1. to milk us all dry so that Zion can be the center of humanity, and the second coming of Xrist is brought forth, and all that bullshit....

it is time we realize our "American Dream" is nothing but that, just a Dream, and we are all subservient to Zion.

once that sinks in, we may then understand that these situations like Ed Brown's are just sideshow roadkill.

Don Robertson, The American Philosopher said...

One can encourage the Browns all they want. It's a vile thing to do though. The Browns are falling headlong into a buzz saw.

They have virtually no chance of surviving their ordeal intact.

Egging on the Browns is like teaching young males they have civil rights. It should not be done.

The very first time any young male starts telling the constabulary about their alleged civil rights, they're going to get their teeth knocked out, the skulls crushed in, and a valuable lesson in exactly what civil rights anyone has in this world.

You have the right to keep out of harms way. If you should be so fortunate, life is good.

If you are not so fortunate, life is still good but, only as long as it lasts.

Don Robertson,

You should be calling yourself The American Cynic. "You have the right to stay out of harm's way"?? Sounds like you'd be right at home in Soviet Russia or prewar Germany.

The price of freedom is eternal vigilance, correct? It is brave individuals such as the Browns or that poor student in Tienanmen Square who stand up to tyranny,

that allow us our "Inalienable Rights" that our Constitution mandates our elected leaders protect.

I guess D. Fontaine missed the lessons on sarcasm... I've learned the lessons on civil rights that D. Robertson explained. Stand up for your rights, and the local constables will pass you a left (hook).

I'm not a native english speaker and i can understand the very black and sad humour in the Am.Philosopher... and think he's righth. D. Fontaine doesn't sound like a brave, much more like a bitter individual. BTW, I honestly think that thing were very better in Germany in 1938 than now in the USA. Hitler was ratified by the overwhelming majority of the population, all the ppl had work (all means all, 100%) , the joungs lived healthy (no drugs, no pornography, no gangs), there was a little and going down number of crimes, and economy was growing faster. you can't say that of any country now.

There needs to be more Ed and Elaine's in this world. The more people that understand their corrupt occult worshipping, sex slave loving government, the better. the irs is giving all of its a money to a PRIVATE BANK (FED RESERVE) just like FEDEX isnt a government program. This money doesnt even pay for services, and the private owners of this bank are the rulers of this planet. God bless Ed and Elaine for being strong enough to stand against them, and the more people

that know, the less people will pay. we are only funding an interest debt that the private bank has attached to our government. none of that money goes towards any services.

This sort of confrontation is exactly what the Zionists want! Play into their hands by facing off against them & all their guns - you'll become cannon fodder for the New World Order and usher in the new Amerikan way.

Instead, why not look at the real situation... you're receiving all sorts of benefits from government but don't want to pay for them: limited liability, Fed notes, credit cards, mortgages, etc... Everyone wants the perks but complains when their sovereign wants his cut. Break away and stop the insanity - restore your status and become a free person again.

I praise the browns for their courage. I recommend we all take a clue of their stance. Stock up on supplies and buy a gun. The revolution is just a matter of time. Be a part of the revolution or become extinct. We are better than our power-mongers, the proof lies ahead. Use your spirit wisely and you will be freed, freer than ever imagined on a new scale of existence. Feel your gut, your instinct, your intuition; It is telling you something, Isn't it?
