

The six million figure : Jewish population losses in the German sphere of influence during the World

1. The six million figure

On 24 May 1995, the Berlin newspaper Die Tageszeitung, reporting that the **Holocaust museum in Yad Vashem was planned by the Zionists as early as in 1942, expressed surprise at the fact that such a step was already being envisaged at a time when most of the future victims were still alive.** As a matter of fact, the legendary six million figure was repeatedly mentioned by prominent Jews long before World War Two ended.

In December 1944, before the liberation of Auschwitz by the Red Army, Soviet Jewish propagandist Ilya Ehrenburg - who in his articles regularly exhorted the Soviet soldiers to slaughter German civilians and to rape German women - wrote (1): "Ask any German prisoner of war why his compatriots annihilated six million innocent people, and he will simply answer: Well, they were Jews." On May 31, 1944, another Jewish propagandist, Slovak Rabbi Dov Weissmandel, stated in a letter (2): "Up to this day, six times a million Jews of Europe and Russia have been exterminated." Two years earlier, in May 1942, yet another Jewish propagandist, Nahum Goldmann, who would later become president of the Jewish World Congress, predicted at an event in New York that of eight million Jews living in the German sphere of influence only two to three million would survive the war (3). According to the orthodox Holocaust story, the extermination of the Jews had just begun at that time, so how could Goldmann know the future number of victims?

Our astonishment assumes huge proportions when we learn that the six million figure already made a premature appearance in 1919. On 31 October of that year, the American Jewish newspaper The American Hebrew bewailed a "holocaust" - this word, which means "sacrifice by fire" in the Greek language, was actually used in the article! - going on in some unspecified area in Eastern Europe. The author assured that this "holocaust" had claimed, or was about to claim, six million victims. The six million figure was mentioned no less than seven times. Six is the holy number of Judaism, so we can safely assume that the alleged number of Holocaust victims is a Jewish religious myth derived either from the Thora or the Talmud.

Judson writes: *"The Jewish supremists want you to believe that this so-called holocaust was the result of what the Nazis did, but in reality, it was really a gigantic con-job pre-planned by the Jews to fool the world into accepting their scheme to take over Palestine and to keep the rest of mankind apologizing to them for their shameful treatment of the European Jews."*

Just how was the 6 million figure arrived at by the Jewish supremists even before WWII had ended ... even as early as 1942, a holocaust museum was in the planning. I know the Jews are in-your-face sort of people, but to be able to pull this off while hidden in plain sight is unbelievable. Now Kreplach comes up with these fake photographs and tries to persuade people that it is all true ... even the US Army liked the Swastika before the Jews found out about it.

They have a word for it; chutzpah....

chutzpah

1892, from Yiddish khutspe "impudence, gall" from Heb. hutzpah. The classic definition is that given by Leo Rosten: "that quality enshrined in a man who, having killed his mother and father, throws himself on the mercy of the court because he is an orphan."

"These Holocaust deniers are very slick people. They justify everything they say with facts and figures." Chairman, New Jersey Commission on Holocaust Education

The number of victims of talmudic supremacists, a.k.a. zionists, dwarfs the so-called "Holocaust," leaving your pictoral obsession with random necrophila only partly-explained.

Pre-edited into meaninglessness.

Why is there a big circle around Sylt on the Channel Islands? I don't think there were any Jews in the Channel Islands in WWII?

"At the beginning of 2004, 1,092,000 Holocaust survivors were still living worldwide, about half of them in Israel". About 10 percent of survivors die each year, the report said.
