

# BBC Video of Pentagon Plane

*“He knew beforehand that the bombings would take place. It was not difficult to see that Barak came with a pre-written speech as he is quick to point out all of Israel’s enemies”[i]*

— *theunjustmedia.com* — on Barak’s prepared speech, during 9/11 attacks.

**Ehud Barak appears on *BBC*, while in the background played a video of a 757 attacking the Pentagon.**

On the morning of 9/11/01, Ehud Barak, the former Israel’s prime minister was in London doing an interview with *BBC*. *He came on the BBC at the precise time of the attacks!*

While the whole world was stunned former Israeli Prime Minister Ehud Barak appeared from *BBC*’s main office in London with a pre written/prepared speech. He spent 30 minutes speaking about how dangerous some “Islamic” countries and terrorists are. At the end of the interview, the news reporter stated that Mr. Barak joined him an hour before it was broadcasted, meaning Barak was there even an hour earlier. In real time of events this means he was there within minutes of the blast, with a pre-written interview.

He knew beforehand that the bombings would take place. It was not difficult to see that Barak came with a pre written speech as he is quick to point out all of Israel’s enemies which he calls “rogue states”. The answers to the interview were carefully prepared to use public sentiments created by the blast, against enemies of Israel.[i]

BBC video of the plane while Barak gives a prepared talk on terrorism (Video: *BBC*).

## **Is the aircraft in the video a 757–200?**

During this interview, this footage shown by the *BBC*, claimed to be the plane that hit the Pentagon. It shows the plane being filmed from underneath, however, it doesn’t show the impact. Later they show the Pentagon on fire in the background.

The aircraft in the *BBC* video has some qualities that distinguish it from a Boeing 757:

- The aircraft seems stockier, with a shorter nose section (like a 737).
- It has a whitish bottom, not a silver reflective one that the American 757 has.
- The engines are not as visible in front of the wings as a 757 has.
- The increased sweep of the wings seems more consistent with smaller aircraft.

## **Why wasn’t this video shown in the U.S.? Was it too contradictory to the official story?**

If indeed it is the aircraft that allegedly hit the Pentagon then it doesn’t support many of the official government’s claims. Some observations and/or contradictions:

- The path that the aircraft is on is a routine approach to runway 15 at Reagan National Airport.
- The aircraft appears to be in a dive, and not on the almost horizontal trajectory of the *official path*.

- That it was not clipping lampposts, it is too high and the view is completely from underneath.
- All those claims of witnesses seeing intricate details, like passenger's faces, etc. would be even more impossible to believe.
- This appears to have been filmed from a wooded area, just below the bottom left of the aircraft — likely from Arlington National Cemetery as opposed to coming down the boulevard.
- The film does not show an impact — it is consistent with a *flyover*.

### Do eyewitnesses support the video?

Both ACPD Corporal Barry Foust and Officer Richard Cox said that they “Saw a large American Airlines aircraft in steep descent on a collision course with the Pentagon.” And Lt. Col. Stuart Artman, a commercial airline pilot of the Army Reserve, was walking near the Washington Monument when he saw the presumed plane: “I saw the plane that hit the Pentagon. It went behind some trees.” Then he saw the smoke.<sup>[iii]</sup> Notice that he didn't say he saw the aircraft strike the Pentagon — *he presumes that it does*. There are numerous rather vague testimonies of this sort... they believe that they saw an approaching aircraft — but don't explicitly see it crash. Did the “aircraft” these people see actually strike the Pentagon? ... Or did it look like it might?

(Video: BBC).

### Was someone pre-positioned in Arlington National Cemetery with a video camera?

Who made the film? Compare photos shot from Arlington National Cemetery (ANC) with the video — the same sort of trees are in the foreground and the Pentagon's perspective is similar. Was the preprogrammed Barak's interview just a coincidence? And what was the extent of Israel's involvement in 9/11?

BBC video shows ANC when the camcorder pans down (Video still: BBC).
