## The "HOLOCAUST INDUSTRY".. Now mandated by State Law

Official Code of Georgia Annotated, Section 50-12-130  
Statutes and Session Law

The General Assembly finds and declares that:

**(1) During the period from 1933 through 1945, six million Jews and millions of other Europeans were murdered in Nazi concentration camps as part of a carefully orchestrated program of cultural, social, and political genocide known as the Holocaust;**

(3) It is desirable to educate our citizens about the events leading up to the Holocaust and about the organizations and facilities that were created and used purposefully for the systematic destruction of human beings;

(5) Programs, workshops, institutes, seminars, exhibits, and other teacher-training activities for the study of the Holocaust have taken place during recent years at various middle schools, high schools, colleges, and universities in this state; and

(6) It is desirable to create a permanent state commission which, as an organized body and on a continuous basis, will survey, design, encourage, and promote implementation of Holocaust education and awareness programs in Georgia and will be responsible for organizing and promoting the memorialization of the Holocaust on a regular basis throughout the state.

And, from the state of Missouri statute web page:

**5. The term "holocaust" shall be defined as the period from 1933 through 1945 when six million Jews and millions of others were murdered in Nazi concentration camps as part of a structured, state-sanctioned program of genocide.**

### [Missouri Law](#)

*Genocide of a people is a repugnant act. But mandating the teaching of only one genocide is not the way to educate our young. Deliberately leaving out portions of history only ensures ignorance.*

*Does this law forbid the teaching of the Armenian Holocaust? Or the genocide of the Native Americans? If so, does that mean it is VERBOTEN to teach about other holocausts?*

*If a teacher does try to TEACH about other genocides, will he/she be disciplined?*

*What's the next state law regarding the Holocaust Industry--copyright applied for? The law that says no other holocaust shall be discussed, wrote about, or taught? Any and all violations of this law will be punished by law?*

*How many other states have this odious piece of legislation?*

Jews know they must pump their excrement into Gentile children's skulls while the kids are still forming their opinions about the world. Statutes give formal support to this hideous process.

**Question:** Is it VERBOTEN to teach about other holocausts?

**Response:** No, but other holocausts may not be called "holocausts." A "holocaust" is when a Jew has anything less than total privileges and control. By contrast, when Gentiles are murdered, their deaths are merely an "item." (The fact that the Jewish holocaust never happened is irrelevant.)

**Question:** If a teacher tries to teach about other genocides, will he/she be disciplined?

**Response:** Yes, if the teacher uses the terms "holocaust" or "genocide" in any context outside of Jews. Moreover a teacher must obsessively focus on the "holocaust." To mention anything else is a "violation of the curriculum," and will bring dismissal.

**Question:** What's the next state law regarding the Holocaust Industry--copyright applied for?

**Response:** Yes, it is surprising that Jews have not yet copyrighted the terms "holocaust" or "genocide." They will do so soon.

**Question:** How many other states have this odious piece of legislation?

**Response:** Interesting question. I suspect that two thirds of American states already have similar statutes.
