ABOUT ME

MICHAEL A. HOFFMAN

"I think that they've given a strong message ... to the world, that I believe will bring a tremendous amount of comfort to Holocaust survivors." --Bernie Farber, chief executive officer, Canadian Jewish Congress.

"The sentencing today of Ernst Zündel also represents a slap in the face to Iranian President Ahmadinejad's hateful campaign of Holocaust denial that unfortunately has generated too much support in the Arab and Muslim world." --The Simon Wiesenthal Center.

67-year-old Ernst Zündel's "crime" is to blaspheme the religion of Holocaustianity's "execution gas chamber" shrine at Auschwitz-Birkenau.

Europeans have a long and ignominious history of burning, tormenting and imprisoning "heretics." Zündel is now numbered with Michael Servetus, Edmund Campion and countless other independent thinkers

whose ideas could not be contested, so they had to be silenced.

If Mr. Zündel really were a flat-earther, he would be laughed into oblivion. But the fact is, he has been a mentor to some of the elite scientific revisionists in the field, including former Max Planck chemist Germar Rudolf, who is on trial in Germany on similar charges.

The most disgusting aspect of the verdict against Zündel, aside from his incarceration, is the effect it will have on the Muslim world, which is sanctimoniously hectored by the West to permit more freedom of expression and to be less defensive about blasphemy of Muhammad. But the imperial West has deigned to create an exception for its own tutelary idols, about which no blasphemy may be countenanced, on penalty of five years imprisonment. The verdict against Zündel represents a resurgence of the Dark Ages and that fact will not be lost on Muslims.

This is not the last word on Ernst! The enemies of freedom have not broken his spirit. He has been on trial intermittently for twenty-seven years. In that time, he has never recanted, compromised, or uttered a single weasel word of accommodation to the Auschwitz flatulence, even though, had he done so, he might have received a lighter sentence or been released entirely.

Mr. Zündel stands today as an example of a man who speaks spiritual truth to overwhelming material power. His ideas cannot be contained by cages and bars. From Venezuela to Iran, a new world --a youthful world -- for whom the rotten, old, Skull-and-Bones mesmerism has lost its spell-binding hold, is watching and witnessing.

The verdict against Ernst Zündel is a searing indictment of the post-modernist West: a self-administered "slap in the face" not to Mahmoud Ahmadinejad, but to every jailer-rabbi and inquisitorial Zionist who applauds it. With each clap of their hands, their studied pose as the eternal victims is unmasked, and all that stands before us is the mentality that wrote the book on tyranny, in Babylon, circa 300 A.D.

[Hoffman is the author of "The Great Holocaust Trial," an account of Zündel's courtroom ordeal in Toronto in 1985].

This combination of propaganda and tyranny will create more anti-semitism than it will erase. Truth needs no laws to protect it

Zuendels defence should have and could have insisted to produce the tons of files in Arolsen Document Centre as evidence to prove that far less than 6 Million have perished in the "holocaust".. The judge too could have and should have introduced these to prove that 6 Millionen died in the "holocaust.
