Iranians find cure for AIDS!

Ahmedinejad just upped the ante.

Now, if the US and israel dare to attack Iran, they would not only destroy the country, but also the knowledge behind the cure for AIDS that Iranians have discovered - making the attack even more egregious and outrageous than ever before!

This announcement truly is a stroke of scientific and political genius. What will he come up with next???

"Giant achievements" by Iran will be unveiled by its president, Mahmoud Ahmadinejad, in the coming days, the Iranian Fars news agency reported on Saturday.

The Iranian news agency said an upcoming dramatic announcement on Iran's nuclear "rights" would be made on February 11. The report was accompanied by a series of announcements **heralding alleged Iranian technological and medical breakthroughs, including an "AIDS cure."**

Ahmadinejad's "administration is going to publicize the country's remarkable progresses and achievements within the coming days," the Fars news agency said.

"The Iranian president also reiterated that **February 11 is the day when the Iranian nation's inalienable right to access and use nuclear technology will be established,**" the agency added.

"The Iranian nation will celebrate stabilization and establishment of its nuclear rights during the Ten-Day Dawn, (sic)" Ahmadinejad was quoted as saying. The "ten-day dawn" in early February marks the date of the Islamic revolution in Iran in 1979.

"When a nation decides to stand on its own feet to climb up the peaks, God helps it and that nation will embrace victory," Ahmadinejad said.

The Iranian government's boasts of **"great achievements"** included an announcement on Saturday that Iranian scientists have **"introduced an AIDS cure"**.

"After seven long years of arduous work, Iranian scientists here on Saturday introduced a herbal medicine which cures Acquired Immune Deficiency Syndrome (AIDS)," Fars reported.

"The drug named 'IMOD' is completely effective and safe with no proven side effects," Iran's Minister of Health Kamran Bagheri Lankarani claimed during a ceremony.

"The world should know today that the capable Iranian nation, relying on its own youths and scientists, has now conquered the peaks of knowledge and science," Ahmadinejad declared during his speech.

If the world is lucky, the Iranians have found not only a cure for AIDS, **but one for Zionism as well.**

There were a couple of glitches.

Something screwy is going on and I am investigating.

[Excellent post!](#)

Iranian Health Minister Lankarani says the herbal-based medication (IMOD) -- when used in conjunction with other anti-retroviral medications -- enhances the body's resistance to the HIV virus. IMOD is partly based on a South African folk remedy that combines garlic and beetroot: two plants known to boost the immune system. The Iranians add deuterium oxide, or "heavy water" (2H20) from their nuclear program. "Heavy water" is not radioactive, but it does inhibit mitosis in T-4 cells that help carry HIV. Too much inhibition is deadly, since it also prevents mitosis in skin cells, plus blood cells, etc. However, western oncologists have already used "heavy water" to inhibit cancer in specific locations. The Iranians are now experimenting with body-wide uses. IMOD is no "cure" but it is a viable approach, and could become a fifth generation of HIV medications.

Yes, it's propaganda (the Iranians want to show that their nuclear program yields benefits) but there is sound science behind it. One advantage of the IMOD approach is that it's easier on the kidneys than other HIV medications are. "Heavy water" builds up harmlessly in the kidneys, and is flushed by having the patient drink lots of regular water.

The Iranian Health Ministry is serious, and does a lot more cooperative research with Israeli specialists than the outside world realizes. Ultimately the Israeli population itself is led by insane madmen as much as the US population is.

Eventually the human race will evolve past AIDS. The human genome contains "lesions," like the rings of a tree, which show that we've had retroviral pandemics before, and evolved past them. We will evolve past the Zionist virus as well.

++++

Incidentally, I see that today the Ayatollah Seyyed Ali Khamenei (the real power in Iran) met with President Musharraf of Pakistan to discuss bilateral relations and regional issues.

You can bet the White House immediately got on the phone to Musharraf and asked what THAT was all about. Anything to do with Pakistan is extremely crucial to the Bush / Zionist plan for the Middle East, and not just because Pakistan has nook-yu-ler weapons.

[Hello QRS](#)

As you know, a week ago or so, I was having trouble coming on. But I haven't had a difficult time recently. I hope your glitches are just that and nothing else.

[Big Drug Companies](#)

I think there have been cures found in recent years for many ailments, but the big drug companies (usually owned and/or controlled by Jews) want to keep people sick - they make HUGE money from all the expensive drugs currently prescribed to AIDS patients!

So, because many wealthy Jewish Supremacists have a big stake in keeping people sick, any cure for AIDS will NOT be distributed in America or other Zionist-controlled countries. They'll create lies about deadly side effects of this or any other cure, then we'll hear about it in the media, and sadly, most sheeple will believe whatever the Jews and their Goy employees on TV tell them.

[The comments on that Ynet link are disturbing](#)

I read as many as I could stomach, looking for an open mind or someone who is open to peace. Nothing but hate - good old talmudic sabbatean hate - following their anti-commandment to "Hate your neighbor as you hate yourself".

By the time I hit the back key, I felt like taking a long shower.

[But a Rabbi beat then to it :P](#)

Am sure the audience here will find this amusing. When it comes to 'cures' and so on, I take things with a grain of salt, but if what this man says is true, then there is already an AIDS 'cure' patented in the US that is being withheld as the epidemic grows.

[Interview with Boyd Graves:](#)

SM: Your research reports that there was/is a cure for AIDS.

BG (Boyd Graves): Absolutely. The Flow Chart has five phases. In Phase IV A are immunological controlled experiments where they developed the inhibitors, the vaccines, as well as the cure for HIV/AIDS before it was released. There is a cure for AIDS patented in, I believe, October 1997, a one-time injection that eradicates the HIV/AIDS in the blood system without any side effects....

...SM: What is this cure called?

BG: Tetrasil. It has a second name, which is Imusil. The patent number is 5676977.

SM: Who has the patent on this drug?

BG: **The patent was issued to Rabbi Dr. Marvin Antelman of Morantech Corporation in Providence, Rhode Island.** In my research and contact with Rabbi Dr. Antelman, he told me he had a college relationship with Dr. Gallo, who had stolen something that he and others had been working on. That led me to think that perhaps Dr. Antelman was given the AIDS cure as a payback by Dr. Gallo. There is a connection between the AIDS invention and the AIDS cure patent program....

Also, here's a page with a broader timeline:
