## Israel's Conquest of America - Canadian Author Signs Publishing Contract with Dandelion Books

Coming soon from Dandelion Books is Canadian author Greg Felton's definitive study of "Israel's conquest of America and its use of the U.S. economy, government and military to terrorize the Muslim world." "The United States became midwife to a war crime when it endorsed the creation of Israel in 1948 and blackmailed European nations into supporting it," writes Felton. "From this time forward, the Zionist parasite began leaching off the U.S."

Tentative publishing date for *The Host and the Parasite: How Israel's Fifth Column Consumed America* is January 2007.

Writes Felton: "The Sept. 11 attack was to the Zionist junta what the Reichstag fire was to the Nazis. It created the seminal moment of contrived paranoia that allowed the junta to pass the Orwellian USA PATRIOT Act, by which the U.S. became a de facto police state, a necessary step to put the junta above the law so that it could bastardize the constitution to serve the greater good of Israel."

"The demonization of Muslims is the key tactic that makes mass murder, torture and gross violations of civil liberties possible," states Felton. "Al Qaeda is a myth concocted to manufacture a common enemy so that people would accept invasions of privacy and tolerate the mistreatment of Muslims."

Felton, a Vancouver B.C. native, has won several awards for his investigative journalism. He now specializes in Middle-East and Canadian politics, media analysis and language. He writes a political column for the bi-weekly Arabic/English Canadian Arab News, and his articles also appear on [whatreallyhappened.com](http://whatreallyhappened.com), [medimonitors.net](http://medimonitors.net), [rense.com](http://rense.com) and in Middle East Times, Tehran Times and other publications.

Known for its uncensored truth-seeking books written by reputable journalists and investigative reporters, Dandelion Books is the publisher of *Seeds of Fire*, *China and the Story behind the Attack on America*, by Gordon Thomas. As soon as it was published, it was pulled from bookstore shelves and all Gordon Thomas media appearances were cancelled.

Dandelion authors include: the late Sherman H. Skolnick, Jaffer Ali, John H. Brand, Naeim Giladi, Norman D. Livergood, Wayne Madsen, John Kaminski, Kurt Nimmo, Albert D. Pastore, John Stanton, Michael E. Salla and Kathleen Sullivan.
