## America, your president is about to launch World War III

by **The Canadian**

[PERMANENT LINK](#)

The facts:

1. Iranian Revolutionary Guard (IRG) have been spotted by the British on at least three occasions crossing the southern Iran/Iraq border nearest Basra and deploying spec. troops. On the Iranian side are the bulk of Iran's Province of Khuzestan's oil fields. These oil fields would be prime targets in the event of a U.S.-led invasion. The IRG specialist troops have the task of attacking communications, command, control, and intelligence facilities, and causing general chaos in the event of war.
2. Iran has rationed fuel to its population causing riots and discontent which have been widely reported in world media.
3. Hugo Chavez of Venezuela has dramatically escalated his socialist policies, and actually nationalized all of the Orinoco production facilities, where large US oil and gas companies have literally billions invested in infrastructure.
4. Hamas has taken over the Gaza strip.
5. Hez b'Allah have begun aggressively reasserting itself in Lebanon.
6. Syria has significantly bolstered its troops and moved these troops closer to the Golan Heights much as they did prior to war in '73 (Yom Kippur).
7. Turkey has massed more than 50,000 troops on the northern Iraq border against the Kurdistan Workers' Party (PKK). Note, however, that NW Iran borders SE Turkey.
8. The Arab Gulf States have openly declared they are preparing/prepared for a U.S./Iran conflict this Summer.
9. Significant U.S. politicians are openly advocating war with Iran. These war advocates are Republicans, however, no voice of dissent is being heard from the Democrats.
10. Anti-Iranian propaganda is in full-swing of late.
11. The largest naval armada assembled off the coast of Iran since the 2003 Iraq war commenced is assembled and waiting. A 4th US Carrier fleet will secure the Suez.
12. The US Strategic Petroleum Reserve is full.
13. Next round of U.N. sanctions are on the way.
14. Politicians on all sides of this conflict have a vested political interest in war as a means of political survival. They are all hard-liners.
15. Moscow has released nuclear fuel to Iran for the Bushehr reactor.
16. Israel has recently and successfully launched its [Ofeq-7](#) spy imaging satellite which gives it a great view of Iran (amongst others).

Conclusion: War is close.

Understanding that Iran is oil rich, but refinery poor, it is still quite an unusual event for them to ration petrol. They knew that it would cause public discontent and would be covered widely in world media. Despite the embarrassing news of riots, Iran knows that rationing petrol is a strategic preparation for war.

A military cannot function without petrol. And Venezuela's Chavez knows he cannot supply Iran, but he can help starve the U.S. of oil (but not for long ...)

Iraq. Out. Now.

You've "connected the dots" so vividly the dots just disappear under the direct line, and the direct line ends in an arrowhead. The rhetoric from the White House has reached its logical (but insane) conclusion, bringing America to the verge of yet another concurrent war over lies.

And this war will probably be World War III.

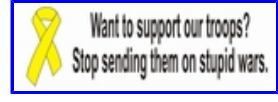

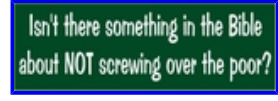

And it's almost certainly too late to avert it.

And the top story in the news tonight will be that Paris Hilton farted.

Paris. Makes sense to me. When the Roman Empire was collapsing, the Emperor decided to avert the Mobs' attention by holding a year's worth of fantastic games and slaughters in the Coliseum. Meanwhile the Barbarians were on the border.

Anything sent to Unknown News may be published. If you don't want it published, say so plainly. Of course, we publish all incoming hate mail.

Unknown News is more fun and more informative with your participation, so please don't be shy. Consider yourself invited to speak your mind.

Because we respect peoples' privacy, we do not keep records of friends' and contributors' contact information. This means we can't forward private communications between readers and writers, but we always welcome dialogue for publication.

When we publish incoming emails, we usually edit out the sender's last name, email address, or anything else that would tend to uniquely identify the author (if we slip up, please let us know). But if your email is unambiguously intended only to annoy, insult, or threaten us, we'll publish all the details, and leave it on-line forever.

We're especially interested in hearing and considering different perspectives. All we ask is that you conduct yourself sanely and civilly. For the most productive dialogue, it helps if you'll cite a specific article or concept we've gotten wrong.

You can contact Helen & Harry at <newsuneed at yahoo.com>. If that address ever fails, our back-up email address is <unknownnews at inbox.com>.

But please, don't email us unless you're really and truly, honestly, actually trying to send the publishers of News a communication you're not sending to anyone or everyone else.

Please don't send attachments or other cr\*p we don't want.

If you're trying to reach us but getting no reply, it's probably because you've sent us cr\*p we don't want, so we're filtering your emails into the trash, unopened and unread.

If you'd like to have your email address unblocked, simply send a sincere apology (from an un-blocked email address).

We sell our own progressive bumper stickers:

pro-peace, anti-Bush, pro-freedom, anti-Republican stickers you won't find anywhere else.
