo Russian are expected to publicly pronounce their opposition to the Constitutional Reform proposals. Such traitorous actions will weaken the cohesive authority of the State and hence Central Government.

VENEZUELAN MILITARY PENETRATED

Raul Isaias Baduel, former Four Star General and Minister of Defense shocked the population when he came out against constitutional reforms last Monday, November 5, and is now working hand-in-glove with Podemos (political party now firmly in the opposition camp). Baduel has now joined forces with Ismael Garcia (General Secretary of Podemos) who consistently opposed the constitutional reforms alleging that they would constitute a single political line of thought in Venezuela. His position clashes with the pluralistic, democratic Articles 1 and 2 of the 1999 Constitution, so prized by the people. Plans have already been laid to launch candidates for mayors and governors in the 2008 local elections. This would be the new opposition to Chavez were it to succeed.

The 4th Armed Division in Maracay, formerly under of the command of Baduel is said to be

loyal to him. Moreover, the current minister of Defense, Gustavo Briceno Rangel has been a close personal friend of Baduel for 30 years just as Baduel has been a close personal friend of President Chavez for the same number of years. In a seminar with oil workers in 2003, Baduel stated that he had been offered \$1 billion to instrument the overthrow of Chavez and he stated that he turned it down out of loyalty to the Bolivarian project. Is this now about money or power? Earlier this week, in a public broadcast on VTV, Chavez stated, "Baduel is a traitor not only to Chavez – but to the people of Venezuela". In massive marches supporting Chavez this week, signs appeared everywhere declaring "Baduel – Traidor a la Revolucion!"

Baduel took an oath with President Chavez on December 17, 1982 in Maracay to create a Bolivarian Republic and overthrow the corrupt oligarch system which kept 80% of Venezuelans in poverty for 40 years. Baduel also stood by Chavez and saved the day during the 2002 coup attempt. This is the first hard evidence that the US-backed opposition may have penetrated the existing standing Army after the 2003 non-violent purge of the Venezuelan Armed Forces by former Defense Minister, Humberto Prieto. How did they do it? We suggest money and the desire for power now that petroleum has almost reached \$100-barrel.

Millions of dollars of US taxpayer money is being used through the auspices of the National Endowment for Democracy (NED-Washington) to buy the loyalty and consciences of all these men. In addition, a pronouncement by at least one high-ranking active military officer against the constitutional reform and against Chavez personally is expected in coming days.

SPAWNED IN JOINT MEETINGS BETWEEN THE U.S. STATE DEPARTMENT AND VENEZUELAN OPPOSITION IN PRAGUE, the CZECH REPUBLIC.

This is all U.S.-planned and supported following the meeting in Prague when Paul Wolfowitz, Madeleine Albright and Venezuelan opposition leader, Humberto Celli from the discredited Democratic Action Party (AD) met earlier this month.

MONEY DOESN'T SPEAK – IT SWEARS – BOB DYLAN

In addition to these dramatic findings, Carabobo State Governor Luis Felipe Acosta Carlez, one of the heroes in helping to break the opposition-inspired food shortages in their economic sabotage of 2002-2003, has been bought off by NED funds in Washington and is expected to resign as governor after making a deal with rancid oligarchy in Valencia.

The Washington-spawned plan is also bent on blocking major routes to cut off distribution of

food supplies in order to bring the population to its knees and with the hope they will demand Chavez' resignation.

URIBE'S PARAMILITARY SPAWN PLANTED IN VENEZUELA?

The plan also includes the use of Colombian paramilitary cells in Venezuela to arbitrarily kill innocent civilians and create chaos which they have been doing for the past month vis-à-vis the bourgeois student protests.

This plan also involves another economic sabotage - the closing of factories to lock out workers - just as they did in the national managers' strike in 2002-2003.

THE GROUNDWORK IS BEING LAID

The private media (mainly Globovision) is up to its neck in this conspiracy against the legally and constitutionally-elected government. Reruns of Baduel's speech and Ismael Garcia's interventions in the National Assembly plus raising the profile of Israel Rodriguez are currently being shown over and over again. We are certain that this is a matter of laying the groundwork for an attempt to overthrow the government. This groundwork is being laid to give media credibility to these men. The opposition believes that the people in the barrios will abandon Chavez for a new government under the leadership of traitors like Baduel, Garcia and Rodriguez. Also, they hope that the people will be intimidated to believe "there is no other way". This is directly out of the CIA handbook.

On a regional level, some who have claimed to be die-hard Chavez supporters have also been bought off to facilitate chaos on a local level and to disarticulate the influence of Central Government in cities and towns in all 24 Venezuelan States.

SOURCES

This information came to Axis of Logic correspondents, Arturo Rosales and Ramon Santiago directly from Venezuelan military intelligence. This information has been known for at least 3 weeks by the government. Proof: The same sources knew that Former Minister of Defense Raul Baduel would come out against the reforms before he made his speech on Monday, November 5. Therefore, while we are not making any hard predictions, our best intelligence indicates that some or all of the destabilizing actions described above will take place within the next few days or weeks.

Once again the opposition plans do not take into account the political awareness of the people ("el pueblo"). This was the major error of the opposition in the April, 2002 coup attempt and the economic oil sabotage of 2002-2003.

This week, Chavez held 3 pro-reform rallies

trans-Venezuela before going to Chile, in Carabobo, Maracay and Charallave and hundreds of thousands of people poured into the street to see and support their beloved president. Chavez obviously knows about the opposition/Washington plan and these mega marches were designed to serve as a warning to the Venezuelan, undemocratic bourgeoisie.

There is a very real possibility that a "flash-point" will occur, in the midst of these actions or to launch this plan such as hasn't been seen since the April 11, 2002 coup attempt, when President Chavez was kidnapped by the US-backed coupsters. In world history, there has been no humanistic Head of State comparable to him. Period!

Chavez is fully aware that this mega-conspiracy is not an objection to the constitutional reforms, but in reality, is another attempt to eliminate a democratically-elected Head of State. His awareness tells us that element of surprise has already been defused and his administration has plans in place to neutralize the actions of the US-backed, fascist opposition.

THE RISKS FOR THE OPPOSITION

The former Chavez supporters, bought off with millions of dollars by NED do not realize the risks they are incurring. If these plans go forward, "el pueblo" may not respond as peacefully as they did in the 2002 coup-attempt when Chavez told them to go back to their homes and be calm. Caveat Emptor! (Let the buyer beware!).
