Chertoff Predicts Simultaneous LA/San Francisco Dirty Bombs

Someone I know attended a talk which Homeland Security Head Michael Chertoff gave today at the University of Southern California on port and supply-chain security and public infrastructure protection.

My contact reported to me today by email that Chertoff spoke about more "gut feelings" that he (Chertoff) has about a simultaneous Los Angeles / San Francisco dirty bomb attack that "our enemy is surely planning".

I've had a hunch for a long time that the next false flag attack will be on the West Coast, so that it seems that the whole country is under attack, and not just the East Coast.

Remember that the scenario was the Hurricane Pam exercise, etc. which involved three cities--New York, New Orleans and San Francisco. 9/11 was an inside job and there have been theories that New Orleans' levees were "helped" to fail. Now the "gut feeling" about another attack--I would be very worried if I were San Francisco. LA may have been thrown in to make the match up slightly less obvious.

Chertoff(a.k.a.) The devil as translated from Russian, has a gut feeling that he and the Bush terrorists plan to attack L.A. and S.F. with dirty bombs.

I'm telling you, these Edomites are sick and perverse creatures. It's time to start taking them out.

Chertoff (the devil) is the son of Edomite Jewish Bolshevik sub-human parents. Our biggest mistake, and one we are already living to regret, was to let those soulless animals within our

A “dirty bomb” is one type of a “radiological dispersal device” (RDD) that combines a conventional explosive, such as dynamite, with radioactive material. The terms dirty bomb and RDD are often used interchangeably in the media. Most RDDs would not release enough radiation to kill people or cause severe illness - the conventional explosive itself would be more harmful to individuals than the radioactive material. However, depending on the scenario, an RDD explosion could create fear and panic, contaminate property, and require potentially costly cleanup. Making prompt, accurate information available to the public could prevent the panic sought by terrorists.

A dirty bomb is in no way similar to a nuclear weapon or nuclear bomb. A nuclear bomb creates an explosion that is millions of times more powerful than that of a dirty bomb. The cloud of radiation from a nuclear bomb could spread tens to hundreds of square miles, whereas a dirty bomb’s radiation could be dispersed within a few blocks or miles of the explosion. A dirty bomb is not a “Weapon of Mass Destruction” but a “Weapon of Mass Disruption,” where contamination and anxiety are the terrorists’ major objectives.

6:37 PM

Anonymous said...

It's important to remember that a 'dirty' or radiological bomb will most likely be VERY limited in scope and/or coverage... i.e. only affecting a geographical area where the debris is scattered by the blast which is via non-nuclear explosives... that could be as little as several hundred meter radius

HOWEVER the Neo Cons and Bushites who will certainly be the ones behind this stunt have to keep in mind the far reaching ECONOMIC impact of contaminating the ports of two major west coast cities...

6:40 PM

Anonymous said...

Oh I believe Chertoff completely, since it would certainly be Chertoff's own gang of thugs that would perform this job on America.

Therefore...the only logical response to such an attack is to counterattack Chertoff and his gang of thugs.

But if anyone ACTUALLY had any brains in America, they would just round just up this stupid clown before it actually happened, since him and his cronies are already guilty of treason to begin with.

The very fact "this hasn't happened yet" makes this ENTIRE nation of AMERICANS a BUNCH OF REAL LIFE HYPOCRITES.

These guys are monsters. I agree that Chertoff should be arrested immediately.

This isn't information being offered to us. It is a threat.

I have always thought they would attack San Fransisco next because of the 911 truth movement there. And it is the west coasts turn.

Don't hold your breath for the next presidential election. Likely there won't be one if the feds carry this one out.

Live now and be happy while you can.

ciao

Can anon #1 pls post a link re: hurricane palm? thanks in advance.

re: weapons of mass disruption spreading fear and panic, of course that could be easily managed if the mass media were in on the affair.

A "dirty bomb" is one type of a "radiological dispersal device" (RDD) that combines a conventional explosive, such as dynamite, with radioactive material.

hmm.. like the thousands of tons of DU/Explosive rounds the US has fired in Iraq?

Funny that the media **never** makes the most logical connections.

Another 'terror' attack coming soon. Let us reflect on the prior false-flag event:

There's only one important question concerning the attacks, did the US gov't allow/participate in 9/11?

The answer to that query would explain the illegal wire-taps, suspension of habeas corpus, banning of books like "America Deceived" from Amazon, detaining of dissenters in fences miles away from events, and multiple wars based on lies.

How can the gov't be innocent in 9/11 when we have caught it lying so many times (WACO, Ruby Ridge, no WMDs, USS Liberty, Operation Northwoods, Gulf of Tonkin, Pearl Harbor, ETC.)?

In law, if you determine a person lies ONCE during his testimony, it can be assumed that he lied in the remainder of his testimony. How come we do not hold the gov't to the same standard as it holds us to?

The gov't lied to us about Iraq and more Americans have died there than in 9/11. If the gov't lied about Iraq then why is everyone so reluctant to believe that the gov't lied about 9/11?

Final link (before Stark County District Library bends to pressure and drops the title):

It's been six years since the last attack on America, which means:

A. Our Homeland Security specialists are batting a thousand. (they should give lessons then to the DEA, and Customs)

B. The terrorist cells operating in America are incompetent dumbbells, who can't blow up a single Toyota. (they should take lessons from the Mossad... er Iraqi insurgents)

Mr President didn't you make the comment that you didnt fight King George the Third to become King George the First. Maybe we now have our King George the First in the guise of a pea brained politician from Texas. You guys, the founding fathers who I idolize here with a passion, saw things with far better clarity then are being seen today. I am sad for you guys. I have a deep gut feeling that if you all were here today you would be extremely angry at the way America is. Old Ben was right about the jews. Even though I am a female you guys will always have a special passionate place in my heart.

Chertoff is a dual citizen Israeli. Only a Zionist traitor, like Bush, would put such a person in charge of DHS.

1:49 AM

Anonymous said...

In effect you have Israel in charge of our security. Which I resent, as should every American. Wake up America, Zionist Israel is your ENEMY. Before you retire for the night ask yourself; "Is my government supporting the Constitution or the interests of a foreign power".

Can you clarify this statement please?

"I've had a hunch for a long time that the next false flag attack will be on the West Coast, so that it seems that the whole country is under attack, and not just the East Coast."

Are you talking about 9/11 as the East Coast?

Also, do you have anything to back this other than a friend sent me an Email? I would really like this information. I had posted on my blog this past week about Jerkoff, uh, Chertoff and his Spastic Gut. I know this kind of info is hard to get, is there a transcript anywhere?
