## All Roads Lead to Dick Cheney

Most people know that Vice President Dick Cheney is former CEO of Halliburton, which makes billions of dollars a year from oil and primarily defense-related construction contracts (and that war and chaos increase Halliburton's profits, which in turn increase the value of Cheney's stock options). Most people also know that Cheney was secretary of Defense under George H. W. Bush.

Many people know that Cheney was a congressman from Wyoming. Some even know that he was one of the founders of the Project for a New American Century.

Well-read people know that the Project for a New American Century, in turn, called for a new American empire well before 9/11, and lamented that, without a "catastrophic and catalyzing event — like a new Pearl Harbor", transformation of America into an empire would be very slow.

But even well-informed people probably don't know that -- in the 70's -- Cheney was instrumental in generating fake intelligence exaggerating the Soviet threat in order to undermine coexistence between the U.S. and Soviet Union, which conveniently justified huge amounts of cold war spending. See also this article. This scheme foreshadowed Mr. Cheney's role in generating fake intelligence about Iraq by 30 years.

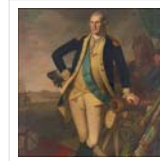

And did you know that Cheney has been perhaps *the* leading advocate for strengthening the powers of the White House to the point of monarchy for at least 20 years?

Or that newly-released documents show that Cheney was involved in debates concerning illegal wiretaps *30 years ago*?

Did you catch that the former director of the CIA accused Cheney of overseeing American torture policies? Or that Colin Powell's former chief of staff stated that Dick Cheney is guilty of war crimes for his role in facilitating torture?

And, according to to the Pulitzer prize-winning reporter who uncovered the Iraq prison torture scandal and the massacre

against Vietnamese civilians, Cheney is the main guy helping to fund groups which the U.S. claims are terrorists.

And guess who is the prime architect of efforts to bomb Iran?

Yup, Mr. Cheney (see also [this article](#)).

To recap, Cheney's past includes:

- Oil
- Defense
- Faking intelligence and using scare tactics about enemies to justify a pre-planned military agenda
- Lobbying to give the president the powers of the king
- Calling for an American empire and lamenting the lack of a "new Pearl Harbor"
- Police state type wiretapping
- Selling war
- Promoting torture
- Funding Al-Qaeda

Did all of these aspects of Mr. Cheney's background converge in the Iraq debacle? Well, a top official at the State Department stated there was a secret "cabal" involving Cheney, and that Cheney and a handful of others had hijacked the country's foreign policy.

Did they converge on 9/11?

This last question is not merely academic: vice President Cheney was apparently in charge of ALL 5 of the war games which occurred on 9/11 and coordinated the government's "response" to the attacks. See [this CNN article](#); and [this essay](#).

And Cheney is the one who monitored flight 77 for many miles as it approached the Pentagon and -- when a military man asked "do the orders still stand?" -- Cheney responded affirmatively:

"The plane is 50 miles out. The plane is 30 miles out." And when it got down to, "The plane is 10 miles out," the young man also said to the vice president, "Do the orders still stand?" And the vice president turned and whipped his neck around and said, "Of course the orders still stand. Have you heard anything to the

contrary?"

Watch the video for yourself (and see [this essay](#)).

Mr. Cheney's motive concerning 9/11 was strong. As a well-known writer said:

"For his entire career, he sought untrammelled power. The Bush presidency and 9/11 finally gave it to him . . ."

*Postscript: For the sake of brevity, I have left out numerous additional acts committed by Mr. Cheney. For example, you may have heard that the Energy Task Force chaired by Cheney prior to 9/11 collected maps of Iraqi oil fields and potential suitors for that oil. But did you know that a secret document written by the National Security Council on February 3, 2001 directed the N.S.C. staff to cooperate fully with the Energy Task Force as it considered the "melding" of two seemingly unrelated areas of policy: "the review of operational policies towards rogue states," such as Iraq, and "actions regarding the capture of new and existing oil and gas fields"? In other words, it is difficult to brush off Cheney's Energy Task Force's examination of Iraqi oil maps as a harmless comparison of American energy policy with known oil reserves because the N.S.C. explicitly linked the Task Force, oil, and regime change. Indeed, a former senior director for Russian, Ukrainian, and Eurasian affairs at the N.S.C. said "if this little group was discussing geostrategic plans for oil, it puts the issue of war in the context of the captains of the oil industry sitting down with Cheney and laying grand, global plans" (see also [this essay](#)).*

*Of course, Cheney has not acted alone in his actions. But he's been an important player in many different arenas and is, perhaps, the most widely-known figure who has had a hand in all of the above-described events. Cheney might not be the ultimate Mr. Big in these crimes, but he appears to have gotten his hands dirtier -- and to be closer to the true seat of power -- even than Mr. Bush.*

*In addition, while Cheney was not solely responsible for the above-listed actions, he hired many of the people who caused the mischief, such as the chief architect of the Iraq war - Paul Wolfowitz.*

Ok. So, could someone please explain to me in simple terms how back in 2001, cell phones rarely worked in jet liners (above a certain altitude) but the remote control technology was and is so advanced that elements in our government were able to control the "hijacked" planes. The remote control technology uses "line of sight" or what sort of relay systems? Just a skeptic here.

