US President Orders Military To Begin Jailing All Civilian Protestors To War

By: Sorcha Faal, and as reported to her Western Subscribers

In yet another shocking prelude towards becoming a Total Police State, Russian Intelligence Analysts are reporting today that the American War Leaders have issued orders to the United States Military Northern Command authorizing the jailing, and military tribunals, for any American citizen critical of the 'war effort'.

These reports state that the American President has '*lost his confidence*' in the American Judicial System and has further ordered his War Cabinet to begin attacking civilian judges, and as we can read as confirmed by the MSNBC News Service in their article titled "Gonzales: Judges unfit to rule on terror policy", and which says:

"Attorney General Alberto Gonzales says federal judges are unqualified to make rulings affecting national security policy, ramping up his criticism of how they handle terrorism cases.

"We want to determine whether he understands the inherent limits that make an unelected judiciary inferior to Congress or the president in making policy judgments," Gonzales says in the prepared speech. "That, for example, a judge will never be in the best position to know what is in the national security interests of our country."

The American War Leaders have further launched attacks against their own civilian judiciary from the Pentagon, and as we can read as reported by the Jurist Legal Research and News Service in their report titled "US law deans 'appalled' by Stimson criticism of law firms for representing detainees", and which says:

"More than 130 deans of US law schools signed a statement released Monday expressing their dismay at comments made last week by DOD Deputy Assistant Secretary for Detainee Affairs Charles "Cully" Stimson in a radio interview criticizing top US law firms for providing pro bono representation to Guantanamo detainees.

"We," the deans wrote, are appalled by the January 11, 2007 statement of Deputy Assistant Secretary of Defense Charles "Cully" Stimson, criticizing law firms for their pro bono representation of suspected terrorist detainees and encouraging corporate executives to force these law firms to choose between their pro bono and paying clients."

Furthering the complete destruction of the rights of the American people to 'due process' and 'fair trials', the American War Leaders have passed a new law subjecting their citizens to Military, instead of Civilian trials.

According to reports from the United States, this little known law was '*slipped into*' a large spending bill unbeknownst to US Congressional Leaders, and though '*seemingly*' applying to American contractors in fact subjects all American citizens to Military Arrest and Trials.

The most destructive of these '*new*' laws '*slipped into*' much larger legislation, and bypassing the notice of US Lawmakers, has overturned over 200 years of American procedures for appointing US Federal Prosecutors, and who are, according to the American Constitution, charged with being '*politically neutral*' so as to afford the citizens of the United States protection against prosecution by a vengeful government, and as we can read as reported by the Associated Press News Service in their article titled "2 U.S. Attorneys in Calif. quit, critics say Bush forced them out", and which says:

"Two U.S. Attorneys in California announced they are stepping down, as critics alleged political pressure from the Bush administration was pushing them and others out of their jobs. Kevin Ryan, chief federal prosecutor for the state's Northern District, and Carol Lam, who headed the state's Southern District, both announced Tuesday they would be leaving their positions.

The two are among 11 top federal prosecutors who have resigned or announced their resignations since an obscure provision in the USA Patriot Act reauthorization last year enabled the U.S. attorney general to appoint replacements without Senate confirmation."

Russian Legal Analysts familiar with American Law state in these reports that the significance of these actions being taking against American citizens by the US War Leaders shows the '*complete ascendancy*' to '*total power*' of the American President,

and who now is free to rule his Nation by decree free from interference by either the US Congress, or the American people themselves.

So powerless have the US Congress and American people become, that as outrage continues to build within the United States against the expansion of the war in Iraq, and the planned US attack upon Iran, the spokesman for the American War Leader has stated in response to a US Congressional move to block further war making:

"Presidential spokesman Tony Snow said resolutions passed by Congress will not affect Bush's decision-making. "The president has obligations as a commander in chief," he said. "And he will go ahead and execute them."

Russian Intelligence Analysts in these reports to President Putin have asked, *"If President Bush feels that he is not constrained by either the elected representatives of the American people, or the American people themselves, we must then consider that he, and his Administration, have become powers unto themselves and that the United States should therefore be considered a dictatorship, not a democracy."*

To the American people themselves, they remain in abject denial of the dark Fascist forces descending around them; but soon, and much sooner than they could believe, and with their families and neighbors disappearing into the vast American Gulag, what they once believed in as the American Dream, will soon be shown for what it really is, an American Nightmare.
