It's Odd For Israelis To Expose Themselves

For ninety years the Judeo/Bolsheviks have used their Communist state of Russia as the bad guy. The world accepted the mysterious Evil Empire without looking at who really were the conmen behind it all.

In Hungary the people are so sick of the Judeo control, the recent economic measures (wealth transfers), they are actually going after the Jewish ruling class. Israel has decided to step in before this spreads to Germany, which is really ripe. Then you have Australia and Canada, who are really becoming sick of the 'Gilded Class'.

You take an event like the Port Arthur Massacre, expose it through the internet, suddenly a pattern is visualized. When Australia's economics start to deteriorate, like Hungary, the torches and pitchforks will come out.