Thanks for a great rundown and links. Well done.

Just one quibble. Since no planes were involved on 9/11, and AA77 certainly didn't crash into the Pentagon that day -- it wasn't decommissioned until 4 years later -- we need a better explanation for Mineta's comments.

Yet no mention of the Israels involvement. Either your still blind and or just ignore it & call anyone criticizing Israel an Anti-Semite. I cant believe the truth community has split on this issue. Israel plays a BIG role in todays US govt. You can say PNAC did it but you never mention who were the authors. Those authors of PNAC originally wrote A clean Break which calls for a greater Israel in the mid-east(ethnic cleanse palestine). "surprisingly" it is meeting its agenda. MOssad played a big role on 9/11, F\*\*\* Loose CHange, bunch of misleading crap.

Anon,

The military had been successfully directing planes to take-off and land by remote control since the early 80s, there's info out there with video of this... They can use satellite and other means... The cell phone question is a good one if you follow it thru. Someone tested the ability to make cell calls in a plane shortly after 9/11 and had something like a .05 success rate or lower. How did the passengers make all those calls? A few years later a few of the airlines installed cell stations on the plane so calls could be made. Why do that when they were working on 9/11. Some used the airfones, and some used verizon wireless. The Global Hawk and the unmanned drones are examples of the military's technological capability, but their early successes with remotely flying passenger jets goes back decades.

John Doraemi said...

For skeptics, read this article and tell me again why you trust the US governemnt's story of 9/11:

No George Monbiot, These Are the Facts of September 11th 2001

<http://crimesofthestate.blogspot.com/2007/02/no-george-monbiot-these-are-facts-of.html>

As to the egregious disinformation that "no planes were used on 9/11," that's nonsense put out to discredit the real skeptics, those who think and research for themselves. These people pushing those "no plane" theories are not worth reading. If no one indulges them, perhaps they will go away.

There's only one important question concerning the attacks, did  
the US gov't allow/participate in 9/11?

The answer to that query would explain the illegal wire-taps,  
suspension of habeas corpus, banning of books like "America  
Deceived" from Wiki, detaining of dissenters in fences miles away  
from events, and multiple wars based on lies.

How can the gov't be innocent in 9/11 when we have caught it  
lying so many times (WACO, Ruby Ridge, no WMDs, USS  
Liberty, Operation Northwoods, Gulf of Tonkin, Pearl Harbor,  
ETC.)?

In law, if you determine a person lies ONCE during his  
testimony, it can be assumed that he lied in the remainder of his  
testimony. How come we do not hold the gov't to the same  
standard as it holds us to?

The gov't lied to us about Iraq and more Americans have died  
there than in 9/11. If the gov't lied about Iraq then why is  
everyone so reluctant to believe that the gov't lied about 9/11?

Most of what is listed regarding Dick's involvement, will not be  
taken literally by the rest of America until it has the holy stamp of  
the mainstream media.

When it comes to facing up to insider shenanigans within one's  
own government, America's patriotic's prefer to keep it's head in  
the clouds and live with it's eye's wide shut.

Just remember America , what they do to other nations , like  
Hitler and Stalin , the Roman empire did, they will continue to do  
so. Truth is not the threat to them as the truth stares them in the  
face every waking moment. An awakening is what speeds up their  
heat valves and sends a cold shiver down those crooked spines.

Cheney and crew are only testing the waters for now. If they can  
meet their goals of the Project of the Century and conquer the  
Middle-East's resources, then they will control the world. If they

can't dumb America down before it starts to develop a conscience, then they will turn on you. Again. But not with a "New Pearl Harbor" This time they will need a stronger effect. Like a "New Hiroshima."

Seeing how 911 inspired a cry for revenge and the people directed their trigger finger in whatever direction Cheney's neo-con's pointed. It doesn't take a genius to figure it out. Just common sense. If they can't keep the lid on this massive Pandora's box. They won't hesitate to make you forget 911 with something much worse. I'd like to think the odd's will increase against them with a better informed and concerned America.
