UPDATED: RED ALERT!!! 2008 Defense Authorization Bill authorizes use of US military for domestic purposes!

(update below)

Dennis Kucinich: 2008 Defense Authorization Bill authorizes use of US military for domestic purposes

Fri Nov 09th 2007, 09:01 AM

Representative Dennis Kucinich reported this during an interview with WINZ Miami radio station this morning. He is reading through this bill and for the first time last evening, noticed this language that has been inserted into the 2008 Defense Authorization Bill.

He said that this language jumped off the page at him and that he was very concerned that people learn about this provision that would authorize domestic operations for the US military.

This is a PDF file. I have typed out the pertinent section.

HR 1585

Section 1615, page 672 (of 794)

(Under TITLE XVI, NATIONAL GUARD ENHANCEMENT)

.....

DETERMINATION OF DEPARTMENT OF DEFENSE CIVIL SUPPORT REQUIREMENTS

(a) DETERMINATION OF REQUIREMENTS---- The Secretary of Defense shall determine the military-unique capabilities needed to be provided by the Department of Defense to support civil authorities in an incident of national significance or a catastrophic incident.

(b) PLAN FOR FUNDING CAPABILITIES---

(1) PLAN----The Secretary of Defense shall develop and implement a plan, in coordination with the Secretaries of the military departments and the Chairman of the Joint Chiefs of Staff, for providing the funds and resources necessary to develop and maintain the following:

(B) Any additional capabilities determined by the Secretary to be necessary to support the use of the active components and the reserve components of the armed forces for homeland defense missions, domestic emergency responses, and providing military support to civil authorities.

(2) TERM OF PLAN---- The plan required under paragraph (1) shall cover at least five years.

.....

Please call/write your members of Congress to alert them to this language and its implications.

Just a sign of times of things to come! When is our second American revolution coming? When are the brain dead stupidity going to get it that this is nothing for martial law and slavery? No hope for America. Americans deserve what they get if they don't shut off the TV and stop watching dumb down sitcoms and America's dumb Idol! WAKE UP!

On behalf of the American people and the people of the world, I write, with all earnestness and urgency, that the American military machine - and all its personnel, be they civilian or uniformed - need to come to the aid of the citizens they are bound by oath to protect. Our government has been hijacked by the very people that The Founders, previous presidents and other leaders, and recent, truth-loving patriots have warned us about. We are being led down the road to tyranny, which is impossible without our great military, which is bound to protect us from exactly that.

I urge all of you who are in present military service to lay down your arms against those whom you have been told are your enemy and return home by any means necessary to defend your country against the leaders who have invaded it and the private and foreign armies they have at their disposal to arrest, detain, confine and kill at their whim, in full affront to everything that the United States was founded upon - and in true and full compliance with your sworn responsibilities.

We need you now, more than ever, to defy illegal orders. The war in Iraq is illegal under our own laws and international laws. Even the resolution passed by congress, authorizing military force in Iraq, had conditions, and those conditions were never met. Any bullet fired in Iraq or Afghanistan is illegal; you are under no obligation to follow-through with any orders given. There has been no declaration of war, and there has been no legal authorization of military force. The only way we are going to defeat the forces that are attempting to destroy you, human rights and the American people is by getting you home before all of you are slaughtered.

If the United States military attacks Iran, our forces will be decimated, by simple, remote attacks on military bases and positions in Iraq, and by attacking the sitting-duck carrier fleets we have in the Persian Gulf.

This will leave the true prize wide open for those who own the money and who set the price of gold in the City of London: America. We will be defenseless, since our soldiers and National Guard have been sent overseas to die (if the IED doesn't get you, the DU will on the way home).

We will be subject to martial law, merged with the countries at our borders and primed for the global government that is planned - based on control, greed and a hatred for humanity. These people would rather see the world destroyed than give up their influence over it. The United States military is their

plaything; The USM also becomes a means to our salvation from them. Come home and defend us. You've been told, deliberately and wrongly, that our enemies are foreign - except for our "one ally" in the middle east. It's time for you to realize that the entire, rest-of-the-world views the United States and Israel as the enemies to world peace. Please do a little thinkng and do a little research and, please, come home.

I don't own a gun because I don't want to kill anyone or hunt anything, but I, my daughters and my friends might find great need of fellow Americans who were trained in such things and armed accordingly. Please come home and help us. Your enemy is the one who has taught you to use force against their enemy, and they are the greatest enemy to the country you are sworn to defend. Don't be fooled.

The United States of America is defined by it's Constitution, its internationally recognized borders and its people. It is not defined by the policy of any federal government that has chosen to steal the resources and people of its borders. It is not defined by those who hold office and act outside of its constitution or the will of the people. You are sworn to uphold us, who would rather not have you fight at all. Please come home and defend us.

With love and respect.
