Are the Israelis Thinking About Capturing David Irving in Budapest?

According to an Al Jazeera article some 100 Israeli soldiers arrived in Budapest Hungary a few days ago. David Irving is scheduled to speak in Budapest on March 12, 2007 - March 15, 2007.

A couple of years ago the Israeli Knesset [Parliament] passed a law stating that Israeli's could if they wanted, capture "holocaust deniers" anywhere in the world and bring them back for trial in Israel.

Are they thinking about catching Irving in order to set a bit of precedent?

The Jerusalem Post did a write up on this new law in July 2004 when it was first passed - here is another copy of that article by Nina Gilbert of the JP [See article here]

Budapest under Israeli Occupation?

The Men in Blue have arrived- The murderers and child killers in blue arrived on the 9th of March.

200 Israeli solders in their standard blue uniforms as a "military delegation" arrived in four buses - windows covered - to the center of Budapest to a huge city block sized synagogue. They did get out of the bus and walked into this center of unrestrained human love and source of all wisdom for mankind.

They were also received in the Hungarian Parliament by Mr. Laszlo Mandur before they drove to the synagogue.

Obviously the intention is to house them there in the center of the city, within a few hundred yards from the spots where all the action will be played out on the 15th of March. Interesting that the Israeli Supreme Court just made a decision that it is forbidden to use civilians as human shields for Israeli soldiers. How will these fine people protect themselves in our country now?

We did have a similar event: A few days before the 23rd of October (last year) a U.S. military transporter with a few hundred soldiers and what else was parked in a corner at the Budapest airport. It was obvious that they were their in preparation to help to emigrate our beloved Prime Minister, Mr. Gyurcsany and his family either to the U.S. or Israel, in case if the need suddenly arrives.

Generally, the government and the media is trying to create maximum hysteria in advance in order to justify the coming beating, blinding and maiming of Hungarians on the 15th of March. This is the day when the Hungarian war of independence broke out against Austria in 1848. When the Hungarians won against Austria the Russians dutifully sent in an army to help out...

We do have around a hundred celebrations and demonstrations already lined up for this day.

The local Jewish organizations are openly promoting to their members to spend the very long weekend starting on March 15th in a foreign country.

This writer is sitting here in the middle of this whole mass, speaks the language, has access to all possible information sources and he is familiar with all local customs and history, still it is increasingly difficult for him to separate reality from hysteria. The whole country is shifting into lala-land and there is only one fix point: The local Judeo-Bolshevik government increasingly depends on 30,000 policemen to survive from week to week. It just might turn out to be a very long and hot summer this year.

The government and their well paid and numerous agents keep complaining that the rebels are importing firearms into the country. No proof was ever provided. The whole thing sounds like an urban legend to justify the dramatically increasing expenses for police hardware.

If the Hungarian government has in mind to compromise its sovereignty by letting Israeli military perform an illegal abduction in its country there will be no option than to expel Hungary from the EU immediately. If that does not happen not only has Hungary become a colony of Israel, but so has the EU at large.

It should be remembered that this criminal Zionist regime has refused the extradition of a war criminal to Poland, where he is wanted to stand trial for concentration camp crimes.

It is obvious that Israel is sincere when it expresses that "we may judge others, but nobody will ever be allowed to judge us" as expressed by war criminal Sharon.

If we are seeing the activities of the NWO - and as the PC Apostate has pointed out - this is in fact a "precedent setting" abduction, it is NOT illegal, as the Israeli kneset already passed its law and Hungary would merely be "allowing a sovereign ally" to abduct a criminal. Remember the NWO is essentially a single entity - it destroyed the "nation state" long ago. Internationalism at its finest.

The more I learn about the behavior of the Israelis, the more I become convinced that the "atrocities" committed against Jews during WWII are either complete fabrications or wholly justified.

I don't know if the following story has any relation to your post about the Israelis who arrived in Hungary. It appeared in the Polish media and I haven't found an English version.

Basically, it tells of an Italian living in the Kazimierz District (mainly Jewish) of Krakow who was beaten by several members of the Israeli security service. Here is a rough translation/recap:

[caption under photo] Sprained shoulders, bruised and sore wrists, back and stomach. This is how Roberto L. looks after an encounter with members of the Israeli security service. He was beaten in the Kazimierz District of Krakow after he asked that the driver of the Israeli tour bus turn off his engine.

Roberto L. has spent several days in a hospital under observation.

Every day the people living in the Roberto L.'s building as well as several others on Dwajor Street have to deal with tourist buses running their engines under their windows. There is room for only three buses in that spot but the drivers continually ignore this rule. The lives of the people living at this location is a nightmare of fumes, noise and vibration from the running engines. On Wednesday (March 7, 2007) there were five buses which kept their engines running for over 20 minutes. Roberto went up to the driver of the first bus and asked if he would turn off his engine. The driver ignored his request. Suddenly, a passenger stepped down from the bus and pushed him and soon after four others from the other buses came towards Roberto. He got scared and picked up a large stone. The others hesitated, but when Roberto put the stone back on the ground they attacked him. "They manacled me with plastic handcuffs and twisted my hands all the way up to my head. They threw me on the ground and my face was pressed in dog waste. When I tried to get up, they kicked me all over. Suddenly they went back to their buses and left."

