Zündel attorney accused of 'mass incitement'

Defense attorney Jürgen Rieger [above] tries to bring evidence before the court.

MANNHEIM — The Mannheim state attorney's office has brought nine counts of Volksverhetzung — "mass incitement" — against Politically Incorrect attorney Jürgen Rieger. The 61-year-old dissident, previously convicted on similar charges, had defended Holocaust™ challenger Ernst Zündel in court.

According to a spokesman for the prosecutor's office, Rieger himself is accused of having, as Zündel's defense counsel, repeatedly disputed and "played down" the alleged genocide of Jews in World War II.

In addition, the state attorney's office is seeking to have the well-known Hamburg jurist barred from legal practice. No date has been set for trial of the case.

In February Zündel was sentenced to a maximum five years in prison for so-called mass incitement. According to the court, he disputed the death of six million Jews on the Internet from Canada and in related publications.

Another Zündel attorney charged

The federal court, meanwhile, has rejected an appeal. At the trial, Zündel's defense — representing five lawyers before the court — called the casualty figures of the Jewish "holocaust" into question.

Another Zündel defense attorney, Sylvia Stolz, has been accused of Volksverhetzung. She has been ordered to appear on November 15 before the state court in Mannheim. The state attorney's office is likewise seeking to have her disbarred from legal practice.

Because of "sabotage" the lawyer was excluded from the Zündel trial. She is accused of having signed a letter to the court with "Heil Hitler."

Continuing the fight for a better world —

Interesting concept - that a court has jurisdiction not because it has any subject matter or evidence but because it claims it. Hokum judges and a compliant sheep like population. The judges in this case are little more than religious ministers and certainly not impartial. From reading Zundel and Gerharts writings it appears they are more correct than inflammatory. The question that should be considered is whether the courts in Germany are constitutional or still World War II provisional. If not constitutional they do not represent the German people at all, even in the slightest way. They are simply "in place" or de facto as we say about even our present corporate government in the U.S.

But of course the courts cannot present a single real man or woman who can provide evidence that they have been damaged by what Zundel and others have claimed. The sentences are a complete farce, upheld by status quo thugs in uniform and a society so controlled it makes the U.S. look like a free country (for the present).

What solution is there for "I am right - you are wrong. No evidence is acceptable." kind of rubbish. So what was the supposed point of a bunch of men and women getting together to defeat Hitler and Stalin and Mussolini - according to the evidence of these cases - no point at all. The same zombies proliferate in Germany that are in Canada and

more commonly found in the U.S. so called courts of no jurisdiction.

Incitement to what ? That the masses might at least come to understand that they are being lied to and denied the opportunity to discover what's real with their own eyes and not only through psychaedelic lenses manufactured by the Jewish Cyclops ? The Jew fears losing his monopoly in defining the "truth" and demands the brain dead walkers go back to sleep.
