The future of Internet radio is in immediate danger!
 The Copyright Royalty Board in Washington, DC has more than tripled the royalty rates for webcasters and if left unchanged they will *KILL* Internet radio. These exorbitant rates go into effect on May 15, less than a month from now (retroactive to Jan 1, 2006!). Without Congressional action the majority of webcasters will go bankrupt and silent on this date. We need your help. Please take a moment to [send a letter to your member of Congress](#) to keep Net radio from being silenced.
