

Senator Bingaman Cites Public Outcry as Best Chance to Prevent War with Iran and End the Occupation

At the recent Joint Session of the New Mexico Legislature, US Senator Jeff Bingaman spoke on education, healthcare and global warming. After his address, Mother Media caught up with him in the hall. We gave him several documents regarding the Impeachment Resolution and the threat of a wider regional conflict. We then asked his opinion on the best way to prevent war with Iran. He did not offer a legislative solution, but instead said, "I think the public outcry is having a real effect on the discussion in Washington." So turn up the volume, my friends.

Iran Strike Increasingly "Seen as Inevitable," Major Citizen Action Required to Restrain Commander in Chief.

House Judiciary Chairman John Conyers has made two great points recently. One is that [Congress can fire the President](#). No kidding. Let's Roll on that one.

Point two is that it may be more immediately essential to stop the wars on Iran and Iraq than to impeach. This was his excuse to Amy Goodman this week for stalling on impeachment. An excellent set of articles on the upcoming war with Iran can be found on [Information Clearing House](#).

As long as the plan is to prohibit war with Iran, end the occupation of Iraq and then impeach the President and Vice-President, I'm with Conyers. New Mexico Impeachment Resolution in Stunning 3-2 Victory Sunday. All Eyes Turn to Judiciary Committee and Swing Votes Sanchez, Rainaldi and Martinez Judiciary Chairman Cisco McSorley both signed and voted for the bill in Rules and we hope to get a hearing this week, but have heard from the Committee Secretary Mary Parlet that it will not be scheduled until next week. Supportive and thankful calls to his office encouraging a hearing as soon as possible are in order. More importantly please call Senators [Michael Sanchez](#), [Lidio Rainaldi](#) and [Richard Martinez](#), the swing votes on the Judiciary Committee. Action Items

1. Tell all your friends what is going on. Ask them to call the Senators. Call everyone you know and tell them about the hearing. Call [the press](#) and ask them to cover it. Forward this message to your lists and friends.
2. Personally visit with Senators Sanchez, Rainaldi and Martinez. Senator Michael Sanchez is especially important to the resolution because he is the Majority Leader and as such controls the schedule for the floor vote should we make it through Judiciary. Not only will we need his vote in the Judiciary Committee where he was once Chairman, but we will need his active support in order to get a timely hearing on the floor. Bring copies of [the resolution itself](#), our [talking points](#), the New Mexico [Democratic Party platform](#), and your favorite documentation on the subject. My favorite is [James Bamford's article on ACLU vs NSA](#) which shows that a Federal Judge has found the Bush Administration **guilty as charged** for violating the Constitution as well as the Foreign Intelligence Surveillance Act. Senator Ortiz y Pino's latest [official SJR 5 Press Release](#) is also useful.
3. Call or visit with the other Senators and Representatives from Valencia, Cibola, McKinley, Rio Arriba, Los Alamos and Santa Fe County. **These are the Senator's neighbors**. If they are in support, ask them to speak with the swing Senators.
4. Call the leaders of the [Valencia](#), [McKinley](#) and [Rio Arriba County](#) Democratic Party, most of whom were also delegates to the Platform Convention. Ask them to pass a resolution in support of SJR 5, and to inform party members of the upcoming Judiciary committee hearing, to attend it, and to call their Senators.

Retribution, and Coverups in the Iraq War, and Illegal Domestic Surveillance makes the most authoritative case I have yet seen for impeachment.

I was under the impression that there was no restraining the Executive Branch barring impeachment, but perhaps the time has come to maintain a dual focus for activism. In this time of urgent crisis, especially for Iran's children, be sure to put some pressure on our Federal Congressional Delegation to lead the effort to forcefully restrain executive militancy. Use the below form to make your calls. Ask for the staff member in charge of the war issues and track down the Legislative Director if possible.

Putin says U.S. wants to Dominate World

By Louis Charbonneau

MUNICH, Germany (Reuters) - Russian President Vladimir Putin, in one of his harshest attacks on the United States in seven years in power, accused Washington on Saturday of attempting to force its will on the world.

The White House said it was "surprised and disappointed" by Putin's accusations but added Washington expected to continue to work with Moscow in areas such

In a speech in Germany, which one U.S. senator said smacked of Cold War rhetoric, Putin accused the United States of making the world a more dangerous place by pursuing policies aimed at making it "one single master".

Attacking the concept of a "unipolar" world in which the United States was the sole superpower, he said: "What is a unipolar world? No matter how we beautify this term it means one single center of power, one single center of force and one single master."

"It has nothing in common with democracy because that is the opinion of the majority taking into account the minority opinion," he told the gathering of top security and defense officials.

"People are always teaching us democracy but the people who teach us democracy don't want to learn it themselves." - [Read More](#)