Michael Soberman, the press attache at the Israeli embassy apologized. He said it was a misunderstanding and the incident will be investigated. The members of the Israeli security forces stated that the children on the bus were endangered, that [Roberto] threw an „unknown object“ into the bus.

The Polish authorities will conduct their own investigation which might difficult since the Israelis had diplomatic passports.

This type of thing is what the Israelis usually leave behind...the Israelis' statements sound very much like the IDF excuses—first they lie, then they retract.

The entire Old Testament is mostly the story of Israel suffering the consequences of transgression against divine laws. To the extent that they continue to transgress, they will reap the consequences, no one need rail against them.

You anti-semites will get what is due. We will hunt you
holocaust deniers who are actually holocaust lovers wherever
you are. We have the support and backing of the American
People to take you to Justice. Yes, I said TAKE you. Hungary is
ours for the taking. You must comply. You have no choice. One
hair on our heads is more valuable than a thousand of you
gentiles. Your women and children included. Christians should
know better than deny God's chosen people. Long live Zionism
and Israel!

hell on Earth. How much longer can these evil absurdities reign

I'd like to say something to the person who criticised Christians
and expects Americans to help Israel. You should be ashamed of
your words and then expect us to give our lives for you when
Jesus Christ said that we are only to give our lives for him or
for those who love him. So, the only reason why we Christians
help Israel is that Jesus Christ stated that he'd be coming back
to rescue all his people and those people are those who try to
follow the 10 Commandments, love thy neighbor, as well as
give to the poor and do good works. When we Americans are
willing to get into wars against Islamic militants for apparently
no reason when we could easily give up oil and go with Green
Energy that means that we're fighting against Muslim countries
to protect Israel since there are some Israeli's who are peaceful
and loving there. So, why can't you Israeli's make some friends
for a change in nations like Poland, Hungary, Lebanon, etc...
instead of using trips to foreign lands to arrest people for using
their freedom of speech? Here in America we have true
freedoms that you Israeli's still haven't demanded that your
government give you such as that we Americans can say or print
anything we want about anyone (especially our dim witted
warhawk President Bush) and no one can arrest us because of
the Constitution and the Bill of Rights which we believe were
inspired by Jesus Christ himself (since we do have the freedom
of speech, press, religion, womens rights, the right to do
anything we want on the sabbath, and many other rights). Oh,
yeah, read the Bible in the New Testament, St. Mark in Ch.2:27
and Jesus said "The sabbath was made for man, and not man
for the sabbath." One time I saw a tv program about Israel and
some people were ordered to get off the streets during the
sabbath which would never happen in America. We Americans

do with the sabbath what we want that's good because Jesus himself did with the sabbath what he wanted that was good. If you read the Bible you'd find out that Jesus healed people on the sabbath and he ate corn on the sabbath, which ticked off the Pharisees. Can you imagine if Jesus came back and destroyed the last anti-Christ which would bring permanent world peace, Jesus would still be ticking off some people for not being what they expected. What if Jesus is for Christian music played to the Oldies Rock music beat and has nothing against rock n' roll music? Think about how rock n' roll styled Christian music is now being played on guitar and drums in churches and you'd have to wonder if Jesus likes rock n' roll. Anyway, why can't all the people of Israel for a change try to be friendly toward Christians in Lebanon and amongst the Christian Palestinians and then the Israeli's would have more friends? Another thing, I believe that it's immoral to put people in prison for being Holocaust deniers since everyone in every nation should have the freedom of speech as we have in America. And yes, I believe that the Holocaust happened because I've seen the photos and Schindler's List movie. Why can't everyone just learn to love thy neighbor and pray for true peace? After all, if we Americans weren't fighting wars against Muslim countries then we could have used the close to \$1,000,000,000,000 that were about to spend on the wars in Iraq and Afghanistan on something better, like a free state-of-the-art health care system in America because most Americans don't have the money to pay for health insurance so if you go to a doctor you'll get harassed forever to pay up when you have no money to pay. In America the skies are getting smoggy from fireplaces and neighbors burning off their yard clippings, the streets are littered with aluminum cans and trash that no one wants to pick up, the high paying technical jobs that all Americans were guaranteed in the past are now going overseas to other countries because our companies are greedy and no longer care about their fellow man, and our children are no longer safe playing in their own yards. When I grew up in the 1970's thru the 1980's as a kid, I was able to play in my yard and ride my bike for miles away from my home and no one ever tried to harm me in any way. In this day and time we Americans have a huge population of child predators and men who think it's their right to rape women and try to get away with it. Why does it seem that people are no longer trying to follow the 10 Commandments or Jesus Christ's Commandment: "Do unto others as you would want done to you."
